You can eat anything your stomach craves without fear of indigestion or that your food will ferment or sour on your stomach if you take a little Diapepsin occasionally. Your meals will taste good, and anything you eat will be digested; nothing will irritate or burn, which causes belching, flatulence, a feeling of fullness after eating, indigestion (like a lump of lead in stomach), biliousness, heartburn, water brash, pain in stomach and intestines or other symptoms. Get a large 50-cent case of Pan's Diapepsin from your druggist and you will actually brag about your healthy strong stomach, for you then can eat anything and everything you want without the slightest discomfort or misery, and every particle of impurity and gas that is in your stomach and intestines is going to be carried away without the use of laxatives or any other assistance.
