REPORT OF CHARITABLE INSTITUTIONS

Set Forth in Report of State Board Showing Accomplishments and Shortcomings—Cases of the Poor in County.

The reports of the board of charities of the state for 1907 and 1908 has been issued by the secretary, Charles P. Kellogg, and refers to a complete and extensive work carried on throughout the state in the charitable institutions, where there is supervision by the board. The report is given to the Norwich Hospital for the insane, regarding its new buildings, and concludes as follows: Notwithstanding the difficulties encountered in starting such an institution in this county, it is becoming organized as one of Connecticut's well-organized and well managed institutions.

County Homes. The report says that conditions of reasonable comfort and good order are found in the homes as a rule, but criticism must be made of serious overcrowding at the Fairfield county home where ninety-five only of the two hundred and nineteen children of its rolls can be accommodated and they are crowded into eighty beds which constitute the home's capacity.

Alms-houses. There are twenty-one towns in New London county, of which eight maintain almshouses, and one of these has one and one-half almshouses owned and managed by private individuals, this being in Lebanon, where Mr. and Mrs. C. J. Holmes are the keepers, near the Turnersville station. Regarding the local almshouse, Mr. Kellogg, who visited it, reports that the house appeared to be in good condition and the food supply was sufficient.

Regarding this institution it says: This worthy charity was established in Norwich in 1852, and is conducted under the auspices of the United Workers' society. It is situated about two miles north from the center of the city and may be reached by the Norwich Town line of electric cars.

The home provides accommodations for thirty children in pleasantly furnished rooms, nurseries, etc., and children of any age under twelve years are admitted, the preference being given to aged children of the town and of the city. The life of the home is that of a family rather than of a formal institution. All of the children who are in the home are under supervision until they reach the age of 21 years. In certain cases they are given in adoption. The home is conducted on a non-sectarian basis and is doing excellent work.

Huntington Memorial Home. The home is located at No. 25 Washington street, Norwich, and occupies a splendid old-fashioned house surrounded by attractive grounds. It was formerly the residence of Jedediah Huntington, whose generosity established the home as a memorial to his wife. The original endowment has been increased until now it amounts to about \$30,000 and the income from this largely supports the home.

Cost of County Poor. The table relative to the cost of maintaining the poor in the several towns of the county will be of much interest, showing as it does the wide variance of the several towns in the amount expended. No city leading in the amount of support is Norwich, which is next to the largest, being way below Norwich in the proportionate expenditure as well as the proportionate total. The table follows:

Table with 10 columns: Town, Population, Estimated 1908, Cost of Poor in Almshouse, etc., and other financial data.

At New London almshouse. \$15,758 \$23,077 \$38,900 \$29,229 \$30,906 \$2,54 280 974 446
