Ageed Witness Taken For Non-Support
Barzalia Seagrave, Octogenarian, Came from the South to Testify for His Nephew—Expected He Would be Arrested—Followed Trial of Civil Suit.
 An additional feature to those surrounding the closing of the civil suit for the amount and interest was four per cent, and a clause stated that at the death of Mr. and Mrs. Seagrave the \$700 and in addition \$300 from his property, to be paid to the Dunhams. The interest was paid regularly for years. Mr. Seagrave left on Aug. 17, 1905, and went to New London and sold his note to his nephew, W. D. Seagrave, who agreed to collect the note, and payment was denied, as it was claimed it was not a demand note and would terminate when Mr. and Mrs. Seagrave died, going to the Dunhams. Mrs. Dunham explained the transactions.
 Mr. Seagrave claimed that he had the demand note made out so that he got the money at any time if they didn't do right. He wanted five per cent interest at first, but finally agreed to four and took a mortgage on the property. He said that it was a good thing to buy the property, as he never thought it was, but they seemed bent upon buying and he raised the loan and Mrs. Dunham gave a certain amount to the Dunhams.
 W. D. Seagrave explained that the \$700 which was drawn from the bank was used as described in buying the property. This completed the evidence and at 4:50 o'clock court was adjourned until this morning at 10 o'clock, the arguments in the case going over.
 This morning a short and a short calendar session at 10 o'clock and there will be several divorce matters. It is expected, and a hearing on an injunction in the case of Shay vs. Eggleston.
 latter's husband, who are the defendants in the civil suit, were in the court room.
 The civil suit occupied the court throughout Thursday, it being the case of William D. Seagrave of New London vs. Theron E. Dunham and wife, of South Coventry. The suit is over \$700. Mr. Seagrave married twice. His second wife had a married daughter, Mrs. Theron E. Dunham, and they desired to secure a home and secured \$700 from Mr. Seagrave and he was given a mortgage on the property for that amount. A demand note was made for the amount and the interest was four per cent, and a clause stated that at the death of Mr. and Mrs. Seagrave the \$700 and in addition \$300 from his property, to be paid to the Dunhams. The interest was paid regularly for years. Mr. Seagrave left on Aug. 17, 1905, and went to New London and sold his note to his nephew, W. D. GOVERNMENT OFFICIALS
TO WATCH TARGET WORK
 Coast Artilleryman Finish Season with Night Shooting.
 Local coast artillerymen are interested in the work of the troops of the district of Lowell, where they are now busy engaged in the second and last series of target practice for 1909.
 One company, the 131st, has already established a world's record for rapidity of fire with 15 pounder guns (3-inch).
 On October 27 this company fired 16 rounds at Fort H. G. Wright in fifty seconds. The target was 12x24 feet, and was being towed at rate of eight miles per hour. The last shot demolished the target.
 A new feature is to be added to the firing this year. It has been arranged to fire 28 shots from 3-inch batteries at Fort Terry on this night of November 11. These projectiles will be fitted with the Semple shell tracer (a kind of rocket) making it possible to view the course of the projectile through the air during its entire flight. The target will be illuminated by powerful searchlights. The firing will be in darkness but where there is not liable to be any delay or danger incident to shipping.
 This is the first time projectiles have been fired at night and the department of the east and the firing is looked forward to with great interest by local artillerymen as well as the authorities here. Several officers from Washington, several of whom are expected to be present to witness it.

COUNTY COMMISSIONERS
SEEK LICENSE FEE.
 Suit Brought Against William E. Ryan to Recover the Sum of \$450.
 After having kept his saloon in Central Wharf open throughout the past year, after having taken an appeal to the superior court when the county commissioners refused him a license, William E. Ryan believes that it is not necessary to pay for the privilege during that time and has requested to pay the commissioners the \$450 license money.
 The commissioners have turned the matter over to County Treasurer A. M. Ryan, which suit has been brought against Mr. Ryan to collect the money. The suit was brought on Thursday and damages are claimed to the amount of \$450, the case being brought in the common pleas court. The bondsman for Mr. Ryan is James T. Fitzpatrick.

NO PUBLIC ACTS RECEIVED.
 Town Clerk Holbrook Beseiged by Many Who Are Anxious to Get a Copy.
 Being misled by an item in The Bulletin which states that town clerks are receiving copies of the public acts, many naturally considered that this included the local town clerk, and there were many who came to the town clerk's office on Thursday. They were informed that no copies had been received here, but that they would be informed as soon as they arrive.

L. T. L. Officers.
 Company C, Loyal Temperance Legion, elected the following officers at their meeting, held Wednesday afternoon: President, Walter Tarbox; vice president, Emerson Jones; secretary, Helen Millard; treasurer, Genie Dean. It was a unanimous vote throughout.

Three Saloon Keepers Arrested.
 In New London on Thursday night William Pasbeck of Bradley street, Mary Sullivan of Water street and Celeste Dupresne of State street were arrested, charged with selling liquor to intoxicated persons. The evidence came from police court cases.

New Sidewalk in Use.
 The new concrete walk in front of the hotel property of James B. Shannon, corner of Water and Market streets, has been completed and it has hardened sufficiently to permit of its use, which is greatly appreciated by the many who go to and from the Auditorium Hotel. The walk is a decided improvement there.

A Year of Gain.
 St. Anne's T. A. society held a meeting this week for the election of officers, but the election was postponed till next week. The society has a good record of activity and membership gain to show in the past year.

 A largely attended dance, with patronage from Western, New London, Wilimantic and Danielson, was given Thursday evening in T. A. B. hall by the Mysterious Trio, opening a series of dances in which will be included a full dress ball. Walter Smith, George Jenkinson and Charles Hall were in charge, and the reception committee included Prof. and Mrs. George E. Geary, Miss Percy Congdon and Mrs. George Johnson.

Road Work Progressing.
 Inspector John Donovan states that good progress is being made on the road between in Montville. He states that there is no trouble with the grades and that the laying of the stone would be under way now if there were the proper screening there. Long stretches of the highway is torn up and many men are at work there.
 At last reports there were 61,158 automobiles in this country.

MONTVILLE MILLS.
 Much Work Being Finished Up—Water is Low.
 Although Superintendent McDonnell and his force of workmen have still a lot to do in the Montville woolen mill before everything can be said to be just right, they look to be able to make a commencement on the Keyes Process product in a few weeks. The new floors are ready for the heavy machinery, the building having been strengthened in the interior by the introduction of massive timbers. The company will probably employ all its former workmen, but will have use for a few more than when previously in operation as soon as the mill gets fairly started.
 Almost ready for use is the large warehouse in Palmertown at the C. M. Robertson Co.'s mill. The doors were hung Thursday and practically the building could be used at once, but some time will be allowed for the concrete floors to harden.
 Some hustling has to be done at once on the new paper plant in Unshavenville in order to obtain a more secure supply of water. With eight or ten powerful hoisting engines at work daily, a big supply is required for the boilers. This has until now been obtained from a well sunk in a hollow just below the Comstock cemetery and pumped across the C. V. tracks. The nearest available source of supply is at the foot of Oxbow, at the old dye mill. It is proposed to put down a line of pipe to this supply, and by putting in a powerful pump, furnishing it either directly over the hill or else around on a line bordering the curve on the spur track. It will be impossible for the work to be delayed until the big dam can be completed.

Police Take Night Off.
 On Thursday night Policemen Morgan, Vetter and Cowles were off duty, and their beats were covered by Supernumeraries Devito, Allen and C. Murphy.
