Answers Middletown Mayor's Letter

Chairman Comstock Comes to Defence of Judge Baldwin as Democratic Choice for Governor—Judge Baldwin's Record Secure—Would Attract Independent Voters.

In a letter given out Tuesday evening Chairman C. W. Comstock of the democratic state committee makes answer to a recent letter sent to him and all the other members of the committee by Mayor Willard C. Fisher of Middletown, in which Mayor Fisher gave his reasons for believing that it would be poor judgment on the part of the central committee to nominate Judge Baldwin for the governorship. Chairman Comstock's reply is to endorse Judge Baldwin in every way fitted to take rank with the distinguished democrats who have sat in Connecticut's gubernatorial chair and to urge the nomination of Judge Baldwin for an honest judge, who has simply construed the law as he has actually found it.

The legislature enacts the law and our duty is to construe it. If we think the existing law is faulty it is the duty of our legislature and not the duty of the central committee to attempt to change existing law by a usurper. We are a law-abiding people and our deep respect for the law is the foundation of our prosperity as a state. The intelligent voters of Connecticut will never seek revenge at the polls upon an honest judge, who has simply construed the law as he has actually found it.

Mr. Baldwin is as old as he feels. Judge Baldwin is vigorous, active and clear-headed, and at no time in his life was better qualified mentally and physically to all the office of governor.

To elect a democratic governor the candidate must receive the united, honest and aggressive support of our party, and he must attract at least ten thousand independent and republican votes. Why can we do this? Who, except Judge Baldwin, enjoys the confidence of the people sufficiently to obtain the independent vote of the state?

We have now an opportunity to restore the governorship to the high standard maintained by our fathers, who elected a Morris, an English, a Waller, an Ingersoll, and a Hubbard to that high office.

The independent voter will appreciate the difference between the honorable and dignified efforts in behalf of New Britain, William E. Brewster, and disgraceful scramble of the rival republican candidates.

I consider it extremely fortunate that our party is able to present in the coming campaign for the governorship a man the peer of Professor Wilson, the next democratic governor of New Jersey.

I thank you for calling my attention to some of the reasons which you give against the candidacy of Judge Baldwin. I highly appreciate your efforts in behalf of our party, and I know that you are heartily in sympathy with the democratic principles in this state will triumph in the next campaign.

This early discussion will surely disclose Baldwin's record is investigated the more popular his candidacy will become. The following members of the board of directors of the Connecticut Society of Civil Engineers have decided to hold the annual convention at Scotland and New London, this state, and the following members have been appointed a committee of arrangements: George K. Crandall, city engineer, New London; Edward W. Bridge, Hartford; William E. Jackson, waterworks engineer, West Hartford; William H. Dunham, engineer, Connecticut railroad, New Haven; Charles H. Preator, Jr., civil engineer, Waterbury; Francis H. Oldersham, city engineer, New Britain; William B. Palmer, civil engineer, Bridgeport.

The heavy construction work which has been under way for the past four years on the dam of the Uncas Power company, together with that company's large power plant, both located at Scotland on the dam of the Uncas Power company, is now being completed. This dam, recently completed, is of hollow reinforced concrete section and will be a wonderful up to date structure in every respect.

The convention will be held on Tuesday, Aug. 18, and from Scotland the members will go to Ocean Beach, near New London, where the meeting of the directors will take place and the applications of five candidates for membership acted upon. A 2 p. m. shore dinner will be served at Ocean Beach.

SONS OF VETERANS WORKING FOR BIG CLASS.

Special Aide from Hartford After 100 Applications for Sedgwick Camp.

A boom in membership which is expected to end in a class of 100 for initiation about the middle of September is being put on by the Sons of Veterans, and Charles R. Hale of Hartford, special aide, is here to work up the class. His success has already been encouraging and his efforts have resulted in the signing of a number of applications.

Sedgwick camp's membership has grown during the term of Commander Alvin O. Fairbanks, 15 new members having been received, putting the roster at 45 now, but the projected gain figures on a 200 per cent gain. This will be in line with the progress of other camps which are growing at the rate of 100 members a month, 27 new camps having been put in during the year, and the total membership having increased from 82 to 1,700. The objects of this patriotic order appeal strongly to the best class of citizens and ensures a high standard of membership.
