Baldheaded Row Early Piety Not Always the Cause of Baldness

In Paris there lived a great physician of world wide renown who proved to the world that falling hair is caused by microbes.

Dr. Sagerlund proved that baldness is directly due to these pernicious and persistent microbes. He proved to every physician on earth that those inviolable yet voracious little devils dug and burrowed into the hair root and finally devoured the hair bulb.

It is now sold by druggists all over America, and by the Lee & Osgood Co. for 50 cents a large bottle. It is used extensively by women who desire luxuriant hair with a radiant glow.
