FINANCIAL AND COMMERCIAL.

VIOLENT BREAK IN PRICES. Losses from One to Two and Three-Quarter Points—Unsteady Tone at Close.

New York, Nov. 30.—Prices broke with some violence in today's stock market, the active list registering losses that ranged from 1 to 2 3/4 points. No explanation attended the decline except the rumor that the general belief that the recent bull movement had gone stale from lack of outside support. By 10:30 a. m. supplementary rumor it was thought in many quarters that some open repudiation in steel and iron prices would soon be announced. Color was given to this belief by reason of the meeting during the day of the leading iron and steel makers, at which the unsatisfactory trade conditions undoubtedly were discussed. Up to the close of the market, however, no word had come from that quarter. On the trade it is generally admitted that prices are being signed, and that not such an extent as to precipitate an open war, such as occurred in the early part of 1909. While no official data yet at hand, it is generally conceded that the United States Steel corporation's report of unfilled orders for December will show a further decrease.

Otherwise the day's news was a mixture of indifferent character. There were less authentic advices that the money pressure is relaxing in the west, and akin to this were reports from mercantile centers which told of a marked diminution in offerings of commercial paper. This latter phase of the banking situation was accepted as indubitable proof of contracting business during the coming year. A report of general financial conditions, it is interesting to note that the month's output of new securities aggregated \$122,000,000, or over \$27,000,000 in excess of November, 1909. Local banking institutions have loaned from five to six million dollars this far this week to the city of New York, and banks in Boston and Philadelphia were today drawing on this reserve here.

Returns of the Harriman roads for October were made interesting in that they showed large losses in net earnings. Those of Union Pacific decreased \$717,000, while Southern Pacific lost \$721,000. The returns of the St. Louis and San Francisco system for the same month ran from favorable to adverse, with a fairly substantial increase for the first month of the financial year. London's participation in this market was also negligible, probably aggregating \$400,000, with a small balance on the buying side. The local stock market became dull in the middle of the hour, and with a few rallies, but in the final dealings another attack by the short interest forced the better part of this recovery, the tone at the close being altogether unsteady.

Bonds were steady, with extremely narrow transactions. Total sales, par value, \$1,727,000. United States bonds unchanged on call.

HOW IT HAPPENED WHEN NELSON LOST. Graphic Description of First Knockout to Be Scored Against Battler.

When Battling Nelson came out for the eighth and what proved to be the final round of his battle with Owen Moran in Frisco Saturday he showed signs of green distress. There was a thin stream of crimson running from his nose, but Moran wore a badge of red under his left ear, and both looked apparently equal.

Nelson lowered his head and surged forward with a rush. Moran darted in and joined the fray. The referee saw the law. Nelson dropped in his tracks, trembled visibly and sank to the floor, where he remained with a gasping expression on his face while the referee counted six. It was a new experience for the Battler, who had shocked himself together and staggered to his feet.

Moran was upon him like a flash, and again shot over a crushing right swing to the chin. This time the welterweight had flopped suddenly to the floor and had gushed from his mouth and nose as he turned a stiff neck toward Referee Ben Selig, who was tolling off the fatal seconds.

FREE RHEUMATISM CURE. A Home Cure Will Be Given FREE by One Who Had It.

In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but much relief was received only temporarily. Finally, I found a remedy that cured me completely, and I have never returned. I have given it to a number who were terribly afflicted and even had given up Rheumatism, and it effected a cure in every case.

It was the Princeton team which elected to meet the Yale-St. Paul team in what was thought to be a one-sided game, but the latter surprised them by a score of 4 to 0.
