The drag consists merely of two logs, a log of heavy timber about 8 1/2 inches, standing on edge, fastened by braces and with a chain hooked on so that when in use the drag is hauled along at an angle through the center of the road. The front one of the two timbers is faced for part of its length with iron. The second scrapes off the surface of the road and even it up.

Rev. William H. Randall. News was received Tuesday of the death at his home in Riverside, Cal., of Rev. William H. Randall, a native of Mystic, Conn., an alumnus of Brown university, class of 1861, and for six years a teacher in Providence.

MYSTIC

Rev. Mr. Randall had been a resident of California since 1890, removing to the Pacific coast in search of health. For the past 15 years he had not held a settled pastorate, devoting himself chiefly to the culture of a large grove. He had been an invalid for some time and his death, on March 13, was not unexpected. He was 60 years of age.

MYSTIC

William Henry Randall was born on August 23, 1840, at Mystic. His early years were spent in his native town of Mystic. His graduation from Brown university as Bachelor of Arts was magna cum laude and he received his degree of Master of Arts from the same institution in 1864. Defective eyesight forbade his joining his classmates who were rushing to the front in the civil war. He turned his attention to teaching, first at the Connecticut Literary institution at Suffield, Conn., and later at the Mowry & Goff school, between the years of 1864 and 1872. In the last named year he retired from teaching to enter the ministry. After six months spent in travel in Europe and Palestine, and a year of study at the Newton Theological institution, he was ordained, in the year 1874, to the Baptist ministry, at the Windsor Avenue Baptist church of Hartford.

MYSTIC

In 1877 Mr. Randall was called to the pastorate of the Thompson Central church at Thompson, Conn., where he remained five years. In 1882 he removed to Saxton's River, Vt., the seat of Vermont academy, staying seven years. In his early married life a sufferer from chronic asthma, he found much relief from this complaint in the change in 1890 to California. In 1892 he returned to his native state, at Saxton's River (now Corona), where he remained for two years. Failing health again compelled him to remove
