If the Springfield Republican calendar were to appear with any new-fangled features or embellishments it would prove as great a shock as though some turn dignitary should suddenly turn out-up. The 1911 calendar is made of sturdy stock and in a class by itself, as is the paper which issues it, and both are desirable and dependable references for the New Year.

GREATLY EXAGGERATED.

United States Marshal Edson S. Bishop, who is department commander of the Grand Army of Connecticut, spent a quiet Christmas at his home despite the fact that he was summoned to Hartford by inquiring as to the truth of the rumor that he had died suddenly, says the Hartford Times.

The marshal rose to the occasion gracefully and assured his inquirers of the philosophy of Mark Twain that the rumor was a great success.

To a newspaper man who ventured an inquiry if the marshal was really dead, the commander Bishop said that if the paper put him in the death column he would insist on having the matter settled by placing him in the high column on the succeeding day. It is how the rumor originated did not appear.

Big Suit By Uncas Power Company

Asks \$10,000 from Rockville-Willimantic Lighting Company—Collector of Town of Salem Sued—Five New Cases Filed with the Clerk of the Superior Court.

Five new cases were filed with the clerk of the superior court on Tuesday for the first Tuesday in January, and all concern this part of the county. There are not the usual number at this time of the year, but there remain several days in which they can be filed.

The Uncas Power company has brought suit against the Rockville-Willimantic Lighting company for \$11,000 damages, claiming that they entered into a contract with the defendant company April 20, 1909, which they have carried out. There was due the plaintiff during the period \$11,000, but the defendant has paid but \$1,200 and there is \$10,000 wholly unpaid.

The contract entered into between the companies was to the effect that the defendant company should furnish them electricity and the defendant company agreed to take it at the stipulated price of 48¢ per k. w. at one cent per k. w. and thereafter 4¢ per k. w. at 2-4 of a cent a k. w. It was stipulated that they could use as much as they pleased of the power furnished by the defendant company, but there was a restriction that the city of Norwich must have all the power wanted before the defendants could get their electricity.

The defendant company has a number of hydroelectric plants located at Scotland on the Shetucket river, and the point of delivery to the defendants was the plan the defendant having erected a pole line.

Divorce Suit. Cornelia Carrier of Colchester sues Oren Carrier of Middletown for a divorce.

DID THE PHEASANTS COME FROM FISHER'S ISLAND? Member of Club There Said He Shot Them and Gave Them to Friends—No Attempt to Sell.

Trial of the suit brought by the state against David Rothschild, a butcher, to recover penalties aggregating \$130 for shooting these pheasants in his possession during the closed season was begun before Justice Whitney and the jury at 10 o'clock Monday at the New York Evening Post.

The pheasants were seized by a state game warden, according to the complaint, as they hung from the rafters of a store early last month.

The defense is that the birds came into Rothschild's store from a hunter and housekeeper who sent him the pheasants to prepare for cooking. He says he had no intention of selling them to cook when the game warden seized them.

Rothschild's story is corroborated by Mrs. E. J. Solomon, who is an attorney at law and the publisher of the New York Evening Post. She said that she received the pheasants together with a letter from a young friend, who was in court to testify that she shot them on Fisher's Island, and sent them to her so that she could give a pheasant dinner to her friends.
