THE HIGHWAY COMMISSIONER SPEAKS.

It is not strange that State Highway Commissioner MacDonald does not feel inclined to argue with his critics. He knows it is unprofitable, and should he lend himself to that...

NOT A TRIVIAL DISORDER.

Now that the season for whooping cough is at hand, Dr. J. H. Townsend, in the monthly bulletin of the state board of health, calls timely attention to the town health regulations...

CONCERNING WOMEN.

The Unitarians, in their Pacific coast conference at Seattle, declared themselves in favor of equal suffrage.

MUNICIPAL UGLINESS IS SINFUL.

This is what those who stand for civic beauty say with reference to the appearance of a city.

Can Your Canary Sing?

If you want your canary to sing sweetly and softly, see that the cage is not placed in a very strong light. The light makes canaries hop about a great deal, and if they do this their notes soon become very loud and piercing.

Ostrich Feather Collars.

Ostrich feather collars are being worn as much as ever this season. They are to be had in a wide range of colors and, for the most part, are fastened with ribbon of the same shade.

Labeling Boxes.

The careful housewife always marks the contents on the outside of a box. Then when hunting for anything the search is greatly expedited. If the boxes are kept on shelves, have the label pasted on the end of the box, so that it may be more easily seen.

Potato Omelet.

Beat a pint of mashed potato to a soft cream, moistening with milk and seasoning with salt, pepper and melted butter. Add the beaten yolks of two eggs and fold in stiffly the beaten whites. Put a tablespoonful of butter into a frying pan and when this is hissing hot pour in the potato. Cook slowly for ten minutes, then fold and turn out on a hot dish.

VERMONT'S HUNTING-LICENSE LAW.

Every state that has passed a license law for the control of hunters has been surprised by the number of hunters there are who are ready to pay the license fee.

COMMENTING UPON THE RESULTS OF THE NEW HUNTER'S LICENSE LAW.

Commenting upon the results of the new hunter's license law, the Rutland News says: "This income of \$15,267.42 is beyond all anticipations. The receipts will make the state fish and game department more than self-sustaining. The commission heretofore has been a source of expense to the state. The income will pay all damages done by deer, the salaries and expenses of the game commissioner and his assistants, and leave a margin besides. It is of interest to note that the damage to hunters and hunting is the license fee, and also when the license fee is paid by the state to the amount of something over \$2,000, an average of about \$12 to each claim for damages registered. Of this amount \$1,072 was paid in September. In 1938 the total amount of deer damage paid was \$245. That does not make a very bad showing."

PARIS TRANSFER PATTERN NO. 8078.

French and eyelet design for a shirt waist fastened in the back, to be transferred to handkerchief, linen, batiste, linen or cotton lawn, nainsook, voile, China silk, satin or in fact any material which may be embroidered. The whole design may be worked in solid embroidery if preferred, or the branches may be worked solid and the dots in eyelet design, in either white or colored embroidery silk, according to taste.

PARIS TRANSFER PATTERN NO. 8040.

Two designs for ladies' or misses' hose, to be embroidered solidly with cotton or silk on lisle or silk hose. Two patterns of each design are given. To transfer the pattern to the hose, put a strip of cardboard inside the leg, put the pattern in place, and press with a hot iron. Do the embroidery over a darning egg.

blespoonfuls of salt and cover tightly. Simmer for half an hour. Be careful not to let the fish boil. Dress with gravy, butter and pepper. Garnish with sliced eggs. For the sauce cook together a piece of butter the size of an egg and a tablespoonful of flour. Add a cupful of boiling water and stir constantly, cooking for five or ten minutes. Add two hard boiled eggs cut in small dice to make a hot sauce.

For Thanksgiving Pies.

For the making of good pastry, pastry flour, the best of shortening, all utensils and ingredients properly chilled and a light touch are essential. Lard makes a more tender crust than butter, but butter gives the finer flavor and richer color. A good plan is to use half lard and half butter. The lard makes the dough easier to work in solid material which may be embroidered. The whole design may be worked in solid embroidery if preferred, or the branches may be worked solid and the dots in eyelet design, in either white or colored embroidery silk, according to taste.

Aprons.

Aprons—the kind that cover the whole frock—are now such artistic things that some women are glad to do a little fussing about the house for the sake of having an excuse to wear them. To be strictly up to date the all-over apron should be made in colored linen, which can be bought in the most striking colors—soft blues, pinks, browns and greens—in the natural tone. Pretty effects are obtained, too, by the use of having an excuse to wear them. This plain paste stands approved—The New Idea.

NEEDLEWORK NOTES.

A charming boudoir cap may be made from bits of embroidery, lace and linen cambric.

Some women, after they have used a pattern, just roll it up and tuck it away almost anywhere it happens, and when they want to use it next time they find it buried under a pile of things, doing nothing with it. If they would just lay the patterns out flat and put them where they might stay that way, all this trouble would be avoided.

The amateur dressmaker and milliner must learn the true value of pins and use plenty of them. The amateur makes and tears out, while the professional builds and sews. The former bastes and sews. The dressmaker should do the same. Do not be sparing with pins, for they are too sparingly used.

If you can work letters neither with a hoop nor without it, compromise on a piece of fine cloth sewed under the letters. Baste outside the portion to be worked, otherwise there is danger of pulling the embroidery when the stitches are cut. It is easy with a little practice to do the lettering without sticking the needle point on the cloth.

THE HOUSEWIFE

Keep handy sewing implements on hand for dressing towels—strong cotton, a thimble, tape, twine, needle and scissors.

When ironing roller towels try slipping them over the board as you would a skirt. They are half the trouble and the edges meet when folded.

Emery powder and oil made into a paste is an excellent mixture to clean steel. Rub on well and polish, after which rub with an oiled rag and then polish up again with a clean duster.

In slicing bacon, always place the rind side down. Do not try to cut through the rind, but when a sufficient number of slices are cut, slip the knife under them, keeping it as close as possible to the rind.

An excellent way to clean kid gloves is to put them on the hands and wash well in spirits of turpentine just as you would wash the hands. The fingers and soiled parts must be rubbed well, and when the gloves are taken off they must be stretched and allowed to dry in a brisk wind.

To clean real fine lace lay a newspaper on a flat surface and sprinkle thickly with fine magnesia. Put the lace on the magnesia and cover with another coating of magnesia. Cover with paper and place a heavy weight on top of the lace, which should be left in this condition for several days.

Cut cold chicken, roasted is best, in-

to quarter inch dice. Use only the breast and tender fillets from the thighs. Marinate a pint with once the measure of French dressing and set away to season and chill. At serving time add an equal bulk of diced celery and enough mayonnaise to moisten thoroughly. Arrange on a bed of torn lettuce and garnish with cross or tiny green peas and sliced olives. Drop a large spoon of mayonnaise on top and fringe it round with the finest caviar tips.
