Corner Main and Shetucket Streets.

## WHALING TRIP WAS ROUGH

Those on the Margaret had Plenty of Experiences and Brought Home Many Souvenirs—Norwich Well Represented—Going on Another Trip.

The whaling schooner Margaret, which is operated by local capital, arrived in this city on Thursday afternoon shortly after 1 o'clock and docked at the steamboat wharf. There was a large number there to greet the vessel, which came up the river under tow with both flags flying, and the crew eager to get ashore. For the remainder of the day there were many people who were at the wharf looking over the schooner which had returned from its second whaling trip. The cargo of the boat will be unloaded here and the whaler put in shape for another trip, there being quite a little repair work because of the damage sustained in the recent blow, when the starboard quarter rail was smashed and a boat lost.

There was added interest in the arrival of the boat from the fact that so many young men from this city were in the crew. All returned hale and hearty and a number of them are willing to go again.

The officers and members of the crew are as follows:

First Mate—Joseph Beetham of Norwich.

Second Mate—James E. Denison of Groton.

Third Mate and Cooper—Timothy Fields of Hope Valley, R. I.

Boatsteerer—Alexander Hunt of New Bedford, Mass.

Boatsteerer—Lilienton Mars of New Bedford, Mass.

Cook and Steward—Byron D. Clark of Hope Valley, R. I.

Seamen—James E. Friery, James J. Nolan, Joseph Lysinky, Albert J. Fielding, Emerson Smith, Dos Govang, and William Beetham of Norwich; Charles Louprett, John Skiffington and Louis Langour of New London; John

McClure of Poquonoc, and Hector A. Snow of Ocumt.

Cabin Boy—William C. Hunter of Norwich.

Hunter is the youngest member of the crew, being 19 when he shipped, but having passed his 20th birthday at sea. When he went aboard he told someone he was going to have a good time. An old whaler remarked: "You'll have a good time, but it won't be the kind of a good time he expects." Hunter has not witted as much as it might have been supposed he would.

At the Barbadoes, the last stopping place, there were two members of the crew who deserted, they being Thomas Langer of New London and Samuel H. Handy of Centerdale, R. I. A certificate from the American consul there showed that these men had deserted.

The members of the crew met Dr. George R. Harris, who is the manager of the schooner here and reached an agreement regarding their pay.

Among those who say they enjoyed the trip and is willing to go again is James Nolan of the West Side. Albert J. Fielding, sailing mate, is in charge of the sawspit of the whaler when Walter Snow was lost overboard and drowned. He brought home many interesting souvenirs, including a number of seal puppy skins, which are of little or no value, and the crew is allowed to keep them. Each of the crew has an interesting tale to tell in his own way of the many experiences before the mast and they had plenty of bad weather in which to secure this experience.

The crew and officers of the whaler all left on Thursday afternoon and for the rest of the day and night Superintendent Blinderman was in charge of the boat. The quarter rail is badly smashed, being tied up so as to continue the trip with a long spar.

### CREW EXONERATED.

Coroner Brown Investigated Death of A. E. Burdick.

On Thursday Coroner Franklin H. Brown, after a lengthy investigation into the surroundings of the death of Alpha E. Burdick, decided that it was an accident and no blame attached to anyone.

Coroner Brown entirely exonerated the crew of the car from culpability in the death of the unfortunate man.

Valentine Burdick of Moosup, father of the deceased, stated that his son was 29 years of age and, with others of the family, spoke of the physical disabilities of the deceased. He said that his son had on several occasions had periods of total collapse—fainting spells he called them—during which Alpha would know nothing of his surroundings. It was his opinion that during one of these his son had fallen down on the track where he met his death.

Members of the family arranged for the removal of the body to Central Village, where the internment will take place.

The deceased was at one time a resident of this city and had many friends here.

### People Grow

Thin and Weak because new tissue is not made as fast as it is used.

The ingredients of Father

John's Medicine are the exact kind of food and nourishment blood and tissue are made of.

It is guaranteed to make flesh and strength for those who are weak and run down.

### RAISING THE SALARIES.

Changes Which Are of Interest Here—State Has Good Officials.

(Special to The Bulletin.)

Hartford, April 15.—The measure which increases the salary of the state commissioner, H. E. Potter, of North Haven, changing his title from state commissioner to dairy and food commissioner and gives him more money for the expenses of his department, which was reported favorably in the house today, also touches the deputy commissioner, Tyler Crutenden, of Norwich. Commissioner Potter's salary is now \$1,400 and he will get \$1,500 the bill passes, as will Commissioner on Domestic Animals H. O. Averill by the passage of a similar measure which has been favorably reported.

Deputy Commissioner Crutenden's salary is now \$1,500 and he is to have an increase to \$1,600 under the terms of the measure. All of these salary increases merely bring the salaries up to the standard which prevails in most of the state departments through the capitol and there are salaries which are well in excess of these. The state has unusually good officials in these three places and there is little doubt of the recognition of this in the ready passage of the bills.

Norwich is also concerned in the bill which proposes to establish a state banking department and raise the salaries of the dual commission to \$2,000 a year, for Norris S. Lippitt is one of the banking commissioners. This bill is hardly likely to go through. It is a rather complete reorganization of the system of state supervision of savings banks, too complete to be really popular. It is likely, however, that a substitute will receive favorable action and in this the salaries of Commissioner Lippitt and Noble will be raised.

### Change in Boss Carder.

Douglas P. Waters of Poquetanuck has severed his connection with Benjamin Lucas & Co., as boss carder, a position which he has held for the past eight years. J. P. Matteson of Norwich, R. I., is his successor and began his duties Monday morning. Mr. Douglas is a native of Hanover.

Charles B. Lucas, during the illness of his uncle, Aaron Lucas, is acting as paymaster and bookkeeper at the Lucas woolen mill at Poquetanuck.

Groton.—Warden Edward E. Spicer of Turkey street, who has been in Florida for about three weeks, has arrived home.

### CHELSEA BOAT CLUB.

Herbert B. Cary Elected Commodore—Committees Named.

At a meeting held Wednesday evening at the clubhouse, the Chelsea Boat club elected Herbert B. Cary commodore to fill the vacancy caused by the death of Augustus Coit. Vice Commodore W. Tyler Olcott presided at the meeting, but would not allow himself to be considered for election to commodore because he is absent from the city during the summer. The newly elected commodore is a member of the board of governors and has belonged to the club nine years, being one of its most enthusiastic members and well fitted for the presiding office.

The following committees for the year were appointed by Commodore Cary: Real estate, W. T. Olcott, Henry G. Peck; for the relief of Gen. Edward W. Whitaker of Ashford, the bill authorizes the president to nominate, by and with the advice and consent of the senate, to reappoint General Whitaker, late lieutenant colonel of the First Connecticut cavalry and brigadier general by brevet, a captain in the army of the United States; and when so appointed he shall be placed on the retired list of the army, unlimited, with the pay and emoluments of a retired officer of that grade, the retired list being thereby increased in number to that extent.

### FOR GENERAL WHITAKER.

Bill Making Him Captain and Placing Him on Retired List Reintroduced. (Special to The Bulletin.)

Washington, April 14.—Congressman Higgins has reintroduced in the house the bill for the relief of Gen. Edward W. Whitaker of Ashford. The bill authorizes the president to nominate, by and with the advice and consent of the senate, to reappoint General Whitaker, late lieutenant colonel of the First Connecticut cavalry and brigadier general by brevet, a captain in the army of the United States; and when so appointed he shall be placed on the retired list of the army, unlimited, with the pay and emoluments of a retired officer of that grade, the retired list being thereby increased in number to that extent.

### Taking Vacations.

The members of the house are taking a much needed rest since the tariff bill has been sent over to the senate. Mr. and Mrs. Henry have left for a ten days' visit at home. Mr. Higgins will go to the state for a few days' rest. Mr. Hill will also be out of town for a few days, and Mr. Sperry is contemplating a short trip to the Hot Springs of Virginia. The senators will, of course, remain at their posts.

Senator Bulkley said yesterday that he expected the senate to pass the bill by the 18th of May and that the congress would have agreed and the bill become a law by the first of June.

### Live at Midway or Harlem.

New Haven road engineers and drivers who are on the "extra" list are commenting considerably on the report that they will have to take up their residence either at Midway, a small station six miles east of New London, or at Harlem. At present, when these extra work sixteen hours, running through, they report at Midway or at Harlem, and finish at either of these two stations. The necessities considerable "deadhead" riding between these points and New Haven, and to eliminate the "deadhead" riding is one

of the company's reasons for having the men move to Harlem or Midway. About 200 men will be affected by this order.

Within a circle of 60 miles in diameter, with its center in New York, there are more telephones than in all Great Britain.

A London gardener named Wallace, who was out of work while reading a Bible which he had bought in a second-hand store, came upon two five-pound notes (\$25) and the following inscription: "I gathered this with great difficulty, but, having no relative who is in absolute need, make thee, whoever shall read this Bible, to be my heir."

## Manhattan Clothes...

The Best Styles and Values

Our Phenomenal Easter Trade demonstrated the superiority of Manhattan clothes and values.

## Are You a Lard Eater?

Half the time when a person feels blue and out of sorts you may take it for granted that he is a victim of the "lard habit." Lard-cooked food and good stomachs are never friends for long. Lard food is not healthful food and no ordinary stomach can thoroughly digest it.

Lard comes from the pig-sty; *Cottolene* from the cotton fields of the Sunny South. Lard is greasy, indigestible, and sometimes absolutely harmful; *Cottolene* makes food digestible, nutritious, delicious. *Cottolene* is the perfect shortening and frying medium. It is pure and healthful. It contains not an ounce of hog-fat.

*Cottolene* is today in use by thousands of housewives who would no more think of going back to lard than they would of reverting to tallow dips for lighting their homes.

*Cottolene* is one of the products which pure food advocates always endorse.

**COTTOLENE is Guaranteed** Your grocer is hereby authorized to refund your money in case you are not pleased, after having given *Cottolene* a fair test.

**Never Sold in Bulk** *Cottolene* is packed in pails with an airtight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

**Cook Book Free** For a 2c stamp to pay postage, we will mail you our new "PURE FOOD COOK BOOK," edited and compiled by Mrs. Mary J. Lincoln, the famous Food Expert, and containing nearly 300 valuable recipes.

Made only by THE N. K. FAIRBANK COMPANY, Chicago
