Three Trees.
A ten-year-old cove tree will produce about twenty pounds annually. The mahogany is the most exclusive of known trees, single specimens growing here and there throughout tropical forests on an average of two to an acre. In Germany the linden tree is fairly bold sacred, and the Russians regard it as the habitation of her highness the goddess of love. This very charming tree lives to a great age. Wurttemberg claims to have a wonder of a linden 5,000 years old.

English Etchings.
The British sovereign pays no rates for taxes. The king of England has officially no surname. The center of Ascot race course is laid out as golf links. The gun carriage that has been used for carrying the coffin of both Victoria and Edward VII. will now be an object of popular interest in the courtyard of the Tower of London.

Recent Inventions.
Concrete beehives form the subject of a recent patent. An ingenious French optician has invented a case fitted with lenses and mirrors in such a manner that a user can see over the heads of a crowd in front of him. A stomach telescope, invented by a London surgeon and in constant use in a hospital in that city, enables a doctor to see the exact condition of the entire interior of the stomach of a patient.

A Good Cough Mixture.

Simple Home-made Remedy Free From Opium and Harmful Drugs.

An effective remedy that will usually break up a cold in twenty-four hours and quickly relieve the most irritating cough. It is easily made at home by mixing together in a large bottle 2 ounces of glycerine, a 1/2 ounce of virgin oil of pine and 1/2 ounce of pure whisky. Shake well and take a teaspoonful every four hours. The necessary ingredients are inexpensive and can be bought in any good drug store. This formula is the one used and recommended for many years by the late Dr. W. A. Leach, founder of the Leach Chemical Co., Cincinnati, O., in whose laboratories the genuine virgin oil of pine is compounded.

How to Stop Drinking
It was formerly customary for the habitual drinker to take the pledge regularly, sometimes once a year, and sometimes in every fit of remorse followed his debauches, and then—Break it! But now it is gradually dawning on the world that pledges do not stop drunkenness. The nervous system of the habitual drinker is diseased and he must have treatment that will cure this condition. Oritine is sold under a positive guarantee to cure the drink habit or the money will be refunded. Can be given secretly.

AT POLI'S.
Vaudeville and Motion Pictures.
Again on Monday Poli's theater was packed so that standing room was at a premium and a number of important announcements were made by Manager L. R. Adams, who said that on Friday afternoon there is to be a baby contest at the theater, when \$5 goes to the prettiest baby, while throughout the week letters of the word Poli's are to be given out each on Tuesday and Thursday of each week the final letter alone will be given and those possessing the letters to finish the full name Poli's will be given \$5 in gold. Wednesday night is to be the professional tryout and on Wednesday afternoon the ten persons giving the best definition of vaudeville will receive a prize. The set of furniture was awarded Mary A. Coughlin, who guessed the exact number of beans in the jar—721. There were many others within one.

Pyramid of Cheops.
Vast as modern skyscrapers are, not one has yet equaled the weight and massiveness of the pile of great stones which the swarming human ants of the Nile valley laboriously dragged together thousands of years ago until they had built the pyramid of Cheops. It would make a solid block 500 feet square and 330 feet high.

HALLOWEEN ATTRACTIONS ARE LARGELY ATTENDED.

B. hall, with a large number in attendance, and a splendid program that was arranged by the committee in charge and carried through most successfully. A delightful time was enjoyed by everybody. A whist with twelve tables playing took up the first part of the evening until 10 o'clock. Refreshments of cakes, ice cream and coffee were then served by the ladies, after which there were old fashioned Halloween games and a pleasing variety of musical selections. John Sullivan and Michael Coscoran, members of the Sodality quartette, afforded pleasure to all by their general rendy and lighter atmosphere which included solos, and the piano playing of Miss Sadie Driscoll and singing by Miss Margaret Bronnahan was received with special favor by the guests. The delightful affair was not concluded until long after the midnight hour.

Decorations suggestive of those things especially appropriate to the Halloween season were in evidence everywhere, even the score cards being adorned with a motto and picture fitting to the occasion. The members of the committee in charge, who deserve credit for the successful issue of the party, are as follows: Miss Nellie L. Sheridan, chairman, Miss Annie Driscoll, Miss Mary Foley, Miss Margaret Twomey, Miss Mary Skeely and Miss Katherine Donahue.

No Alleviation.
A belted earl was in the habit of playing golf daily at Musselburgh. This gentleman had contracted some ailment which made his head always shake a little. Frequently he had had occasion to rebuke his caddy for excessive indulgence in alcoholic liquors, and one day he spoke to him very sharply. "Robert, you are drunk to-day. It is a disgrace. You are very drunk!" "Drunk" replied the caddy. "I know I am drunk, but I'll be sober tomorrow. You're daft, and you'll never be right!"—Dundee Advertiser.

Let's wife had just turned to salt for looking back. "Guess I'd better announce myself a progressive," cried the crafty Lot.—N. Y. Sun.

THE TYRANNY OF MAJORITIES

Dr. Stephen S. Wise, Rabbi of New York, fells of the Evil Existing in American Politics Today—Lack of Character Ruins Politics.

The second in the course of entertainments given under the auspices of the B. Y. P. U. took place Monday evening at the Central Baptist church, with a lecture by Rev. Stephen S. Wise, pastor of the Free Synagogue in New York city. The Tyranny of Majorities was the title of Dr. Wise's eloquent address, and he was interpreted by a vocal association by the large number in attendance. The lecturer, who has a wide reputation, was greeted most enthusiastically when introduced to the audience by Rev. Charles H. Ricketts, pastor of the Greenview Congregational church. He was interrupted on several occasions during the course of his speaking by spontaneous outbursts of applause from his delighted hearers, and at the conclusion of his talk the big hand that was given him, which evidenced the deep appreciation for his splendid effort by all present, was complimentary to a marked degree.

In the tyranny of majorities, Mr. Wise referred to that tyrannical control which is exercised in respect to their actions at the polls, political parties, religious and racial influences, and by men of money and power. He said that the majority element is cited as an example of this tyranny, and at considerable length the speaker proceeded to show upon what its power rested. The majority element exerted a control over the votes of their fellow men are either men of considerable means and influence, or men among those who are in power, and the motives that prompt them to operate as they do are oftentimes questionable and shady.

Civic Patriotism Needed.
What we need here is civic religion, or what is called, civic patriotism. This is not to be taken, the speaker continued, in spasmodic or occasional doses, and we should allow it to hold full sway. Hall and its methods, and our ardor and the enthusiasm that an approaching election arouses are sometimes matters of brief duration, and are utterly unavailing. Religious, rilly ruin character, but a lack of character among men is what has ruined politics. It is the men who have entered political life and have not only kept their own hands clean, but have helped to clean the hands of others. The man whose hands are soiled in this business is the man who was corrupt at the beginning.

Put Away Certain Tendencies.
We cannot have clean politics unless we put away certain well known tendencies. Dr. Wise remarked, and in this condition named party partisanship, racial groupings and tenets, boss rule as among those things we should seek to avoid. It is all right to be inclined toward any political party and to sympathize with what it stands for, but we should avoid being bound to and by such a party. When a man says he is a life-long republican, he means that he has taken his conscience and put it in a wrapper and given it to the chairman of the state republican committee, or to matter what our political faith is, we should have our eyes open to see that a straight ticket is often made up of crooked men, and that many times we are asked to stand by those who have no standing at all. Patriotism should come first and partisanship should come afterwards.

Traitor is the One Who Debauches Electorate.
In respect to these racial groups often referred to, where a Jew, for example, will favor a Jew because he is of the same nationality as himself, we should seek to change this condition to that where that man will be supported because he is believed to be the officer and the elected will reflect honor upon those who placed him in office.

The real traitor in America today, the speaker asserted, is not the man who gives away some important secret in a moment of madness, but is the man who debauches the genius of the electorate of the country, and this character of men we should put down. No political machinery is not so much needed as an awakened public conscience. We need a renaissance of American patriotism.

Why This Country is Great.
The United States of America is not great because of its ninety million population, nor because of its wide area, but in a word, for reason of the civic religion or patriotism that dominates the people. It is the general meaning of effort at all times should be to secure for ourselves, our country and all things connected with us that greatness that comes from within. Russia, with its unlimited domains, peoples and resources, has never been able to compare with England. England is not big according to the general meaning of the word, but has always, since the beginning of its history, been considered great. Holland is small in area, too, but it has ever had in it the genius of greatness. Passing reference was made to the small places of Judea and little Greece, and to the great production of the world, and a lesson was drawn therefrom along the lines of the main thought of the evening.

POLICE BUSINESS DURING OCTOBER.

OBITUARY.
William Slattery.
At 2 o'clock Monday afternoon the death of William Slattery occurred at his home, No. 11 Tiley street, New London, from tuberculosis. He had been in poor health for some time. His many friends in this city will learn of his death with sincere regret.

William Slattery was born in Norwich 15 years ago, and most of his life was spent in his native town. He was employed at the Wauregan house for a number of years, both as a waiter and bartender, and about ten years ago he went to New London, where he was employed at the Crocker house, where he remained as long as his health would permit. His health began to fail, and he went to Saranac Lake and Liberty, N. Y., in the hope that a change of climate would benefit him. CRYING FOR HELP

Lots of it in Norwich But Daily Growing Less.

The kidneys cry for help. No man can live with the whole body so delicately constructed. Not one so important to health. The kidneys are the filters of the blood. When they fail the blood becomes foul and poisonous. There can be no health where there is poisoned blood. Backache is one of the first indications of kidney trouble. It is the kidneys' cry for help. Feed it. Doan's Kidney Pills are what is wanted. Are just what overworked kidneys need. They strengthen and invigorate the kidneys; help them to do their work; never fail to cure any case of kidney disease. Read the proof from a Norwich citizen.

Patrick Sullivan, 48 Mt. Pleasant Street, Norwich, Conn., says: "I am a person should ask me what to use for pain and lameness across the small of the back I would advise a trial of Doan's Kidney Pills. I have found that they have no equal for this trouble. My suffering was relieved at N. D. Sevin & Son's Drug Store and they thoroughly relieved me of a severe pain in the small of my back, strained my kidneys and benefited me in every way."

Both Speedy and Effective.
This indicates the action of Foley's Kidney Pills as Dr. J. C. Kelly, of New York, writes: "I have been afflicted with a severe case of kidney trouble for which I used Foley's Kidney Pills. Those cured me entirely of all my ailments. I was troubled with backache and severe shooting pains with annoying urinary irregularities. The steady use of Foley's Kidney Pills rid me entirely of all my former troubles. They have secured my permanent relief." The Lee & Osgood Co.

What Did He Mean?

MONTVILLE MAN WALKED AWAY WITH SHOTGUN.
W. H. Craig, Aged 48, Had Been in Eaton Chase Co.'s Store Getting Prices.
On Monday afternoon about 6:30 o'clock it was reported by Chief Murphy that a shotgun was missing from the store of Eaton Chase Co., and it was suspected that a fellow who had been in the store since about 10 o'clock and other articles had taken it. The chief gave the description of the fellow to the policemen, and during the evening Policeman Peacock found the man with the gun. He gave his name as W. H. Craig, aged 48, of Montville. He was locked up after a member of the firm identified the shotgun as the one lost.

To Break Up a Cold In Twenty-Four Hours!
CURE ANY COUGH THAT IS CURABLE.

Get from the drugstore, and mix together in a large bottle, 2 ounces of glycerine, 3 ounces of pure whisky and 1/2 ounce of virgin oil of pine. Shake well, and take a teaspoonful every four hours. It will quickly break up any irritation of the mucous surface in throat and bronchial organs.

This formula was used and recommended for many years by the late Dr. W. A. Leach, who claimed it would break up a cold in twenty-four hours and cure any curable cough. The genuine healing properties of pine, in its action on the respiratory organs, are present in the genuine virgin oil of pine. This, combined with its absolute freedom from opiate and narcotic drugs of any description, makes it an invaluable remedy for the family medicine chest.

In the case of young children, a drop of the pine in a little sugar provides a pleasant, as well as effective remedy for coughs and colds. Oil of pine is also frequently used in this way by preachers and public speakers, to relieve hoarseness and other affections of the vocal organs. The effect is almost instantaneous. The genuine virgin oil of pine is put up in half-ounce vials for dispensing through druggists, and prepared only in the laboratory of the Leach Chemical Co., Cincinnati, O., who guarantee its freshness and purity.

You Can Work Near a Window

in winter when you have a Perfection Oil Heater. It is a portable radiator which can be moved to any part of a room, or to any room in a house. When you have a

PERFECTION OIL HEATER
Absolutely smokeless and odorless

you do not have to work close to the stove, which is usually far from the window. You can work where you wish, and be warm. You can work on dull winter days in the full light near the window, without being chilled to the bone.

The Perfection Oil Heater quickly gives heat, and with one filling of the indicator always shows the amount of oil in the font. The filler-cap, put in like a cork in a bottle, is attached by a chain. This heater has a cool handle and a damper top.

The Perfection Oil Heater has an automatic-locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back, so the wick can be quickly cleaned. The burner body or gallery cannot become wedged and can be unscrewed in an instant for reworking. The Perfection Oil Heater is finished in japanned nickel, is strong, durable, well-made, built for service, and yet light and ornamental.
