The programme for the conference is the following notes pertaining to the idea and object of the conference. Christianity is larger than any church or state or race of people. It is large enough to adapt itself to either the material or the spiritual needs of the individual and to maintain its perfect character. It is applicable to human life wherever and whenever conditions are such that the Christian is awaiting the fact that the coming, commerce and character of nations are in the hands of the individual. We are called upon to consider Christian life from this broader position. This inter-denominational missionary conference is planned for the purpose of aiding the people of this locality to perfect a larger view of our mission as the disciples of Christ.

The series of topics have all been arranged to cover the different points of interest at this time in Christian life. The several topics will be touched upon separately and in the final address they will all be summed up when Rev. J. H. Newland will read the address on "The Christian Outlook in the Twentieth Century."

WOODLOT CASE IN COMMON PLEAS COURT

Four Witnesses Heard in Suit of Avery vs. White on Wednesday—Defense Expected to Open Today.

In the common pleas court in Norwich on Wednesday the trial of the suit of George W. Avery vs. Charles E. White of Andover was resumed before Judge Waller and a jury.

The plaintiff is a farmer owning a tract of woodland of 7-1/2 acres in Norwich. The defendant is an extension dealer in lumber and timber, and carries on with steam sawmills and choppers a cutting of trees in the woods.

It appears that in 1901 Mr. White purchased the right to cut the trees on the land of one Rogers and one Burgess, adjoining Mr. Avery's land. In October of November of that year Mr. White, with his choppers, cut off the wood on the Burgess and Rogers lands. The plaintiff claims that at that time the defendant cut over the line and for a space of eight or ten rods wide and 20 rods long cut the trees on his land; that it was done without justification and with full knowledge upon the part of Mr. White, that he was crossing the bounds and cutting off the wood.

The trees used for, it is claimed, were cut on or about October 15, and were 212 in number. The suit is brought under a statute of the state that where any person cuts trees on the land of another without the owner's consent he shall be liable to a penalty for each tree cut, fixed by the statute, and in addition thereto shall pay three times the value of each tree cut.

The witnesses for the plaintiff are still being heard, and it is expected the hearing of witnesses for the defendant will be begun this afternoon. The witnesses on Wednesday were George N. Ford, David W. Avery, Edward W. Taylor and one Concord.
