Keeping White Floors White

Most housekeepers would prefer to keep the kitchen floor unpainted and "in the white," were it not for the labor of keeping such a floor in satisfactory condition. However, the work of scrubbing will be lightened and milk-white floors can be easily attained, by dissolving in each pail of warm water a tablespoon of Gold Dust washing powder. If scrubbed this way each week old stains that seem to be grinding into the wood will soon disappear altogether. This is also excellent for scrubbing steps, stairs and wood work.
