What Are Toric Lenses?

Toric lenses are a new kind of lens. They are ground with extremely deep curves...

The field of vision is greatly increased by the use of Toric because you always look through the glasses at right angles to their surfaces.

These lenses are becoming very popular with the best class of trade.

WEDDING.

Pike-Gebrath.

The home of Alderman and Mrs. Henry Gebrath at No. 121 Talman street was the scene of a pretty wedding on Tuesday evening when their eldest daughter, Charlotte, was united in marriage with Theodore Pike of this city. The ceremony was performed at 10 o'clock under an arch of smilax by Rev. Joseph F. Cobb, pastor of the Universalist church, of which the bride is a member. A close friend of the groom, and the bridesmaid was Miss Eleanor Gebrath, a sister of the bride. The best man was William H. Hinchman, a close friend of the groom, and the bridesmaid was Miss Eleanor Gebrath, a sister of the bride. The bride was becomingly gowned in point d'esprit over white silk with train and carried bride roses. The bridesmaid wore blue silk mull and carried pale pink roses. After the ceremony congratulations and good wishes were extended to the happy couple and a buffet lunch was served for the guests attending the ceremony and reception. Among those present from out of town were Mr. and Mrs. Henry Weston and Mr. and Mrs. Raymond Matthews of Hartford, L. Lincoln Price of New York, all relatives of the bride, the sisters of the groom from Marlboro, Mass., and guests from South Willington and New London. The newly married couple left during the evening in an automobile for a wedding trip and will reside upon the home at No. 24 York avenue. The going away gown was a navy blue tailored suit. Both young people have a wide circle of acquaintances locally from whom a large number of beautiful gifts were received. The groom is a machinist at the Norwich Nickel and Brass works and the bride has been a teacher in the primary grade at the Bridge district school for several years. She was a member of the class of 1904 at the Norwich Free Academy.

Prayer Letter Chain.

Many in the city are receiving letters containing copies of an ancient prayer and requesting that it be copied nine times and sent to as many persons but directing that no name be signed. It declares that unless it is done some calamity will befall the person but if it is done the writer will experience some great joy. Needless to say there are but few who are paying any attention to it.

The Reform Wave.

It is announced that there will be allowed no very short skirts and no flirtatious couples along the beaches at Revere, Nantasket and Winthrop this summer. When you want to see a wonderful sight in garments you will have to pay for tickets.—Brookton Enterprise.

Broadway School's New Principal

Fred L. Newton will Take Up the Duties in September at Opening of Fall Term—Nine Years' Experience and a Graduate of Williams.

As has been previously mentioned in The Bulletin, there will be a new principal at the Broadway school in the Central district this coming fall, Fred L. Newton of Terryville having

the death of Nathan L. Bishop, and such a valuable superintendent has been proved that he will become the permanent superintendent, and the duties of principal will be assumed by Mr. Newton. The board of education feel pleased at having secured Mr. Newton's services, which will be the one big change in the district when school opens. Mr. Newton was born in Cazenovia, N. Y., where he attended the grammar schools and prepared for college at Cazenovia seminary. He was graduated from Williams college in the class of 1901, receiving the degree of A. B. and ranking high in his class, so that he was made a Phi Beta Kappa member. He had a commencement appointment, won a prize in debating and took other honors in oratory. For nine years he has been teaching, being principal of the Weedville grammar school at Ticonderoga, N. Y., first, and from there went to Elliot, Me., as principal of a high and grammar school. He was also principal of a high and grammar school at Vineyard Haven, Mass.

For the past three years he has been supervising principal of the Prospect street school of Terryville, Conn., having under him 14 teachers and 570 pupils. That is the central and leading school in the town of Terryville, so he had accepted the position there for another year when the local board sought him as principal of the Broadway school. He was reluctantly released by the school committee, who have been outspoken in their praise of the work done in the school under his direction.

Mr. Newton has been here and looked over the town and school where he is to be located.

CHRIST CHURCH'S SUNDAY SCHOOL PICNIC Day Spent at Ocean Beach and a Delightful Time Resulted.

Relying upon the old adage, "Rain before seven, clear before eleven," the Sunday school of Christ Episcopal church made a good decision Tuesday when it was determined that they would hold the picnic in spite of the threatening conditions in the early morning. The party left Franklin square at nine o'clock in two special cars going to Ocean beach, where a delightful time was enjoyed, the weather proving fine. Lunch consisting of sandwiches, coffee, ice cream, cake, lemonade and milk was served to about 200 and the several hours at the beach were spent in bathing and playing games in which most all entered with much enthusiasm.

Those in charge of the lunch were Miss Ruth Thayer, Miss Marguerite Almy, and Miss Susan I. Gallup, while those who arranged for the transportation were Rev. Nelson Fox Carey and W. F. Habekotte. The teachers had an important part in making the details complete. The return to the city was made late in the afternoon.

WATER IS DROPPING AT SCOTLAND DAM Necessary to Start up Dynamo at Electric Plant to Help Out.

Because of low water at Scotland dam and the consequent lessening of the output of electrical current, Superintendent Eugene Arnold will necessarily start up one of the dynamos at the city's electric station Tuesday. The machine was put on at 7 o'clock and ran until 11 o'clock, when the reduced load enabled the power from Scotland to supply the city for the rest of the night. The dynamo will be started up again at 7 this morning.

Willimantic has been supplied by the generators at Scotland for about a year in the past, but last week, it is understood, all power to that city was shut off because of the low water. The prospects are that unless there is considerable rainfall the city will have to rely altogether on its own power plant during the summer, as was the case a year ago.

ROBERT FLANDREAU GETS A PROMOTION Will Be Sales Agent for National Biscuit Company at Marlboro—W. O. Williams Comes Here.

Robert L. Flandreau, who for the past year or more has been local sales agent for the National Biscuit company, has received a promotion in recognition of his excellent work here and will from the first of July be located at Marlboro, Mass., in charge of that office. Mr. and Mrs. Flandreau returned this week from their wedding trip.

His place here will be taken by W. O. Williams of Danville, Va., who has arrived here and is looking up the trade. He is a clever salesman and will no doubt make good.

Under Mr. Flandreau, Norman Kimball has been the cashier in the local office. His services will be retained by Mr. Williams, this decision being one of excellent judgment, as Mr. Kimball has proved an excellent man for the company here.

Landlady and J. P. Morgan. A boarding house is to be opened across the street from J. Pierpont Morgan's residence in New York. The lady in charge of the project announces that she will have accommodations for about thirty bankers, lawyers and doctors, but she will not have room for any workmen. Whether she proposes to discriminate against workmen because she thinks Mr. Morgan might object to them, she does not explain.

We may suppose, however, that she thinks Mr. Morgan might be pained if it were necessary for him to see men in overalls and jumpers daily going in and coming out of the house across the way. She cannot, perhaps, be blamed for entertaining such an idea. But Miss Anne Morgan might be in no wise distressed if the boarding house were to be opened up to workmen. She has recently shown much interest in workmen and their welfare.

In any event, it is hoped that the owners of the house have not taken steps to force Mr. Morgan to buy it at an exorbitant price. That would be a lady blow to the dignity of the bankers and lawyers and doctors who expect to board there.—Chicago Record-Herald.
