Westerly's Republican Committee

Recommends All Town Officers to The Caucus for Renomination—Dispute Over Watch Hill Wharf—Razing of Hoxie and Barber Buildings a Safe Proposition on Sunday—Survivors of 21st Regiment to Attend Norwich Reunion.

At a meeting of the republican town committee Monday evening all the officers were recommended to the caucus for renomination. In lieu of the argument set forth by Judge Thomas H. Peabody, it was voted as a precautionary measure that Judge Edward Burke be recommended to the caucus as the republican nominee for judge of probate. The caucus is to be held Thursday evening.

There was recent dispute as to the control of the so-called Watch Hill wharf at Watch Hill when Capt. Robert Babcock, owner of steamer Watch Hill, which plies between Stonington and the hill, proposed adding to the wharf and placing a building thereon for express and freight purposes. A meeting of the Watch Hill fire district was called and it was voted that inasmuch as John Champlin, proprietor of the Ocean house, had been the chief contributor towards the building and maintenance of the wharf, he be declared the managing owner. He then entered into an agreement with Captain Babcock which permitted the enlargement of the wharf and the erection of a building thereon, provided Captain Babcock would sign a lease that contained stipulations relative to the proposed changes and uses of the wharf.

Captain Babcock has failed to sign this lease and agreement and Mr. Champlin has enjoined him from making any changes in the wharf property. The work which has been done has been stopped until such time as there is adjustment of the stipulations to the satisfaction of Mr. Champlin.

The demolition of the Hoxie and Barber buildings on Sunday, which were located on leased ground on Watch Hill, is considered by some to be a bit of sharp practice, as no notice of injunction could be legally served on that day. The buildings were taken down upon the direction of the Westerly fire district, which acquired the sites by purchase in connection with other waterside property along Bay street, with a view to widening the street and beautifying the waterfront.

HAPPY RESULTS

Have Made Many Norwich Residents Enthusiastic.

No wonder scores of Norwich citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Norwich by Doan's Kidney Pills.

Miss Amy M. W. Cox, 38 McKinley Avenue, Norwich, Conn., says: "Doan's Kidney Pills are entitled to my strongest recommendation. OK and on for some time I was annoyed to quite an extent by a dull, heavy ache across my loins and kidneys. Those who have had similar experiences will realize how much misery and inconvenience this complaint will cause. A friend, knowing how I was troubled, recommended Doan's Kidney Pills and I procured them from N. D. Sevin & Son's drug store. They proved effective from the first, and it was only a short time after commencing their use that I was completely relieved."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Foley's Kidney Pills are antiseptic, tonic and restorative and a prompt corrective of all urinary irregularities. Refuse substitutes. The Lee & Osgood Co.

Preventives—those Candy Cold Cure Tablets—will satisfy and quickly check all colds and the Grip. Try them once and see! 48-25c. Sold by Lee & Osgood.

Inspection invited.

Frank W. Coy Real Estate Co., feb14d Westerly, R. I.

Prominent members of the junior class of Brown university, seventeen in number, are before the undergraduate body as candidates for election to the Cammarian club, the student governing body for the year. Twelve of the number will be elected on May 28 by the members of the three upper classes. The successful candidates will be "tagged" according to the custom in chapel May 31.

President Johnson of the present Cammarian club, upon reading the names in chapel last Friday, urged the undergraduates to consider the candidates carefully. He warned against politics entering into the election of the new club. C. J. Jones, president of Westerly is among the candidates nominated.

Westerly will be represented at the annual reunion of the Twenty-first regiment on Friday, June 18, in Norwich today (Tuesday). Five survivors of that regiment, all members of Company G, of North Stonington, are in the city. They are: First Lieut. Court G. Stanton, Paul H. Hillard, John B. Brown, Michael Welch, Albert F. Crumb and Charles A. Clark. There are other survivors of the regiment in this section, all of whom are active in matters pertaining to the Grand Army of the Republic.

Dr. Joseph H. Townsend, of New Haven, who is secretary of the state board of health, says that one of the most notable achievements of modern times has been the reduction of the death rate through sanitary science and the prevention of disease. In a recent lecture the physician said: "It is estimated that the death rate during the seventeenth and eighteenth centuries ranged between 50 to 80 per 1,000 of population."

"To-day in such cities as New York, London and Berlin the average is 17 to 19 per 1,000; in Connecticut it is between 15 and 16 per 1,000. This decrease is due chiefly to the protection from infectious diseases now given, and particularly to children in the early years of their lives. While this reduction in the death rate has been going on, there has been a coincident lengthening of the average duration of life.

"In the state of Connecticut in 1860 the expectation of life was only 30 years while in 1905 it has increased to 44 years. In New York city it has increased from 25 years in 1856 to 42 years in 1905. With this remarkable result in the lengthening of human life, the work of lifesaving among infants has fallen far behind other branches of sanitary work. If one compares the statistics of various preventable causes of death it is clear that nowhere, not even in the case of tuberculosis, is there such a needless waste of life of such numerical importance as that due to the deaths of children under one year of age. Fully one-half the waste is certainly preventable, and one of the most encouraging signs of the present interest in public health is the growing recognition of the importance of the campaign against infant mortality."

Meriden.—Fire Marshal Lucas has issued 104 Building permits since the first of this year. This is an unusually large number for so short a period.

LENGTHENING LIFE.

In Connecticut the Expectancy Has Greatly Increased.

Dr. Joseph H. Townsend, of New Haven, who is secretary of the state board of health, says that one of the most notable achievements of modern times has been the reduction of the death rate through sanitary science and the prevention of disease. In a recent lecture the physician said: "It is estimated that the death rate during the seventeenth and eighteenth centuries ranged between 50 to 80 per 1,000 of population."

"To-day in such cities as New York, London and Berlin the average is 17 to 19 per 1,000; in Connecticut it is between 15 and 16 per 1,000. This decrease is due chiefly to the protection from infectious diseases now given, and particularly to children in the early years of their lives. While this reduction in the death rate has been going on, there has been a coincident lengthening of the average duration of life.

Meriden.—Fire Marshal Lucas has issued 104 Building permits since the first of this year. This is an unusually large number for so short a period.

BOB VEAL.

Being Sold in Ansonia—Serious Offense

The Ansonia Sentinel says: Information has reached the city health officer that "bob" veal is being disposed of in Ansonia. An investigation is to be made by Dr. F. C. Goldstein and if the stories are true, the men who have been offending in this respect will be prosecuted. Bob veal is liable to appear at any time, but at this particular season of the year the temptation to sell the flash of calves which are less than a month old, is too much for some people to resist. The health authorities agree that the eating of bob veal is detrimental to the health and in order to protect people against this sort of stuff, laws have been passed making it a misdemeanor to sell bob veal.

The penalty is \$100 fine or six months in jail, or both. The selling of the flesh of any animal or fowl which died or was killed when diseased is also prohibited. The possession of bob veal or the flesh of any diseased animal or fowl is considered prima facie evidence of an intent to sell and is a violation of the law.

The Boston Store

First Showing and Opening Sale OF THE NEW

"Polarized Wash Fabrics" THAT ABSOLUTELY WILL NOT FADE

To Boston Store exclusively has been allotted the unusual privilege of co-operating with the manufacturers introducing to the women of Norwich and vicinity the new and only guaranteed fadeless Wash Fabric we know of—"Polarized Fabrics." We shall signalize the great importance of this event by giving up during "Polarized Sale" almost our entire window space and a large part of our regular Wash Goods section to these exquisite creations for the Spring and Summer of 1910. Especially do we invite the most searching "sun tests" to prove the fadelessness of the great showing of shades and colorings embraced in the matchlessly beautiful designs. Below we give brief details of three different weaves which have sprung into immediate and great popular favor wherever shown. Simply as an exhibit of fascinating interest the display is well worth seeing. Welcome to the greatest, newest and most instructive display and sale of Fadeless Fabrics ever attempted in this city.

READ THIS GUARANTEE!
POLARIZED FABRICS, the Goods that will not Fade
