

DISQUIETING REPORTS DENIED.

No Foundation for Alarming Rumors Put in Circulation Yesterday.

MR. GAYNOR STRONGER THAN EVER.

Said the Physician's Bulletin Issued at 9.15 Last Night—Rumors in New York that the Reports from the Beside Were Masking the Whole Truth Were Widely Current, Causing Much Anxiety.

New York, Aug. 17.—Officially nothing has been heard from St. Mary's hospital, Hoboken, today and tonight concerning the condition of Mayor Gaynor. According to his physicians this was his best day since being shot in the neck by James J. Gallagher on Thursday last week.

Best Day Patient Has Had Since He Has Been in Hospital.

Today has been the best day the mayor has had since he received his injury, and this evening he is stronger than at any previous time.

There is no foundation for the alarming rumors which have been in circulation. If conditions continue as satisfactory as they now are only two daily bulletins will be issued hereafter.

ARLITZ, BIREWICK, STEWART, POWELL, PARKISH.

Disquieting reports of the condition of the mayor, reports from the hospital that the bulletins from the mayor's bedside were masking the whole truth were widely current this afternoon and evening, with considerable basis for credence, which have been refuted.

The assertion was credited to Robert Adams, the mayor's secretary, that the mayor's condition today was fully as serious as it has ever been, but that he was not, eight days ago. Other reports had it that the glands in the mayor's neck

had begun to swell, indicating the development of dreaded blood poisoning, and from this it was reasoned that the swelling increased, pressure on one of the blood vessels abraded by the passage of the bullet might induce a hemorrhage, with immediate fatal results.

All Met With Flat Denial.

Secretary Adams answered all these statements, which had found their way into print, with a flat denial. None of the doctors in attendance would even discuss them. The absence of the customary noon bulletin was explained by the fact that the mayor was sleeping at the time, and that it had not been thought worth while to risk making him to take his pulse.

There remains the fact that there has arisen a consciousness among those in touch both with the public and the doctor that the officials are rigorously confined to the stated symptoms and that at no time have they ventured on an assertion that the mayor is out of danger, or any definite prognosis of his ultimate recovery.

ABLE TO EAT MILK TOAST AND EGGS. Counterbalancing the disquieting rumors, the mayor was able today to eat milk toast and eggs, the nearest approach to solid food since he was wounded. The immediate members of his family still see him only for brief intervals, and nobody else but the doctors, the nurse and the mayor.

Waterbury, Conn., Aug. 17.—The long awaited annexation by Japan is about to become a reality, according to special dispatches from Tokyo published today by the Tokio press.

The despatches announced that the final negotiations for the annexation were commenced yesterday by Lieutenant General Kuroki, Japanese representative, and the Japanese minister in London.

It is believed that the negotiations with the members of the Korean cabinet were completed yesterday afternoon, and that an early conclusion of the act of annexation may be expected.

When the agreement was signed, other papers are issuing extra editions with the Seoul despatches.
