# JUSTICE PECKHAM'S SUCCESSOR

Well-Informed Prophets at Washington Name Judge Lurton of Nashville as Most Likely to be Appointed.

Washington, Oct. 28.—The vacancy on the bench of the supreme court of the United States caused by the death of Associate Justice R. W. Peckham of New York is the subject of much gossip in Washington just now. It is, popularly speaking, the most important matter which will confront President Taft upon his return to the national capital.

Well informed prophets here tonight name Horace H. Lurton of Nashville, judge of the United States circuit court in the Sixth circuit, as most likely to be Justice Peckham's successor, with Solicitor General Bowers of the department of justice as the probability for the next vacancy in the court. Mr. Bowers it is thought by many stands a very good chance of getting this one.

Judge Lurton sat on the same judicial bench with Mr. Taft, and was the latter's choice for the vacancy that was afterwards filled by the appointment of William H. Moody of Massachusetts. Mr. Taft was secretary of war when he made the recommendation of Mr. Lurton to President Roosevelt. It was very much disappointed, it was said, when his old associate and intimate friend was not appointed. Mr. Lurton is now about 62 years of age.

In the past President Taft has expressed some decided views about geographical limitations in appointments to that body. He has taken the position that it is a question of fitness and strength of personnel rather than of states and circuits and politics; that

geographical considerations should figure only when all other things are equal. This is his present attitude as described by those who have been in a position to know.

Looked at from the geographical standpoint, there are few equalities in representation on the supreme court. Justice Peckham's death leaves three of the judicial circuits unrepresented on the supreme court—the Second circuit, comprising New York, Connecticut and Vermont; the Third circuit, comprising Pennsylvania, New Jersey and Delaware; and the Fourth circuit, comprising Maryland, Virginia and the Carolinas and West Virginia. Both Justices Moody and Holmes are from the First circuit, and Justices Day and Harlan from the Sixth, in which Judge Lurton is now presiding. Chief Justice Fuller is from the Seventh circuit, Justice Brewer is from the Eighth, and Justice McKenna from the Ninth.

Solicitor General Bowers is generally given second place in the speculation. He is a former general counsel of the Chicago and Northwestern railroad, has had wide experience as a counsellor and lawyer, is well known personally to the president and some of the most prominent men in the country, ranks next to the attorney general, and has charge of the government's cases before the supreme court. Many other names are mentioned in connection with the vacancy, but these two are the ones which figure most prominently in the gossip in well-informed circles tonight.

## FOR ILLEGAL REGISTRATION

Student at Wesleyan University Arrested in New York.

New York, Oct. 28.—William Barbour, a student at Wesleyan university, Middletown, Conn., and a nephew of Fleming H. Revell, the publisher, was arrested here late today for illegal registration. Barbour, who comes from Indiana, understood that he had established a legal residence a year ago, and registered for the approaching election on his uncle's advice. The police say he has been a legal resident a few days less than the required year. His case will be taken up tomorrow. Barbour was released on \$1,000 bail.

Ending the Controversy.  
Now let the man Barril draw a map of Cook's Arctic travels and the two Eskimo boys make affidavits as to the alleged ascent of Mount McKinley and the controversy may be closed.—New York World.

## "DOWN WITH THE GERMS."

If you could observe the extreme care with which the modern surgeon cleanses hands and instruments before an operation, you would be impressed with the danger of germs and the importance of absolute cleanliness in its relation to health. The slogan of modern medical science is "Away with the germs." Germs thrive and multiply wherever they can find a lodging place in grease or dirt, but where things are scrupulously clean germs find it hard to live. The easiest and surest way to keep things clean lies in the use of Gold Dust washing powder. Gold Dust goes deep after dirt and routs out every germ and hidden impurity. It is the sanitary cleanser.

## NO UNION ORCHESTRA.

All is Not Harmony Among Manchester Musicians.

Manchester no longer has a union orchestra. Bader's orchestra, the only one to remain in the union when the musical strife was at its zenith a year ago, has now withdrawn, and all the other musicians living in town who have been connected with the Hartford union have also withdrawn. The trouble started when an effort was made a year ago to get Cornelius Foley, who does about all the prompting in town, to join the Hartford Prompters' union. As most of the orchestras in town were non-union there was nothing to be gained by his joining, and for a time there was considerable trouble in getting that matter straightened out. Since a year ago the rule has been strictly enforced, the members of the Hartford union being instructed not to play in Manchester.

Even a Poor One.  
The Baileyttes of Texas are jubilant at the large crowds that turn out to listen to Senator Bailey. However, a circus also draws big crowds.—Boston Advertiser.

Leaves were originally made for men's wear.

# AFTER SUFFERING TEN YEARS

Cured by Lydia E. Pinkham's Vegetable Compound

MARLTON, N. J.—I feel that Lydia E. Pinkham's Vegetable Compound has given me new life. I suffered for ten years with serious female troubles, inflammation, ulceration, indigestion, nervousness, and could not sleep. Doctors gave me up, as they said my troubles were chronic. I was in despair, and did not care whether I lived or died, when I read about Lydia E. Pinkham's Vegetable Compound; so I began to take it, and am well again and relieved of all my suffering.—Mrs. GEORGE JORDY, Box 40, Marlton, N. J.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

## ROCKEFELLER GIVES \$1,000,000

To Fight the "Hookworm Disease" Prevalent in the South.

New York, Oct. 28.—A gift of one million dollars by John D. Rockefeller to fight the "hookworm disease" was announced at the offices of the Standard Oil company here late today. A dozen well-known educators and scientists, selected in large part from institutions of learning in the south where the parasite is prevalent, were called to conference with Mr. Rockefeller's representatives at the Standard Oil company's offices at 26 Broadway last Tuesday and at that meeting Mr. Rockefeller's desire to organize a commission to carry on a campaign against the malady was discussed. As a result of this discussion of the situation the "Rockefeller commission for the eradication of the hookworm disease" was organized.

## HARD FOR THE POOR.

New Law Arouses Ire of Manufacturers and Men.

Manufacturers in Stamford and throughout the entire state are up in arms and workmen everywhere are indignant over the recently made discovery that the last session of the legislature passed an act permitting the garnishing of a man's salary for board or rent.

So indignant are the manufacturers that there is some talk of asking for a writ of habeas corpus for the statute, for the purpose of repealing this statute.

The constables are rushed with work serving garnishee writs of this kind since the next law went into effect and the result in many cases is disastrous, unfortunate workmen losing their jobs right and left, for no other cause than the attachment of their salary.

"One fellow whom I know had his salary garnished last week," said a constable this morning. "Later I asked him about it. 'I lost my job right away' he said. 'When the garnishee writ was served they sent for me in the office and told me that my services were no longer required. I was getting \$2.50 a day.'

"And I have heard of lots of other cases too. The manufacturers don't like that sort of business. I have talked to some of them and they are very indignant about it. They regard the law as a nuisance to the manufacturers and an injustice to the men. They want to have it repealed, and right away."

When a poor man is in debt and his salary is garnished and he loses his job on top of that, the effect is to make him vagrant at once, depriving him of all his cash and his means of support as well.

Old residents of the town say that twenty-five years ago a similar law was tried in the state of Connecticut and it had the same results and had such a disastrous effect that it was repealed at once as they prophesy that this one will be.

As the new statute is so unfortunate in its effects and is alike distasteful to manufacturers and men it is probable that there will be some sort of a concerted action toward its repeal.—Stamford Bulletin.

## Our Polish People.

Special interest attaches to the statistics furnished the Gazette by Rev. Father Reding, pastor of the St. Mary's church, in their showing that the Polish parish, having tripled its membership in half a dozen years, has nearly five times as many men of marriageable age as it has women. The explanation is found in the undue proportion of male immigration during the years of the early history of the parish; a condition likely to be escaped under existing circumstances of the influx of population. The Polish men who have contributed to the notable growth and prosperity of this parish are already showing signs of determination to join in the home building spirit of Worcester. Family life in its truest sense is likely to be immediately brought about by the increasing immigration of the daughters, the sisters, the wives and sweethearts of the men who are beginning to be imbued with New England ideas, after even brief absence from Poland.—Worcester Gazette.

## Next Summer's Outing.

It now looks as if a trip to the summit of Mount McKinley will be a favorite vacation jaunt next year.—St. Louis Post-Dispatch.

## Champ Clark's Distinction.

Champ Clark differs from other Missourians in showing how it can be done rather than in insisting on being shown.—Pittsburg Post.

## Taft's Greatest Triumph.

We think the greatest triumph of Mr. Taft's tour is the appearance of the governor of Texas in a plug hat.—Los Angeles Times.

## The Difference.

Another difference between Uncle Joe Cannon and a Spanish cabinet is that he does not resign in a body.—Indianapolis News.

## Never Heard of Cook.

Being in Africa a few months put Teddy somewhat out of touch with American sentiment.—St. Louis Globe-Democrat.

## A Costly Policy.

Killing schoolmasters has always been a costly policy for despots to pursue.—Kansas City Journal.

# Ceresota Flour

is no impoverished bargain counter flour, but it is the best bargain flour when the loaves are weighed and counted.

That's why it's worth the price it brings. It is richest in gluten, retains its moisture longer and makes big, white delicious loaves. The first bag of CERESOTA will convince you as much as a barrel.

A trial will be enough.

# Crawford

## Parlor Stoves

Elegance and beauty of design distinguish our Heating Stoves for Coal and Wood burning. While these stoves are superior in many ways, the prices are no higher than of other standard makes. We invite comparison. Illustrated booklet on request.

Made by Walker & Pratt Mfg. Co., 31-35 Union Street, Boston, Mass.

M. HOURIGAN, Agent, Norwich

## Nature's Gift from the Sunny South

# Lard Is An Animal Product

# Cottolene Is a Vegetable Product

Many people believe with Moses, the great law-giver, that the source of lard is unclean. The source of Cottolene is absolutely clean and wholesome, and the product is as healthful as olive oil.

Cottolene comes from the cotton fields of the Sunny South; it is a product of Nature, refined by our exclusive process. The ancestry of lard is not so clean or inviting. Lard never has been, never can be, anything more or less than unwholesome hog fat.

Cottolene makes food that any stomach can digest, while lard is the cause of nine-tenths of all indigestion. Cottolene is the best frying and shortening medium made to-day. Wherever exhibited in competition with any and all other cooking fats, it has always been granted Highest Awards.

**COTTOLENE is Guaranteed** Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

**Never Sold in Bulk** Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

Made only by THE N. K. FAIRBANK COMPANY
