

OWES HER LIFE TO

Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was troubled with falling and inflammation, and the doctors said I could not get well unless I had an operation. I knew I could not stand the strain of one, so I wrote to you sometime ago about my health and you told me what to do. After taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier I am to-day a well woman."

Artistic Fireplaces in an almost endless variety of design and effects can be built economically of concrete made with EDISON PORTLAND CEMENT.

EDISON PORTLAND CEMENT

Hearthstone, fireplace, and chimney are built in one structure. The most intricate design can be executed perfectly, because Edison Portland Cement is

Uniformly 10% Finest Ground in the World

Uniform light grey color and always the same in strength.

We know what this cement will do and urge you to let us inform you about it

Pittsburg Graft Secrets Called For

General Invitation to Residents of Allegheny County to Unburden Themselves Before the Grand Jury.

Pittsburg, Pa., April 7.—District Attorney William A. Blakeley issued a general invitation tonight to any or all of the residents of Allegheny county to appear before the grand jury tomorrow to contribute any secrets they may hold about grafting in Pittsburg. The invitation is especially directed toward Alexander P. Moore, editor of the Pittsburg Leader, which in an editorial today charged that a prominent man, unknown to the writer of the editorial, it was stated, was still to be implicated as the real "man higher up."

District Attorney's Invitation. The district attorney gave out the following statement tonight: "I desire to state that I have received a great many anonymous communications, charging that certain individuals are implicated in the graft scandal and in addition to this I notice in an afternoon paper that there is a distinct and definite charge against a man 'higher up.' I now desire to invite any individual of Allegheny county to come before the grand jury of Allegheny county, to investigate graft and municipal corruption, tomorrow morning at 9.30, and I will guarantee they will be given ample opportunity to give their evidence and testimony."

Imperial Window Glass Co. Indicted by Federal Jury. Conspiracy in Restraint of Trade—Illegal Competition, Etc.

Pittsburg, Pa., April 7.—The Imperial Window Glass company, a corporation of West Virginia origin, which lacks but one week of being a year old, and officials and directors were indicted by a special federal grand jury here today on three counts.

First—Conspiracy in the restraint of the hand blown window glass trade in the United States.

Second—Engagement in illegal competition.

Third—Attempt to monopolize interstate trade.

A week ago tonight United States District Attorney John H. Jordan, divulged the information that federal officers had completed a three months' investigation of the glass industry, and would present to the grand jury on the following Monday evidence to show that the corporation acted in violation of the Sherman anti-trust law.

WOOD ALCOHOL IN DRINKS. Crusade to Stop the Sale in New York East Side Saloons.

New York, April 7.—After an investigation showing that three cases of total blindness reported to the city health department were directly due to wood alcohol in drinks purchased in East Side saloons, a crusade to stop the sale of the poison has been started by the department.

The arrest of three liquor dealers was ordered tonight, and samples of liquors known as "white whiskey," "white brandy" and "white schnapps," sold generally by saloons and peddlers on the East Side, were taken for analyses.

A statement regarding the investigation says that victims were made permanently blind by a single drink, due to atrophy of the optic nerve.

The fur seal will not breed in captivity. This does not apply to the hair seals, which are those so readily trained for exhibition purposes.

WASTED A FORTUNE ON SKIN TROUBLE

"I began to have an itching over my whole body about seven years ago and this settled in my hand, from the knee to the toes. I went to see a great many physicians, a matter which cost me a fortune, and after I noticed that I did not get any relief that way, I went for three years to the hospital. But they were unable to help me there. I used all the medicines that I could see but became worse and worse. I had an inflammation which made me almost crazy with pain. I did not know what to do. I was so sick and had become so nervous that I positively lost all hope. Finally I decided to use the Cuticura Remedies and, after having used two sets of Cuticura Soap, Ointment and Pills, the entire inflammation had gone. I was completely cured. I should be only too glad if people with a similar disease would come to me and find out the truth. I would only recommend Cuticura. Mrs. Bertina Seash, 1621 Second Ave., New York, N. Y., Aug. 20, 1909."

LEGAL NOTICES. NOTICE

This is to certify that my wife, Alice M. Douville, has left my name and from today, April 5, 1910, any bills contracted by her in my name I will not be responsible for.

PROPOSALS for State Road Work

SEALED PROPOSALS will be received by the State Highway Commissioner, Room 27, Capitol, Hartford, Conn., until 10 o'clock P. M. of April 11, 1910, for grading of one section and construction of gravel road in Town of Eastford, and grading a road in Hampton in accordance with plans and specifications.

Bids will state the prices as given in specifications. The State Highway Commissioner reserves the right to increase or decrease the number of feet to be improved, after the contract is let.

All bids must be accompanied by a bond of not less than one-third of the cost of the work. Any bidder to whom contract has been awarded refusing to sign the contract at the prices offered and furnish a surety company bond, or certified check, shall forfeit from his bond a sum equal to the difference in price between his bid and the next lowest bid. Plans and specifications may be examined at Town Clerk's office in Tolland; Dr. Jos. Spaulding's office, first selectman, Woodstock; John Pitts, residence, first selectman, Hampton, or at the office of the State Highway Commissioner, Room 27, Capitol.

The State Highway Commissioner reserves the right to reject any and all bids. Dated at Hartford, Conn., April 4, 1910. JAS. H. MACDONALD, State Highway Commissioner.

DEAD LETTER OFFICE BUSINESS IN MARCH

More Than \$5,000 Went Astray in the Mail—Millions of Pieces of Mail Matter—No Return Directions.

Washington, April 7.—During March more than \$5,000 went astray in the mails and through the diligence of the dead letter office \$4,193.71 of it was returned to the senders.

More than a million pieces of mail matter went to the dead letter office during that month because they did not bear return directions. That number was nearly 80,000 more than in the corresponding month in 1909.

In these figures Postmaster General Hitchcock finds added argument to support his contention that no legislation should be enacted which would stop the government from printing return cards on its stamped envelopes.

\$100,000 FIRE AT FAIRFIELD.

Country Estate of Oliver Gould Jennings of New York.

Fairfield, Conn., April 7.—All the buildings of the country estate of Oliver Gould Jennings of New York, with the exception of the residence itself, located on Osborn Hill, were destroyed by fire late today, entailing a loss of \$100,000, partly covered by insurance. The buildings destroyed include a cattle barn, coach house, power house, machine shop and seven smaller buildings. The fire, which is supposed to have been caused by spontaneous combustion, started in the cattle barn, a model of its kind, and had been burning some time when discovered. The employees of the estate fought the fire with chemicals and had it under control when the supply ran short and the volunteer fire department was called in, but could do nothing toward saving the buildings owing to the lack of water pressure. The Jennings home, which is across the road from the farm buildings, escaped without injury, as did the head coachman's home. All the animals and farm equipment were saved.

Mr. Jennings is in the west and Mrs. Jennings in Europe.

COUNT AND COUNTESS GO FREE.

Acquitted of Charges of Victimizing Mrs. Kemper Out of \$97,000.

Paris, April 7.—The court today acquitted the Countess Clare and Count Ladislaus Zoltynski of the charges brought by Mrs. Wilhelmina Kemper, who claimed that she was victimized out of \$97,000, which sum was to have been used to finance the matrimonial projects of Prince Victor of Thurn and Taxis. The court found that the countess was not responsible for the loan made to the count and that the latter borrowed in good faith to help the prince and a wife.

On the grounds that it was immaterial to the action the court declined to rule on the question of whether the reputed English Countess of Clara was identical with Blanche Leigh, formerly proprietress of perfumery parlors on the Rue De La Paix.

In England nearly \$10,000,000 is invested at present in roller skating rinks.

RECEIVERS APPOINTED FOR NEW ENGLAND INVESTMENT CO.

Upon Representations of Many Vermont Stockholders.

Concord, N. H., April 7.—Upon the representation of many stockholders residing in Manchester that the company, which since one week of being a year old, had been sold at varying prices, and that its capital stock was being used to pay dividends of 20 and 30 per cent, receivers were appointed by Judge Edgar Aldrich in the United States court here today for the New England Investment company.

The company was chartered in Rhode Island three years ago as a holding corporation, and later took over a number of subsidiary companies.

Joseph De Champlain of Manchester, N. H., is president of the company. With a capitalization of \$500,000 it is asserted in the petition for the receivership that shares were sold over New England and in Canada, at prices ranging from 50 cents to \$3, which, it is claimed, brought \$225,000 into the company. The number of stockholders is estimated by 800, most of them French-Canadian mill workers and farmers.

The receivers named are Judge George H. Robinson of the United States court of Manchester and Burns F. Hookman, clerk of the United States court, of Concord.

Bills in equity are already pending against the company in Massachusetts and Rhode Island, while a temporary injunction has been allowed to prevent the payment of certain claims in the latter state.

CANNON MUST HIMSELF PAY FOR MAINTENANCE OF AUTO.

But the Government Will Look Out for the Vice President.

Washington, April 7.—The expense of maintaining the automobile which the government supplies to the vice president will be borne by the national treasury, but not the expense for the maintenance of the machine provided for the speaker of the house. Such is the main object of a bill introduced today by the conferees of the two houses of congress on the legislative, executive and judicial appropriation bill.

When the bill was before the senate it included amendments, one of them appropriating \$500 for the care of the vice president's machine and the other providing the same amount for the speaker's car.

In conference the representatives of the house were compelled in accordance with usage to allow the senate its own course with reference to the matter, and accordingly the provision in the interest of Mr. Sherman was allowed to stand. The house members insisted on the same privilege for the speaker of the house, and the amendment in the interest of Mr. Cannon.

WOMEN'S HATS GROW LARGER AND LARGER EVERY YEAR.

Why Freight and Express Rates on Millinery Goods Are Raised.

Washington, April 7.—Women's hats have been growing larger and larger every year. They have also been growing lighter and lighter in weight. So now a woman's hat weighs less and takes up more room than they did ten years ago. A freight or an express car will hold only a tenth of the hats it once did, and the carriers raised the rates to make up the difference.

That is the answer of the railroads and express companies to the complaints of the Millinery Jobsbers' association, which was heard before the interstate commerce commission today. It was purely a question of hats, into which the length of the pins does not enter. The milliners say the rates are too high and the carriers say the evolution of the headgear simply made them put on the increase.

CONGRESS THURSDAY.

Animated Debate in Senate on Cost of Living—Naval Appropriation Bill.

Washington, April 7.—An animated debate occurred in the senate today on a suggestion by the special committee on the cost of living, looking to the expenditure of \$65,000 for the extension of the work of the committee in gathering information regarding wages.

Senator Hale, suggesting that these facts should be supplied as speedily as possible to be used in answering questions in the coming campaign, Senator Bacon deprecated such use of the information.

The house bill requiring railroad companies to report accidents to the interstate commerce commission was passed by the senate.

In the house the session was devoted chiefly to a consideration of the naval appropriation bill.

The appearance of Representative Foss of Massachusetts, to take the oath of office, was the signal for an enthusiastic demonstration by the democrats.

The house will be in session tomorrow.

As no senator was prepared to speak on the administration railroad bill tomorrow, the senate adjourned until Monday.

District Nurse for Middletown Schools.

It has been voted to accept the offer of the district nurse association of Middletown for the services of a nurse in the public school for two months. The resolution was signed by a majority of the physicians in town. Dr. Kate Campbell Mead has reported a talk with local dentists, who favor the institution of the health of the children in the schools. This may be made a part of the work of the district nurse.

THE HOUSEHOLD, The Bulletin Building, 74 Franklin Street.

The best way to carry Ashes is in a Hod! Crawford Ranges. Have an Ash Hod in the base into which all the ashes fall far below the fire. They can't bank against the grates and warp them, and they can be emptied easily without spilling. The Coal Hod is alongside the Ash Hod—out of the way. This feature is a wonderful labor and trouble saver and is patented. Another trouble-saver of the Crawford is the patented Single Damper. One motion—slide the knob to "kindle," "bake" or "check"—the range does the rest. No damper mistakes. The Oven has cup-joint heat flues that heat it alike in all parts. Ask the Crawford agent to show you and write us for circular. Walker & Pratt Mfg. Co., 31 Union St., Boston. For sale by M. HOURIGAN, Agent Norwich and Jewett City.
