Women with Fascinating Hair Always Attract Attention

If you are a woman with dull, lifeless, ordinary hair, do not feel distressed. Just make up your mind now that you can have just as luxuriant and captivating a head of hair as any other woman; and quickly, too.

Just go to The Lee & Osgood Co. this very day and get a bottle of Parisian Sage. Use it as directed, and in two weeks your scalp will be free of dandruff, your hair will be soft, lustrous and beautiful.

If your hair is falling out, Parisian Sage will stop it. If your hair is thin, Parisian Sage will make it grow in heavily. If you have dandruff it will quickly vanish when Parisian Sage is used.

It prevents hair from turning gray; stops itching scalp almost instantly and is the ideal dressing for daily use. A large bottle costs only 50 cents at The Lee & Osgood Co., or direct, all charges prepaid from the American Makers, Gloucester, Mass., Buffalo, N. Y.

For a long time my hair had been falling out and my scalp gave forth great quantities of dandruff. I used several so-called hair tonics but never received any benefit until I used Parisian Sage. This wonderful tonic cleared the scalp and hair, removed the dandruff and stopped my hair falling out. There is nothing too good for me to say for Parisian Sage and I strongly endorse its use. Mr. Jennie Sweet, Lowell, Mich., June 25, 1909.

FIRST NO LICENSE RALLY

Held in Union Hall, Greenville, with Several Speakers— More to be Held with Out of Town Orators.

The first no-license rally in Norwich this fall was held with great enthusiasm and spirit in Union hall, Greenville, Wednesday evening. The hall was filled and many were standing when William Crowe called the meeting to order at 8:10 o'clock. There were nearly 250 men present.

After brief remarks Mr. Crowe introduced Rev. Charles R. McNally of the First Baptist church of New London. Rev. Mr. McNally spoke on the condition of affairs in New London, telling of the cost of the liquor traffic to that city.

It appears that if Norwich goes no-license there will be a nadded stimulus to that movement in her sister city. Rev. Donald B. MacLane of the Taftville Congregational church was the second speaker, and he illustrated with his violin the sad case of John Doe, who left a good position and broke up a happy home, lured by the demon-drink.

Announcement was then made by O. E. Ryther of the various rallies that have been planned. The next meeting is at Ponemah hall, Taftville, Friday evening at 8 o'clock, when among the speakers will be a French orator from Worcester, Mass. There will be two meetings Sunday. At 3 o'clock in the afternoon an open air meeting will be held at the corner of Sixth street and Central avenue, Greenville, at which the principal speaker is to be the Hon. H. H. Spooner, known throughout the state as a prominent advocate of no-license. There will be music by Heap's orchestra.

One of the biggest official flag factories in the world is in the Brooklyn navy yard. Between 80 and 100 women work there all the year round making flags for the use of Uncle Sam's fighting ships. They use up 120,000 yards of bunting a year and fashion 413 different kinds of official flags. The flags cost \$90,000 a year.

THE STAMP OF STYLE.

Particularly Noticeable in the Hats Displayed at Wednesday's Openings!

Wednesday's millinery openings were attended by large and interested crowds and there were many exclamations of admiration as model after model was displayed.

A favorite pattern had was a stunning continental in black silk, beaded and corded facing of black was greatly admired.

A chamois hat with bands of chamois and gold braid, big black wings and wide facing of black was greatly admired.

Very striking was an auto hat of chamois, its sole ornaments aside of bands of brown panne velvet and chamois, its brown chiffon veil securely held in place.

For a young girl there was shown a fetching model in seal panne velvet, with brown Bengaline facing, and garniture of big flat roses in olive, crimson and deep aster tints.

Distinctively elegant was a large hat of taupe Bengaline, with rolling brim, immense wings in taupe and white and a touch of tinsel forming its effective adornment.

The fashionable rain hat so popular this season was employed in a dainty model of mlroir velvet, rolled at the back, loops of moire ribbon forming the crown trimming.

Equally elegant was an ashe-of-roses, shirred satin, mushroom shape, with panne velvet choux and buckle of the satin.

The various tints of dress materials are perfectly matched in the hats so that harmony in costume is assured.

While a number of striking pattern hats were sold on Wednesday, there are scores of beautiful models remaining. Where to find them? The Bulletin's advertising columns today will tell.

Gasoline as Fuel. There is nothing surprising in the discovery that gasoline is a better fuel for the fire engine than coal, making steam quicker and more of it, being much cheaper and weighing very much less. It has been tested in so many ways as to cause surprise that the discovery was not made long ago, or if it was, that its substitution for coal did not take place at once. In fact, that may be said about crude extract, and that there are many who think that a gasoline engine such as is used in automobiles might be used to propel the fire engine, the hose carriage, the hook and ladder truck and the pump. The power needed it could work the engine, too.—Brooklyn Citizen.

LADIES' AID SOCIETY.

First Baptist Organization Mourns Loss of its President.

The Ladies' Aid society of the First Baptist church held their first regular meeting at the church Wednesday afternoon. The meeting was called to order by the vice president, Mrs. L. H. Park. The regular business was disposed of and plans for the winter work were made. The society has just purchased a new gas stove for the church, a much needed and appreciated improvement. The report of the convention recently held at the church was read and approved.

Resolutions of respect upon the death of the society's president, Mrs. Jacob Starkweather, were presented by Mrs. William T. Thayer and read by the secretary, Mrs. John B. Ost, and were adopted by the society. The meeting was one of much sadness, it being the first held since the death of Mrs. Starkweather, who was president for a number of years, working untiringly for the society's good and for its advancement.

The meeting closed with the Misspah benediction. As usual following the meeting was the regular church supper at which there was a good attendance.
