NORWICH
HOME RUN SLUGGER
FOR CHICAGO AMERICANS.
Bodie, New Recruit, Got Thirty in the Coast League Last Season.

What kind of a ball player was the White Sox picked up in this widely discussed trade, anyway? Aggie Lester E. Smith in the Chicago Post. For a minor leaguer, the Pacific Coast league outfielder has come in for more than his share of publicity, and probably no youngster will ever have been watched with greater interest than he.

Different reports are being brought into Chicago about "Pig," which is merely a nickname for his real name, which is Bodie. The fact is that he is a marvel. Others have no hesitancy in calling him clubby, a run buster and a slugger. Some clubby players come with the idea that they wouldn't have been credited with offering fabulous sums for him.

It is a sensational habit of slugging out home runs that has brought Bodie into the White Sox. He has hit 29 home runs, 20 of which were in the Pacific Coast league. He has a batting average of .362. This mark indicates that Bodie is a real slugger. He has a batting average of .362. This mark indicates that Bodie is a real slugger.

The official records of the Pacific Coast league tell a few things about Bodie that aren't being told by those who have seen him. He has a batting average of .362. This mark indicates that Bodie is a real slugger.

In fielding, the White Sox recruit stands out. He has a fielding percentage of .982. This mark indicates that Bodie is a real fielder. He has a fielding percentage of .982. This mark indicates that Bodie is a real fielder.

Y. M. C. A. Basketball.
Two of the teams which are close together in the Y. M. C. A. basketball tournament meet for a game tonight, when the Columbus play the Blue Ribbons, but the Laurel Hills, who are in second place, will probably have an easy game, as they play the Nationals, who have not yet won a game. The tournament standing is now as follows:

Team	Won	Lost	P.C.
Olympians	5	1	1.000
Laurel Hills	4	1	.800
Columbus	4	1	.800
Blue Ribbons	3	2	.600
Wanderers	2	4	.333
Five Chums	1	4	.200
Nationals	0	5	.000
Greenwicks	0	5	.000

FINANCIAL AND COMMERCIAL.

VERY LITTLE TRADING.
Yesterday's record in Wall Street the lowest of the year.

New York, March 10.—Stocks held close to the prevailing level of the last few days throughout today's session. Although a few issues made particularly good headway, changes in most cases were almost negligible. It was another dull day, with little news except the monthly report of the United States Steel corporation's unified tonnage.

The amount of trading yesterday was the smallest of the year up to that day, but the total of sales today established another low record. The extreme dullness which prevailed is the result of the fact that the market was moderately active stocks, such as Baltimore and Ohio, Denver and Rio Grande common, Louisville and Nashville and Western Union, there was not a sale during the session.

There was again a noticeable absence of large selling orders, a condition which has been general of late as to indicate that there is almost no pressure to liquidate. Operators on both sides were equally cautious, and even the purely speculative element was not inclined to enter into extensive commitments.

The Canadian stocks and Missouri Pacific were the strongest on the list. Canadian was strong all day, rising to a new high record, although its advance was less than those of allied stocks. Minneapolis, St. Paul and Northern Pacific were also strong. Central and Duluth, South Shore and Atlantic, all of which rose two points or more during the day. Holders of Missouri Pacific were disposed to exact better prices on account of indications that control of the property may not have been settled so definitely as was believed and the stock was advanced sharply, although subsequently it lost a large part of its gain. Better understanding of the Mexican situation resulted in some improvement in Mexican railway shares.

The United States Steel corporation's report of unified orders at the end of February, amounting to 2,400,000 tons, a gain of nearly 200,000 tons, was accepted favorably as showing a continuation of the steady increase in the steel trade which has been in progress of late, although the increase was not up to the most sanguine expectations. Traders bought Steel shares freely during the morning, expecting a more marked increase than was shown, and Steel common sold off on publication of the figures. The drop in Steel arrested the slow improvement which was in progress through the rest of the day.

Known money movements of the week indicate a loss in cash for the banks, the first in several months. The loss to interior and to the sub-treasury is estimated at more than \$4,000,000. The change in the direction of cash movements is a seasonal one, being due doubtless in large part to crop requirements.

Fert returns from the comptroller's call for a statement of conditions of the national banks were received today from Chicago, whose banks reported the largest deposits on record and the largest increase between calls ever made. The loan account shows an increase of more than \$30,000,000, indicating that the banks had lightened the burden of idle money. Bank exchanges still show a marked loss from a year ago, the week's increase running slightly over 10 per cent.

Dealings in Southern Railway general mortgage bonds and Wabash exchange four were the only noteworthy features of the bond division, the trading in those two issues constituting more than 25 per cent of the day's operations. Total sales, par value, \$2,113,000.

United States bonds unchanged on call.
