

NORWICH, CONN., FRIDAY, AUG. 15, 1910.

BREED THEATER

Bad Man's Last Deed, Cowboy Feature Picture.

The bill at the Broad theater last evening was one of the best ever seen at this popular family theater, all of the patrons being enthusiastic in their praise of it.

The great Biograph story of Unexpected Help is a strongly human and splendid story, while the wonderful story of Old Glory attracts the patriotic in the house and wins all by its magnificent scenes.

In the treatment of contusions with sensitive discoloration of the skin, if olive oil be applied freely without rubbing the discoloration will quickly disappear.

Historic Grapevine. Under the headline "Old but Sweet" a German agricultural paper publishes a description of what it calls the oldest fruit bearing grapevine in the new world.

Remedies for Dyspepsia. Summing up his experiences with 425 cases of dyspepsia, an English physician said that benefit had resulted most frequently from the use of two kinds of medicine—namely, alkali and a carminative, such as ginger, an hour or an hour and a half after a meal, or when the discomfort came on; or bismuth carbonate, in doses of half a dram or more before meals.

Old-time Englishmen hated idleness. An act passed in 1531 decreed that any person being whole and mighty in body and able to labor found beggling might be arrested, and if unable to give a satisfactory account of himself he was brought to the nearest market town, tied to the end of a cart, stripped of his clothes and beaten with whips through the town, bleeding and ashamed after which degradation he was sent to his native place, on his oath to "put himself to labor like a true man ought to do."

The Sense of Smell. It is not in the nostril that the sense of smell lies, but in the upper third of the nose. There the red lining of the nostril changes into brown, and becomes much more sensitive.

Faith and Enthusiasm. It is faith in something and enthusiasm for something that makes the world worth looking at—Oliver Wendell Holmes.

The Swiss Married Woman. A married woman in Switzerland is entitled to one-third of her husband's income as her independent property, according to a new law.

Where Wind Stops Trains. It is a common occurrence for a train to stop at a standstill on the Scotch highlands by the wind's force.

Profits of a Russian Fair. The turn-over in all lines at the last Nijni-Novgorod fair in Russia was estimated to amount to \$250,000,000.

Bravery. Some men's idea of bravery is doing something that the wives have told them not to do—Detroit Free Press.

Lack of Humor. Lack of a sense of humor has ruined many a man.

According to Consul-General Edward D. Winslow of Stockholm, the number of money orders received in Sweden from the United States during 1909 was 178,367, representing a value of \$4,400,000. On the other hand, the money orders sent from Sweden to the United States during the same time numbered 12,292, valued at \$560,000.

Henry Ainley and Miss Lena Ashwell are again registered players who will be in America this season. Miss Ashwell is to have the principal role in a new drama by C. M. E. McClintock.

About Beans.

The bean that we eat in some form nearly every day, that almost everybody likes, is comparatively new as a food. Our common, everyday bean is a native of South America and was introduced into Europe, whence it came to this country, during the sixteenth century, and now is represented by more than 180 cultivated varieties.

To Bed for the Sick. Few people realize that for most diseases the bed and it alone is the greatest, surest, quickest cure the world sees. Of the latter, about 6,500,000 are under license to lumbermen.

Concrete Facts. Pulverized wood is sometimes mixed with cement for making what is known as wood concrete. This is lighter than concrete that is made with sand. Straw, seaweed and hay are also pulverized for use instead of wood.

Sunday Irregularity. Physicians will tell you that upsetting the regular habits (let us hope the habits are regular) of the week on Sunday, eating more than is good for you, taking more or no exercise, all works toward indigestion, the results of which are felt through the following week until Sunday comes again, when the process is repeated.

Sizing Up His "Load." Fargos had occasion recently to speculate as to whether a drunken man such as an idiot. He was standing on a penny weighing machine endeavoring to insert a coin in the slot. He said he wanted to weigh himself to see how much of a "load" he had—Fargo Forum.

On Record. We desire to go on record right now as being of the firm opinion that a literary woman who wants to be loved should see to it that her flapjacks are the equal of her sonnets and her corned beef hash every bit as good, if not better than her essay on Browning—Exchange.

Largest Rose Tree. Germans claim to possess the largest rose tree in Europe. It is found in Herr Wehrle's garden at Freiburg. It extends 115 feet at the top and forms a spacious bower. Originally it was a wild rose, on which a Chromatella tea rose was grafted in 1881.

Useless Statistics. Some statisticians has figured out that Americans lose \$10,000,000 yearly by leaving sugar in the bottom of their coffee cups. Of course they don't, but still there is a certain fascination about statistics. They are so strikingly useless.—Philadelphia Ledger.

Attachment for Auto Lights. An attachment for acetylene automobile headlights has been invented by which the gas may be lighted by short circuiting the regular sparking system with a switch from the driver's seat.

Exercise. The value of daily exercise is to bring the less used organs into play, that they may the better sustain the organs which to us individually appear more important.

Duty to Self. Do what thy manhood bids thee do, from none but self expect applause; he noblest lives and noblest dies, who makes and keeps his self-made laws.—The Kasidah

Lee & Osgood Co., the popular druggists, are making an offer that is just like finding money, for they are selling a regular 50 cent bottle of Dr. Howard's celebrated specific for the cure of constipation and dyspepsia at half price. In addition to this large discount, they agree to return the money to any purchaser who the specific does not cure. It is only recently through the solicitation of Druggists Lee & Osgood Co. that this medicine could be bought for less than its retail cost. They urged the proprietors to allow them to sell it at this reduced price for a little while, agreeing to sell a certain amount.

Anyone who suffers with headache, dyspepsia, dizziness, sour stomach, sickness before the eyes, or any liver trouble, should take advantage of this opportunity. For Dr. Howard's specific will cure all these troubles. But by any chance it should not, Lee & Osgood Co. will return your money.

MAXWELL For Sale. The swiftest looking car and greatest bargain ever offered. Maxwell 4-cylinder, 45 H. P., equipped with every modern appliance, 116 wheel base, quick detachable rim. Been used carefully, now just out of the shop. N. E. We have several cars, little used—price right. NEW POPE-HARTFORD, MAXWELL AND OVERLAND CARS for immediate delivery. Call for demonstrations.

M. B. RING & SONS. There is no advertising medium in Eastern Connecticut equal to The Bulletin for business results.

Today the people of Japan are, as a rule, making what they have to sell in their homes or small shops, and they undoubtedly possess possibilities of immense fortunes by virtue of the mere dexterity of their fingers. With these conditions, and an estimated 1,000,000 house power available for hydro-electric harness, Japan on a protective tariff basis may be expected to make a remarkable record.

American capital is largely interested in hydro-electric enterprises in Japan and under favorable conditions American capital is ready for large investment in extensive power plants. Japan is well adapted for this purpose and such enterprises would convert the Tokio-Yokohama and the Osaka-Kobe sections into two of the world's greatest manufacturing centers.

New Brunswick contains 17,395,410 acres, of which 8,400,000 belong to the crown. Of the latter, about 6,500,000 are under license to lumbermen.

And now—a little later—this medicine is being advertised. If you are in your cough mixture, "good" very good! POETRY.

"LET ME WALK IN THE FIELD." I said, "Let me walk in the field." He said, "Nay, walk in the town." I said, "Nay, walk in the town." He said, "No flowers but a crown."

I said, "But the sky is black and dim." There is nothing but noise and din." He said, "There is nothing but noise and din." "There is more," said he, "there is sin."

I said, "But the air is thick." He answered, "Yet hearts are sick." I said, "Yet hearts are sick." He answered, "Yet hearts are sick." "There is more," said he, "there is sin."

I said, "I shall miss the light." And friends will miss me, they say." He answered, "I shall miss the light." "There is more," said he, "there is sin."

I pleaded for time to be given." He said, "It is hard to dolede." It will not come to you in heaven." I have followed the steps of your "Guide."

I cast one look at the stars." These stars, I thought, show how I said, "My child, do you yield?" "Will you leave the flowers for the crown?"
