NORWICH AND NORWICH MEN

Upright Lives with Positive Influence and More Interest in Public Affairs Advocated by Principal Tirrell—Many Public Questions Show Progress, Says Rev. P. C. Wright but City Depends Upon Character of Its Citizens.

Norwich and Norwich Men was the subject for addresses on Sunday evening at the Central Baptist church by H. A. Tirrell, principal of the Academy, and Rev. P. C. Wright, pastor of the church. The service was especially for men and about 150 of them occupied seats reserved for them in the center of the church.

Introducing Principal Tirrell, Rev. Mr. Wright said that it was coming to be better recognized that life and religion are one and that a religion on Sunday is of small value unless it operates also on Monday, Tuesday, Wednesday and the rest of the week. It was to fulfill this conception of life and faith that this meeting was held.

We have a good city and out of it gathering like this ought to come things for a better city.

Principal Tirrell declared in his opening words that he was not attempting to lay down the law for anyone but was only to give his individual opinion which could be taken for what it was worth.

Support Everything for Good of Norwich. The citizen should live a clean life, for he is an injury to the coming generation if he is not an upright citizen. But he may be an upright citizen, yet of only a negative influence. His influence ought to be positive and every thing that is good for Norwich should have his support.

Defects in Present Government. Stating that it was his purpose to speak chiefly of the citizen's public duties, Principal Tirrell said that as the most valuable property of the city is the highest view is to consider what a man can do for the people. What are the main defects that are in our present government?

He said that he believed the time would come when we should have expert city management, whether through commission or in some other way. How to get an ideal city is not a question of politics or of a changed charter, but we want more men to take an interest in our affairs, more who are willing to bank their fortunes and their reputation upon the future of our city.

Attend to Individual Character. Norwich at the present time, said Rev. Mr. Wright, at the opening of his address, seems to be in a state of unrest, questions of license, city charter, centralization of schools, and unification of public charities are before the people.

ENTERTAINED AT WHIST. Mrs. Charles D. Geer had four tables at her home near Poquetanuck.

Many from this city were in attendance at which given on Friday afternoon at the home of Mrs. Geer at her home near Poquetanuck. Four tables were played, the prizes being taken by Mrs. Avery of this city and Miss Gertrude Young of Taftville, while the consolation went to Mrs. Everett B. Dawley of this city. "Taft Will Make Good." When the question of nominating a successor to Governor Hughes was being discussed two years ago some of the leading members of the New York delegation were at the White House talking over the situation with President Roosevelt. Mr. Roosevelt remarked that, in his opinion, Mr. Hughes should be renominated, and someone remarked that would make the governor so big a figure in the politics of the nation that he would become a formidable candidate for the presidency in 1912. "Do you think so?" asked the president, turning to another member. "I do," was the reply, and one after another answered the question in the same way. When all had spoken Mr. Roosevelt smiled, his characteristic smile, surveyed the company for a moment and then replied: "Well, you are all wrong. Mr. Taft will be the next president, and he will be renominated and re-elected. Taft will make good." Whatever differences may be entertained regarding the wisdom of Mr. Roosevelt's policies, no one will question his political sagacity. Three years ago he was predicting the success of Mr. Taft in the White House, but that time has passed. Everything now points to the accuracy of Mr. Roosevelt's forecast. Mr. Taft has made good. From all parts of the country the reports are coming.—Tribune Special.
