WITNESS FOR DEFENDANTS IN WIRE CASE TESTIFIES HE SAID THAT MONEY WOULD MAKE HIM DENY HIS PREVIOUS STATEMENTS—TESTIMONY WILL REQUIRE REMAINDER OF WEEK.

When the superior court resumed its session here Wednesday morning the copper wire case was resumed and occupied the entire day. Four new witnesses were called during the day and from the amount of testimony which the defense will put in, the case will probably not be finished this week.

The first business after the opening of court was the reading of disputed testimony which the stenographer had looked up. The judge told the attorneys that they must not argue these points but wait until the testimony is completed.

Civil Engineer Pitcher resumed his testimony and after more cross examination was excused.

He was followed by Mr. and Mrs. Edward H. Crowell, who told of living in the Goldfish house in Elizabeth street. They live there three years and had not seen any of the copper wire, which it is claimed was hidden there.

Philo Laidson testified on Tuesday that he had never been in Putnam.

Charles M. Gordon, a member of the Norwich Junk & Bottle Co. and a brother of David Gordon, testified that he saw Gertz on the West Side many times. He saw him there with D. J. Handelman, Jake Lewis, C. E. Hazelhurst and a man named Swartzburg.

He testified that on March 25, 1907, a telephone message was received from Putnam and it was charged on the book to A. Fox. He was not allowed to testify to the entry, as Mr. Gordon testified that on Monday in Western at a branch store on Monday of every week and he knew he was on the one in question, Mr. Gordon testified that on the same day and they talked over a contract that had been drawn regarding the establishment of a branch store at Putnam. He said he traveled about this section and between Boston and Philadelphia, disposing of the junk. He testified to having seen Gertz at times. He said he knew Gertz at

Central Village, where he boarded with him. He did not see him for a number of years and the first time he did see him thereafter he did not speak to him because his brother David was under arrest in connection with the buying of stolen copper. He also said that Handelman had melted up a quantity of the copper at Pfeiffer's blacksmith shop and that he could prove it. He also said that the witness had been told on an evening and Mr. Handelman said that for a consideration he could deny his testimony in a lower court. He did not say how much. Mr. Handelman did not deny it when he was told that he had melted the copper by the witness. The witness has been told that Mrs. Gertz that she would get him into trouble.

The witness said that the Norwich Junk & Bottle Co. had been absorbed by the American Waste & Metal Co., which took over the junk business of companies in Norwich, Westerly and Putnam.

He was given a long cross examination by State Attorney Hurlburt with another in Hebrew in a corridor of the court house on Tuesday. He admitted that when he told Mr. Handelman that he knew he had melted the copper Handelman asked him what he should do. The witness said he advised him to tell Mr. Hall the truth about it and he was advised him. He said he knew Louis Gordon who was a telephone operator and did not look like Davidson. He was taller, lighter in weight and complexion and sickly looking.

During the afternoon Auditor Septimus C. Fleetwood of the Southern New England Telephone company was called to testify regarding the number of times Mr. Hazelhurst telephoned from Putnam. He was not allowed to give that testimony, as Mr. Gordon testified that on the same day and they talked over a contract that had been drawn regarding the establishment of a branch store at Putnam. He said he traveled about this section and between Boston and Philadelphia, disposing of the junk. He testified to having seen Gertz at times. He said he knew Gertz at

A WARNING. Don't be Humbled with Cheap, Worthless Imitations.

Since its introduction into the United States, the sales of Parisian Sage have been phenomenal. This success has led to many imitations similar in name. Look out for them, they are not the genuine. See that the girl with the Auburn hair is on every package. You can always get the genuine at The Lee & Osgood Co.

Parisian Sage is the quickest acting and most efficient hair tonic in the world. It is made to conform to Dr. Santerbon's (of Paris) proven theory that dandruff, falling hair, baldness and scalp itches are caused by germs. Parisian Sage kills these dandruff germs and removes all traces of dandruff in two weeks. It stops falling hair and itching scalp and prevents baldness.

And remember that baldness is caused by dandruff germs, these little hard working, persistent devils that day and night do nothing but dig into the roots of the hair and destroy its vitality.

Parisian Sage is a daintily perfumed hair dressing; not sticky or greasy, and any woman who desires luxuriant and bewitching hair can get it in two weeks by using it.

Beware of imitations; look for the girl with the Auburn hair on every package. Parisian Sage is now sold by leading druggists all over America and is guaranteed by The Lee & Osgood Co. to cure dandruff, stop falling hair and itching scalp in two weeks or money back. Fifty cents a large bottle. Made in America by G. W. Osgood Co., Buffalo, N. Y., who fill mail orders, all charges prepaid.

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. Sore and inflamed lungs are healed and strengthened and the cold is expelled from the system. Resistant but the genuine in the yellow package. The Lee & Osgood Co.

Friends from Colchester, where he is the guest of George T. Loomis, Tuesday evening, and with his dogs, Barney and Joe, succeeded in getting three coons, the combined weight of which was 55 pounds, making a record of eight coons in three days for these dogs.

THE Porteous & Mitchell COMPANY. Our 37th Annual Fall Opening.

will continue throughout the balance of the week. It is a splendid exposition of the New Goods for Fall, and in addition we offer 37 Special Items, selected from every department in the store. These thirty-seven special offerings are for this week only. Look for the special numbers—they indicate special values wherever seen.

Free Exhibit of the Famous Painting "The Toiler" by HERBERT DE MAREAU. As an added inducement to visit our store during our Annual Fall Opening THIS GREAT MASTERPIECE of modern art will be shown in our spacious Carpet Department. Until Saturday, Oct. 23d.

A Description of "The Toiler" In this picture Herbert de Mareau depicts a man of years at work in an old shop where he makes harnesses. The figure stands out from the canvas. Through the dusty cobweb-bed window comes the clearness of daylight that falls on one side of his face and clothes. On the other side is the first glow from a half-covered forge. The fire is hidden by a screen, but the light is thrown into the room from an opening, and the smoke curls up in a most natural way.

There are many details worked out—the old oil can, the open drawer, reflection of the light on the hammer and other articles in the shop.

A cordial invitation is extended to all to come and see the most remarkable painting ever brought to Norwich. It is absolutely free of charge or other obligation to our patrons and is worth coming many miles to see.
