MISFORTUNE IF EXPERIMENT IS NOT GIVEN CHANCE

Governing Cities from Capitol Hill Steadily Losing Popularity.

The Courant has received the full text of the new city charter proposed for Norwich by a special committee consisting of Henry A. Tirrell, Charles H. Hassell, Hibbard R. Norman, Frederick W. Cary and Herman Alofsin 2d. It is one of the most interesting documents which this office has been blessed for a long time, and we hope most sincerely that the pressure of public opinion in Norwich will make possible its approval by the general assembly. The fundamental principle is home rule, and it is by time that the legislature recognized the right of this principle. Governing cities of Capitol Hill is steadily losing popularity.

The last chapter provides that after five years of trial, if 25 per cent. of the electors petition that effect the people may by a majority vote decide whether to continue the new scheme or go back to the charter at present in effect. It will be a misfortune to the state if this experiment in self-government is not given its chance—Hartford Courant.

SIXTY YEARS OF MARRIED LIFE Anniversary Observed by Mr. and Mrs. Michael McQuirk at Their Home in Division Street—Family Gathering with Many Callers During the Evening.

The anniversary of 60 years of happily wedded life, on November 23, 1910, was observed by Mr. and Mrs. Michael McQuirk on Thanksgiving in their pleasant home, 207 Main Street, surrounded by those they love. A family dinner was served at 5 o'clock at which children and grandchildren gathered and the evening and afternoon many relatives and friends called on the happy couple and congratulated them upon being able to celebrate such an unusual event in life and many tokens of kind remembrance were presented.

One feature of the affair was that both Mr. and Mrs. McQuirk are in the full enjoyment of their faculties and entered into the spirit of the festivities with almost the enthusiasm of youth. They were able to do their full share of the entertaining. The house was decked with flowers and plants from the greenhouse of William H. McQuirk, the eldest son of the couple.

Mr. and Mrs. McQuirk were married in this city on November 23, 1850. The maiden name of the bride was Anastasia Princely and she is a native of New Jersey. The officiating clergyman was the Rev. Father J. J. Murphy. In those early days Norwich was part of the Catholic parish of Worcester and the priest who officiated in eastern Connecticut were ministered to by the Jesuit Fathers of Holy Cross college in Hartford.

The Rose of New England has always been the home of the favored children of the earth and has had an influence for good in the community.

Mr. McQuirk was a carpenter and became a builder and contractor for a long time at the building firm of McQuirk & Bacon, who were the leaders in their line in Norwich. He was also in the work and especially in the fact that he located the elegant Catholic church on Broad Street, and the present time, in front, for the architect had planned to place the edifice near the side-alley which it entered from a long flight of steps.

He was the contractor on the church until it was roofed in.

Mr. McQuirk is a republican in politics and keeps well read on the topics of the day. He filled minor town offices and has held an office in the town council when a young man. He took deep interest in the life of the first small Catholic parish of Norwich.

STATE CHEMIST'S REPORT ON MOHEGAN LAKE WATER.

See No Reason Why It Should Not Be Used With Safety for Drinking Purposes.

Last Friday Health Officer Dr. N. B. Lewis took a sample of the water from Mohegan lake and sent it to the state chemist's office, where it was analyzed and he received the result of the examination, which was turned over to the superintendent of the water department. The report is very interesting and the report to board and will no doubt be to the residents of the city.

The report states that this water contains a small amount of mineral matter and is quite soft. The figures for organic content are very low and the chlorine figure is about normal.

The number of bacteria are moderate and are of the high class of the local water. This water appears to be free from objectionable drainage contamination of high class of the local water. The description of conditions on the drainage area given by Mr. C. E. Chandler can see no reason why this water should be used for drinking purposes.

Cock spaniel—First, Dinah, belonging to E. C. Roath.

French bulldogs—Senior dogs: First, Kytote, Mrs. M. E. Morrissette; first, La Fouchard, Mrs. M. E. Morrissette. Junior bitches: First, La Reine, H. F. A. Pike; Junior bitches: First, Millie, Pompadour, F. A. Pike.

PARK ROADWAY WITHIN TWO WEEKS OF COMPLETION

Contractor Chapman Has 1,550 Feet Finished.

The work on the new road that will lead from Washington street up to the new city hall, which is being carried on under the direction of Contractor Charles E. Chapman, is making rapid progress. Already 1,550 feet have been finished, and unless there is an unusually large amount of blizzard, the work will be completed within two weeks more. There are two long strips that required considerable work, and which will be done, and along the sides of these places are supporting walls and finely finished curbs. The other finished parts, already made a fine appearance.

FUNERAL.

Pini Vigenco.

At 2:15 o'clock Thursday afternoon the funeral of Pini Vigenco was held at the home of John Vigenco, 207 Main Street, West Thames street, and at 3 o'clock at St. Patrick's church services were conducted by Rev. Hugh Treavor. The bearers were the Eustace Rougeron, Frank Cosentino and Nicholas Taradino. Burial was in St. Mary's cemetery.

Thanksgiving Dance.

Under the auspices of the Broadway Yacht club, a very successful and enjoyable dance was held Thursday evening in the A. B. hall, there being about seventy-five couples present. The regular Thanksgiving dance that has been given by the academy for a number of years and as usual was a successful and pleasing affair. The dancing lasted from 8:30 to 12 o'clock and was furnished by the Academy orchestra.

LIVE GLOSSY HAIR ON HEALTHY SCALPS

To prevent dry, thin and falling hair, remove dandruff, allay itching and irritation and promote the growth and beauty of the hair, frequent shampoos with Citicurea soap, assisted by occasional dressings with Cuticura ointment, are usually effective when other methods fail. In preserving, purifying and beautifying the hair, preventing minor eruptions from becoming chronic and in the treatment of torturing, disfiguring humors, rashes, itchings and inflammations, from infancy to age, these pure, sweet and gentle emollients have no rivals.

At all the public institutions on Thursday there were fine dinners served, as usual, and the people thus served found most appetizing fare furnished by The Bulletin were served at the Rock Nook Home, Shelton Arms and Country Home. There were tempting bills of fare at the other institutions, that at the Norwich hospital being as usual of a high order, turkey and chicken being served with all the fixings, put up in the appealing style characteristic of the hospital chefs.

FINE DINNERS SERVED AT PUBLIC INSTITUTIONS.

AT THE COUNTY HOME.

Thursday was a red letter day for the children at the New London County Home, for on this day, as in years gone by, through the kindness of The Bulletin and other friends, turkeys, vegetables and other good things that were tempting bills of fare at the other institutions, that at the Norwich hospital being as usual of a high order, turkey and chicken being served with all the fixings, put up in the appealing style characteristic of the hospital chefs.

ROCK NOOK CHILDREN ENJOYED THEIR TURKEY.

Thanksgiving Dinner Was a Grand Affair, Bulletin's Turkey Gobbler Making a Big Hit.

The children of the Rock Nook home were as follows regarding the Thanksgiving dinner and the turkey furnished by Woodhouse and the Bulletin Co., Nov. 24, 1910.

Dear Sirs—I want to express our thanks for the turkey you sent us. It is coming. I think that it is very good and you think of us every day. We hope that you had a turkey as good as ours. We all had a fine dinner, thanks to you all.

Norwich, Conn., Nov. 24, 1910. Dear Sirs—We thank you very much for the turkey that you sent us. I can tell you that it was very good and very much for it. We were all very pleased when we saw it on the table, and we enjoyed the good things we had to eat very much. MILDRED MILLER.

AT POLI'S.

Vaudeville and Moving Pictures.

A capital bill that is offered at Poli's for the week end by Manager Adams, is a high class affair and one that is packed houses. Both performances on Thursday they displayed their ability in a manner which called forth much applause.

May Clinton & Co. present the world famous shooting star and this is the only one of its kind in the city. The shooting star is a very rare and valuable gem and is the delight of the audience. She has a way of her own and is very comely and it gets the crowd.

Lyons & Cullum sing, dance and imitate in a highly entertaining way. All their work is of the highest quality and in particular come in for a big hand. The Venetian Four with musical instruments provide a most pleasing number and get rounds of applause for their clever work.

The Royal Trio in That Mistle Mistle introduce a pretty sketch which makes a hit and they keep the audience in laughter from the time they act on up. The Trio, comedy acrobats, have something new to offer in this line of work and make a success of it. The moving pictures are of most interesting subjects.

ENJOYABLE FAMILY GATHERING.

One of the most enjoyable Thanksgiving gatherings was that of the Dolbeare family, held at the home of Mrs. Dolbeare, 207 Main Street, on Thursday. Among those present besides the host and hostess, Eliza Dolbeare were Capt. Charles Bushnell, Mrs. Nancy Dolbeare and Miss Alice G. Woodmansee.

MORE THAN EVER Increased Capacity for Mental Labor Since Leaving Off Coffee.

Many former coffee drinkers who have given up coffee and since leaving off coffee, have found a better capacity and greater endurance by using Postum instead of ordinary coffee. An Illinois woman writes:

"I had drunk coffee for about 25 years, and finally had what the doctor called 'coffee headache'—a very bad and extremely despondent, had little mental or physical strength left, had no energy, and was unable to do any work."

"The first noticeable benefit derived from the change from coffee to Postum was the natural action of the kidneys and bowels of Spring Garden, Mass. My heart action was greatly improved and my nerves steady."

"Then I became less despondent, and the doctor, who had been unable to show proof of renewed physical and mental strength."

"I am steadily gaining in physical strength and I have been able to do more mental work and had to give up no account of coffee, but since using Postum I have been able to do more work with less fatigue than ever before."

Read the little book, "The Road to Wellville, in Ours, 'There's a Reason'."

Ever read the above letter? A new one appears from time to time. They are true, true, and full of human interest.

Henry E. Collins, in Montville. Death came as a result of a fall which took place seven weeks ago, when he broke his hip. Mr. Collins was in the 81st year of his age and was born in Westfield, the daughter of Paulson and Susan Peckham Lewis. She was the last of a family of fourteen.

The deceased is survived by two sons, Ramsford Collins of Wakefield, R. I., and Henry E. Collins of Montville, and by four grandchildren.

Mrs. Collins was well known in this section and will be missed by a very large number.

ARTESIAN WELL GIVES 36 GALLONS A MINUTE.

Will Be Sunk to the 500 Foot Level, When It Will Be Stepped, as Will the Second Well.

On Thursday morning the members of the water board, Superintendent Corkery and Engineer C. E. Shandler went to Meadow brook, where evaporation is in readiness for the test of the first well. It was made by pumping the water and filling a three-gallon bucket, and the result showed that there were 36 gallons of water a minute secured. This is 11 gallons a minute more than was secured on the previous test, but does not equal what was expected or desired. The well is down 45 feet.

The board has decided to sink the well to the 500 foot level and when that is reached to stop work on the second well, however, there up and pump whatever amount they are able to receive from the two. Although no test was made in the second well
