There is a Difference

Scott's Emulsion is the original Emulsion of Cod Liver Oil and has been the world's standard for 35 years. There are thousands of so-called Emulsions, but they are cheap, worthless imitations and never half as good as the standard. They are like this milk.

Scott's Emulsion is like thick, rich cream. It is a concentrated food-medicine of the most beneficial sort. You can make it thin with milk or water, but don't buy the thin, worthless imitations. ALL DRUGGISTS
