WILLIMANTIC Car Strikes Carriage—Accident on South Coventry Line Late Friday Night.

The first trolley accident in a long time on the South Coventry line happened Friday night when the car due at the Main street terminus at eleven o'clock struck a carriage owned by Murphy Bros., the Church street livery firm, in which was Orrin S. McKain of Jersey City, who of late has been employed at the Norwich State hospital. The accident happened on West Main street, on the bend of the road above the residence of A. C. Andrews.

McKain was driving east and the car was coming in the same direction. A young man sitting on the front seat of the trolley said Saturday that on making the bend of the road the carriage could not be seen. As soon as the searchlight on the car showed the carriage ahead the motorman put on his brakes and pulled the warning whistle. The driver heeded the warning and started for the side of the road but was not quick enough to escape. The car struck the rear wheel and threw McKain out. He struck in the road on his face and was badly bruised.

The car was stopped and McKain was taken aboard. At the police station the parties concerned were questioned by the officers in charge. Then McKain went and had his bruised face attended to. The matter is now being handled by the force of the collision and the horse was thrown and slightly cut and bruised. Mr. Murphy has advised that the full extent of the injuries to the horse was not known for several days. The wheel which was struck was wrecked; it was forced aloft by the blow so that the axle was sprung and the reach splintered.

Price of Milk Raised. Milk producers in this section are related to find that the prices of their product will be raised by the Milk Contractors' association in Providence and Boston. There has been a big shortage in those cities and so many farmers in this section of the state raised their prices to 30 cents a quart. The price would be 30 cents per ten quarts for the month, and in August it would be further advanced to 35 cents. As the price previous was 27 cents the amount of increase is quite gratifying. During June some of the farmers in the places named Liberty Hill, Lebanon and other places who send their supply to the Providence Dairy company were notified by circular letters Saturday that dating from July 1 the price would be 30 cents per ten quarts for the month, and in August it would be further advanced to 35 cents. As the price previous was 27 cents the amount of increase is quite gratifying.

Complaint Against Vicious Dog. Col. John H. Morrison, agent for an insurance company, has given written notice to Chief E. H. Richmond of the police department that he wants the dog named "Dogg" removed from Champlin & Weeks. He claims that on June 12 he was attacked and severely bitten by a large colored dog owned by Weeks in front of the latter's home on Ash street, and that the dog was not in any way driven to such dogs. Originally the matter was referred to the police department, but the dog was not removed. The dog was not removed. The dog was not removed.

Charged with Overtaking. Much interest is being manifested among local automobilists in regard to the outcome of the case of J. B. Fullerton, who is to appear this (Monday) morning in the Montville court, charged with overtaking somewhere in that town on Sunday, July 9. Local people think that Mr. Fullerton is wronged in the matter as it is doubtful that he drives his machine beyond the limit allowed by law. An officer came to the city Friday night and served the papers on Mr. Fullerton.

New Potatoes \$2 a Bushel. Grocersmen are being charged two dollars a bushel for new potatoes by farmers and wholesalers. At this price much of the demand has been cut off. Last year's product has the call at a lower price.

Somewhat Inconsistent. Commenting on Sunday baseball while in Danielson Saturday morning, a prominent local citizen said that one of the persons who made the biggest kick against the game at Wildwood park was one of the most able performers Dayville had on the night before the Fourth as one of a gang that "did things" to property not their own.

Delay in Telephone Improvements. There is a delay in making the changes at the local central office of the Southern New England Telephone company, which were completed, will have provided a common ring system instead of the hand ringing system now in use. Several weeks must elapse before the improved service may be had.

Going to Fort Wright. This is the week that the Thirteenth company, C. A. C., will get away for their annual encampment at Camp Baldwin. The advance squad will get out tomorrow (Tuesday). Clerks Want Half Holiday. Clerks in various stores in Danielson are giving expression to the desire for a weekly half holiday during the remainder of the summer up to September 1. There is no organized movement, however, and the realization of the hope seems as far distant as ever. The fact that some stores in Putnam, Dayville and Mousup grant the privilege creates the demand here.

Lead Crates for Hens. The shipment of several crates of hens from the local railroad station attracted more than usual attention because of the fact that many chunks of ice had been spread over the floor of the crates and were conspicuously placed at by the hens, which were looting, like a dog, with the heat. The shipment was to Groton.

Mr. Brooks ministered to the souls of the members of the church with integrity and ability, and performed the duties of his office with such conscientiousness and persistent attention to the church, added to the membership, strengthened the members in the faith, and was instrumental in moving the large debt overshadowing it.

Affectionate sympathy for the family in their great sorrow is expressed by the entire church in the communication prepared.

JEWETT CITY Unexpected Death of Philime Gingras—Eight Marriages, Eleven Births and Four Deaths During June—Outing of Congregational Sunday School.

Philime Gingras, V. S., died at his home on South street very suddenly at a little after 5 o'clock Saturday afternoon. The cause of death was acute complications resultant from gallstones, a malady from which he had been a sufferer more or less for years. He was out on duty about the duties of his stable at 5 o'clock and returning home died in less than an hour.

He was born in St. Jean De Baptiste, P. Q., 60 years ago, was educated in Canadian schools and was a graduate from the veterinary college in St. Hyacinthe coming gravel room runnals to Jewett City 20 years ago. His skill as a veterinarian was recognized all the country round and his practice was at the best. He was a member of St. Mary's church and at the time of his death was a teacher in his Sunday school. He was a member of the Council Chaplain, St. Jean De Baptiste, and president of the Republican Naturalization club since its founding 12 years ago. He was a quiet, upright citizen, with many friends, by whom he will be greatly missed.

He was 12 years. There survive him four sons, Nere, Stanislaus, Paul and Louis, and a daughter, Miss Regina Gingras, two brothers, one in Fall River, Mass., and a sister who lives in Canada.

It is an Agapanthus, Blue Lily of the Nile, a splendid ornamental plant, bearing clusters of bright blue flowers on large flower stalks. Mrs. Robinson's is now at its best and has four stalks upon which there are 155 lilies.

Heard Former Pastor. The congregation at the Baptist church Sunday morning enjoyed the unexpected pleasure of listening to their former pastor, the Rev. J. W. Payne. His remarks were from the text found in Mat. 12, and were a thoughtfully prepared explanation, with admirably chosen illustrations, of one of the parables which to many are a groven enigma. Mr. Payne has no established pastorate at present, but is called nearly every Sunday to preach in the eastern Connecticut and Rhode Island.

"RATS" AND "PUFFS" MAY COME HIGHER. Treasury Department is Puzzled Over Duty on Articles of Coiffure.

Washington, July 16.—The higher cost of puffs, "rats," curls, switches and other appendages of the modern feminine coiffure depends upon a decision now pending in the treasury department. One section of the treasury officials looks like an Indian camp after the visit of a scalping party. Assistant Secretary Curtis, who has charge of customs affairs, is wrestling with the problem of duty on hair.

The law provides that "raw" hair shall come in free, and puts a duty of 20 per cent. upon "drawn hair." Several of the best known hairdressers have raised a technical debate over whether it is hair raw and when it is drawn.

Scalplocks from China, Germany, France and even Russia are in the exhibits sent to the government.

How Anty Drudge Keeps Cool. Mrs. Heatup—"Gracious, Anty, you look cool as a cucumber, and here am I dripping with perspiration. And I know you started your wash the same time I did."

Anty Drudge—"Quite true, but I wash my clothes with Fels-Naptha soap. If you used Fels-Naptha, your clothes would be washed in half the time. Besides, I didn't have to do any back-breaking rubbing over a steaming wash. I used Fels-Naptha soap the Fels-Naptha way. Why don't you?"

More white things are worn in the summer—lawns, flannels, muslins and so forth. That means more washing. Likewise more hard work—unless Fels-Naptha soap is used.

Fels-Naptha simplifies summer washing and does it more satisfactorily. No hot fire is needed. That means a good deal when the thermometer is 90 in the shade.

Fels-Naptha does the washing thoroughly in cold or lukewarm water. Cold or lukewarm water saves the clothes. Boiling and hot water weaken clothes so they tear easily.

Fels-Naptha will not harm the most delicate fabric. Neither will it injure light-colored things which could not be washed safely with other soaps or in hot water.

The advantage of using Fels-Naptha soap is the Fels-Naptha way of washing. Don't cook your clothes. Use Fels-Naptha. It does the work better in cold or lukewarm water.

STAFFORD SPRINGS. NEW HUNTING SEASON. Shortening the Old Two Months Does Not Make Much Difference.

Hunters in this vicinity seem not to care very much about the action of the legislature in passing a bill that shortens the open season for partridge, quail, woodcock and pheasants. This new law reduces the season two weeks, leaving it from October 3 until November 23 inclusive, excluding Sundays, when hunting cannot be done; this gives, this year, forty hunting days. The number of licenses which have been taken out during the past year shows that hunting the game birds does not attract much attention any longer. A few men go out now, but more because they need to than because they expect to get any birds. If they kill anything they are happy, and if they do not they are still happy, because they have had the fun of walking through the woods and fields. They can do this hunting as well some time during the forty days as they could if they had three months. It will not make very much difference to them, one way or the other.

The licenses that have been issued are appreciably for rabbit hunters and they will get as many rabbits probably as ever.
