He is having the brick walk on the Bellevue street side of his property paved with Tuttle harden brick. His brother Albert is doing the work, the latter having inspected sidewalks recently in several cities, decided brick was the best material. In instances where trees grow close to the curbing and at times when repairs are made, the brick can easily be replaced instead of tearing up most every other kind of material. Mr. Gurley said yesterday the special committee on sidewalks has recommended the brick and he had their sanction to go on with the work.

93 YEARS YOUNG.

William Perry is Guest of Anthony Ames, Another Youngster of 84.

William Perry, a young man 93 years of age, now residing in a town about 75 miles west of Chicago, is visiting with relatives and friends in Danielson and Putnam.

Mr. Perry left Ballouville about 50 years ago and has since made his home in that section of the country. He was employed in that village as a dressmaker in the mill and it was at that place that he became acquainted with Anthony Ames of Spring street, who was also employed at Ballouville at that time as an accountant in the mill office.

Few men have ever lived in this country who have retained the faculties in such a remarkable degree as Mr. Perry. He is not the kind of a man that lives well along in the years and then dies, but just merely exists. He gets as much enjoyment out of life as he did 75 years ago. He does not look and does not act like an old man.

Mr. Perry is a good, active man of 60. He has the vim, the physical strength and the mental capacity to get around as spry as the proverbial kitten and to see things through the eyes of an optimist. His yearly trip of more than a thousand miles to visit with his relatives, which he does not worry him a little bit and he makes it in comfort and with pleasure. He brought his son, James, to the city last year. He is now beyond 80, and re-introduced him to his former schoolmaster, Anthony Ames. Mr. Ames is another youngster of 84.

Mr. Perry likes to get back to the old Connecticut once in a while and also likes an annual shore dipper, which he never neglects to take. At that point on the Providence river, where they serve their shore dinners in the good old-fashioned way.

After prolonged discussion as to whether the present outlet of the sewer system into the river under the Quinebaug bridge, relating to sewer lines, as to create a nuisance and be a menace to public health, and after a motion to indefinitely postpone all action on the matter relating to sewer lines, the special borough meeting on Tuesday evening voted to accept the report of the warden and court of burgesses relating to the necessity of a change of terminal and to adopt their recommendations for the proposed extension and a new terminal site. The terminal site includes a new trunk line sewer from Main street through Water and Franklin into the river at the Quinebaug bridge, and a new trunk line sewer from Main street through Water and Franklin into the river at a point below the mills of the Quinebaug company, which is an extension of the present sewer line to a junction with the trunk sewer at Dyer street.
