How Do You "Stand" Cold Weather? Are you one of the many people who dread the coming winter? If you are you should at once look to the condition of your blood. If you have plenty of rich blood in your body cold weather will not "scare" you a little bit. When the blood is poor and scanty, then you are certain to "feel the cold" and feel it keenly. The way to stand in the safe side, the warm side of this proposition, is to begin at once a pre-winter treatment with Smith's Emulsion of Cod Liver Oil. It builds, warms and strengthens you also protects you against coughs and lung troubles. Price 75c the Pint.

Check That Cold It is a great mistake to let a cough or cold run unchecked. Aside from the unpleasantness and discomfort there is a real danger in the resulting irritation of the throat, lungs and bronchial organs, which leaves them sore and very susceptible to pneumonia and consumption. It is not our purpose to recommend any particular brand of patent cough medicine. A simple, inexpensive and very effective remedy can be prepared at home by mixing two ounces of glycerine and a half-ounce of Virgin Oil of Pine compound pure with eight ounces of pure Whisky. This formula is frequently prescribed and is highly recommended by the Leach Chemical Co., of Cincinnati, who prepare the genuine Virgin Oil of Pine compound pure for dispensing through druggists. It is claimed that a teaspoonful of this mixture four times a day will break up a cold in twenty-four hours and cure any cough that is curable.

A simple, inexpensive and very effective remedy can be prepared at home by mixing two ounces of glycerine and a half-ounce of Virgin Oil of Pine compound pure with eight ounces of pure Whisky. This formula is frequently prescribed and is highly recommended by the Leach Chemical Co., of Cincinnati, who prepare the genuine Virgin Oil of Pine compound pure for dispensing through druggists. It is claimed that a teaspoonful of this mixture four times a day will break up a cold in twenty-four hours and cure any cough that is curable.
