WULF Sherwin-Williams Paints. The present generation can scarcely realize the prejudice that formerly existed against ready mixed paints. They stood in the same category as patent medicines. Today more than two-thirds of the painting is done with prepared paints, and we venture to say that more than two-thirds the prescriptions filled in our drug stores are prepared formulas. It is now realized that the products of the factory and the laboratory are superior to the compounding of the ordinary artisan. Success is measured by attainment. The Sherwin-Williams prepared paints have attained the largest sales of any prepared paints in the world. There's a reason.

What Work They Have Done Told in State Regent's Report Submitted to National Congress.

(Special to The Bulletin.) Washington, April 20.—Mrs. Sara T. Kinney, Connecticut State Regent, daughter of the American Revolution, handed in her report for the year just closed, this morning. The report was not read, but will be printed with the annual address of the regent, presenting her report, Mrs. Kinney said, in part: "It is always a happiness to be able to report that the Connecticut D. A. R. continue in well doing along their several lines of patriotic endeavor, and that the assistance to the objects and aims of the national society is as unquestionable as it is encouraging and invigorating."

The following state committee for this department has recently prepared and sent out to each chapter a new circular outlining the work for the coming year, and a set of 40 reception sashes have been purchased to be shown in connection with lectures on American history to be given for the benefit of our foreign citizens. "Thirty of our forty-seven chapters are now earnestly engaged in what we call patriotic-educational work, and in doing this work we feel that we are not only obeying the injunction of the Father of our Country, but also contributing to the national constitution, but in educating and trying to make good American citizens and patriots of a certain class of foreign and foreign-born children, we are doing the very best kind of patriotic work for home and country."

The chapter which is dear to the heart of every Connecticut Daughter is the care and maintenance of the Ellsworth homestead. This place contains and as long as it remains shall stand it will continue to be a Mecca for patriotic pilgrims. During the last season and up to the middle of November, 1908, the Ellsworth homestead, it is beautifully cared for by the custodians. "Our membership remains practically the same as last year. Among our gains this year, we count two newly discovered 'real daughters,' and Mary Enright were visitors in New London Tuesday.
