St. Mary's society meets in St. Mary's building.

ANNOUNCEMENTS

Today, Frank A. Bill offers a lot of men's \$3.50 gun metal and Russia calf oxfords at the low price of \$2.75. Popular Excursion to Newport. The large demand for tickets to Newport on the popular excursion next Thursday demonstrates the fact that the public fully appreciate the exceptional opportunity afforded to visit this famous resort. As announced, the sale of tickets will be strictly limited and those wishing to participate in the trip should purchase early to avoid disappointment on day of excursion. See adv. in today's issue.

BREED THEATER

Truly, the Breed is living up to its splendid reputation of presenting the best and most novel high grade motion pictures, and during this heated time is featuring not only the big dramatic numbers, but also the most amusing pictures as well. A picture that is of more than ordinary interest is the one entitled "A Tragedy in a Field," which is a story of two men and a girl. The interest centers in the fact that every character in it is a top, not of the cheap, faded sort, but finely costumed, correct military uniforms, perfectly placed on the camera and nearly three months' time by a photographer, involving himself exclusively to this work. All the jerky manikin action is eliminated and the result is a perfect little drama with plenty of snap and variety, which holds the attention and delights the eye.

Her monster western picture, entitled "Her Spotted Boy," is a thriller, as is the great labor picture entitled "Tim Mahoney," the Scotch, Miss Minnie Stevens, someone is coming, and the new picture, "The haunting Hero song," that everybody is humming and whistling.

Brief State News

Thomaston.—The machinery at the Thomaston knife works is humming again, after several weeks' shut down.

Old Lyme.—Governor Woodrow Wilson's family left Friday for Scarborough, N. J., where they will spend the rest of the summer.

East Hartford.—Judge Henry A. Jessen has decided to appoint Frederick E. Fuller prosecuting attorney of the local town court.

Meriden.—The first day of the fly swarming campaign, under the direction of Captain Price, netted 57,425. William Young had the highest number, 5,71.

New Haven.—Graham K. Mellen, son of President Charles S. Mellen and Mrs. Mellen, of this city, is spending the summer at Eldredge inn, in Greenwich.

Seymour.—Postmaster H. S. Halligan is busy preparing for the opening of the postal savings bank at the local postoffice. The office is to be opened on August 11.

New Britain.—Louis A. Oldershaw has received a letter from the state highway department from Highway Commissioner MacDonald.

Bloomfield.—The Rev. James Balfour Conner, who has been absent for the past two months on a visit to Scotland and England, along with his wife, resumed his duties at the Baptist church Sunday morning.

Middletown.—Purser George H. Jones of the steamer Middletown of the Hartford and New York Transportation company's line has resigned, after having completed a service of 37 years with the company.

Danbury.—For the first time in over 25 years there will be a Danbury fair next October. In place of the dog show, which may never again be held here, a grange, fruit and corn exhibition will be given.

Milford.—Twenty fresh air children from New York are at Pleasant Beach. The girls are located at Pleasant View cottage, while the boys are occupying a tent close by. The party is supervised by Rev. Wm. Tuckey, former residents of town.

Wallingford.—First Assistant Edward Gardner of the fire department has divided the proceeds from the department ball among the three companies. The Wallace Hose company, Tibbits Hose company and Simpson Hook and Ladder company each received \$32.25, the total amount being \$246.75.

Germany does not produce any table grapes, the supply for that purpose coming from the Tyrol, Italy France and Spain.

Escaped With His Life. "Twenty-one years ago I faced an awful death," writes H. R. Martin, Fort Harrison, Wis. "Doctors said I had contracted cancer and that I could live but a few days. I tried everything, I could hear of, for my cough, and I was under the treatment of the best doctor in Georgetown, S. C., for a year, but could get no relief. A friend advised me to try Dr. King's New Discovery, and I was completely cured. I feel that I owe my life to this great throat and lung cure." Its positively guaranteed cures of coughs, colds, and all bronchial affections. 50c & \$1.00. Trial bottle free at Lee & Osmond Co.

Kill More Than Wild Beasts. The number of people killed yearly by wild beasts don't approach the vast number killed by disease germs. No life is safe from their attacks. They're in air, water, dust, even food. But grand protection is afforded by Electric Bitters, which destroy and prevent these deadly disease germs from the system. That's why chills, fever and ague, all malarial and many blood diseases yield promptly to this wonderful blood purifier. Try them, and enjoy the glorious health and new strength they'll give you. Money back if not satisfied. Only 50c at Lee & Osmond Co.

Kidney Diseases Are Curable under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry A. Pittman, Dale, Tex., says: "I was down in bed for four months with kidney and bladder trouble and gall stones. One bottle of Foley's Kidney Remedy cured me. It's a sound." Ask for it. Lee & Osmond Co.

MASTODON TEETH FOUND IN A MINE

Five Molars of Prehistoric Beast Unearthed in California.

San Francisco, Cal., July 17.—Five gigantic teeth, which in some prehistoric period probably grazed the slopes of a mountain, predeceased the mammoth and one of the most colossal creatures that has ever trod the earth, have been unearthed in the old Doggett mine on the banks of the Klamath river, near Walker, Siskiyou county. These stupendous molars contain four cusps each, each tooth measuring seven inches across from the crest to the base, and a little over six inches from the root, or that part of it which remains, to the top of the center cusp.

The teeth measure four and a half inches in width. In a remarkable state of preservation, they were found in a pocket of sand and gravel 18 feet under the surface of the earth. A better idea of the size of the teeth may be gathered from the fact that they are about 15 times the size of the tooth of the modern horse and about eight times the size of the molar of the lion or tiger. The size of the bases of these giant creatures may be imagined, therefore, to have been eight to ten times that of the modern horse, and the teeth about 15 times the size of a horse's molar.

That the teeth were those of an enormous animal seems evident from their evenness. They are too large to have belonged to the mammoth. This would seem to indicate that they belonged to a creature that towered in size over the mammoth as that creature did over the modern elephant.

HIGH PRICE OF ICE DUE TO TRUST'S GREED

Investigation Shows Plenty of Ice on Hand During Hot Spell.

New York, July 17.—From an investigation by Police Commissioner Waldo, it would appear that the present high price of ice is largely due to the greed of the ice companies in refusing to take necessary measures to supply the city's wants. In reporting his findings to the mayor today, the commissioner says that about July 1, when the hot weather set in, the largest of New York ice companies—raised the price from \$2.25 to \$3 and at one East Side dock more than doubled the price, to \$5 a ton.

President Wesley M. Oler of the Knickerbocker company was closeted with District Attorney Charles Whelan nearly an hour today, but neither party would discuss the nature of the conference. Mr. Oler was shown Commissioner Waldo's report and denied the allegations in it.

MUCH TOBACCO IS STUNTED BY DROUGHT

Plants Blossoming Before They Are Full Grown.

Suffield, July 17.—The dry weather is making a decided showing on the tobacco crop in this section of the state. The plants, which are supposed to be stunted, and it has begun to blossom before it has got its growth. This is the cause of the farmers to start to plow right away in order to get the growth in the leaves of the plant, instead of the blossom, or the stalk, which is the part that will bring the highest price in town this year. The shade grown tobacco, that is grown on the Suffield Plains, is also full grown, it being irrigated and under the cloth, where there is a temperature anywhere from 105 to 125 degrees.

WOMAN'S SUICIDE DUE TO HUSBAND'S CONDUCT

Boston Undertaker's Wife Takes Her Own Life at Hartford.

Hartford, July 17.—Mrs. Alice Elizabeth Williams, wife of W. H. Graham, a Boston undertaker, committed suicide at the home of her parents, Mrs. Edwin H. Williams, No. 115 Jefferson street, Sunday night. She was 41 years old. She had not lived with her husband for some time, owing, it is said, to his attentions to other women.

She went to her room about 8 o'clock in a more cheerful state of mind, and she did not come downstairs, and her family went to her room. There was a strong odor of gas and the door was forced open. Mrs. Graham was found dead in bed. Her body was placed in a gas fixture and the other near her mouth. Then she had inhaled the gas.

THIRTY-FIVE GIVE SKIN TO SAVE A MAN'S LIFE

Boston Distillery Employes to Be Played for a Fellow Workman.

Boston, July 17.—Thirty-five fellow employes of Thomas McLoughlin, who was severely burned in an attempt to save a distillery where he was employed, have volunteered to give up parts of their skin to be grafted on McLoughlin's body.

McLoughlin is in the dangerous list at a local hospital and the surgeons announced that his only hope of life lay in giving new skin grafted on to his body.

The other men employed at the establishment, upon hearing of the doctors' ultimatum, all volunteered to give whatever portions of their skin were necessary to save McLoughlin's life.

MUST BE LEGLESS TO SELL PEANUTS

Only One Citizen of Bonham, Texas, Qualified to Get License.

Bonham, Texas, July 17.—The city council has passed an ordinance providing that no one may sell peanuts on the streets of Bonham until he has suffered the amputation of both legs. The purpose of the ordinance is to permit an aged negro who has lost both legs to "trade" with his legless competitors in the peanut selling line.

Mrs. McManigal's Case

Los Angeles, Cal., July 17.—Judge Lordwell today postponed the contempt proceedings against Mrs. Orlie McManigal, who was charged with the woman's attorneys will argue that the state had no right to summon Mrs. McManigal before the grand jury because her husband and the McManigals already had been indicted.

on Diamonds, Watches, Jewelry and Securities of any kind at the lowest rates of interest. An old established firm to deal with. (Established 1872.) THE COLLATERAL LOAN CO., 142 Main Street, Springfield.

WOMEN'S FEET ARE GROWING LARGER

The No. 2 Shoe of 20 Years Ago Now Handled by Very Few Dealers.

Boston, July 17.—Women's feet are growing larger. The once dainty feminine foot that could enter a No. 2 shoe has about vanished. This information about the growing size of women's feet has been disseminated by the shoe manufacturers and dealers who are holding their fifth national fair in Boston.

"There is no other body more qualified to speak of the size of women's feet than the shoe manufacturer," said a dealer. "The women of this generation have larger feet than the women of the last. Yet, in spite of this fact, the woman of today wishes to follow the standard in sizes of the past generation."

"The No. 2 size in women's shoes has practically disappeared," said M. P. Morrill, a Detroit dealer. "I venture to say that not one of twenty real dealers handles this size. There has been a marked decrease in the manufacture and sale of shoes of the smaller sizes."

Women of the leisure classes are the ones who are most apt to have small feet. Women who work are continually on their feet cannot expect to have very small feet.

The only way that can be accounted for the growing size of the feet of women of leisure is their increasing tendency to take up athletics. When they wear comfortable footgear in athletics they find trouble getting back into tight shoes."

A canvass of opinions among shoe makers in a Detroit dealer. "I venture to say that the average size of shoes that women wear today is from 4 to 5, whereas twenty years ago the average size was from 3 to 5."

YEAR OF INVESTIGATIONS

Sixty-Second Congress Breaking All Records in This Respect.

(Special to The Bulletin.) Washington, July 17.—The sixty-second congress is not yet four months old, but it has started more investigations than any congress in history. And there is nothing to indicate that the end is in sight. A member said Saturday that there is the age of Ann and why the hen crosses the road to be investigated.

In the senate there are but two committees at work—the Brandegee third degree committee. It is on the verge of bringing out the capitol building that the investigating committee expended in all its glory. There is the special committee of which Representative Stanley of Kentucky is chairman, investigating the steel trust. Representative Hardwick's special committee investigating the sugar trust; the house committee on expenditures in the interior department are investigating Indian land scandals and the Controller Bay affair in Alaska; trust busting expenditures in the department of justice; the big fee paid to ex-Secretary of State Foster by the committee on expenditures in the department of justice; the committee on expenditures in the department of justice; the committee on expenditures in the department of justice.

20 YEARS' PSORIASIS CURED

"I have been afflicted for twenty years with a disease, called by M. D. psoriasis, and it existed in the form of dry scales. Every morning there would be nearly a dustpanful of scales taken from my body. I had but a short time to live. I earnestly prayed to die. Cracked through the skin all over my body. My arms, hands, limbs; feet badly swollen; toe-nails came off; finger-nails fell out; hair dead; hair dry and lifeless as old straw. O my God! how I did suffer. My sister had a small part of a box of Cuticura in the house. She wouldn't give up; said, 'We will try Cuticura.' A tube was applied on one hand and arm. Eureka! there was relief; stopped the terrible burning sensation from the head on. Immediately got Cuticura Resolvent Ointment and Soap. Result: returned to my home in six weeks and my skin as smooth as a baby's. Hiram C. Carpenter, Henderson, N. Y. 'temperance' boy, who was written January 19, 1880, and is reprinted because of the permanency of the cure. On April 22, 1910, Mr. Carpenter wrote from his present home, 610 Walnut St., St. Louis, Mo.: 'I have never suffered a return of the psoriasis and although many years have passed I have not forgotten the terrible suffering I endured before using the Cuticura Resolvent Ointment and Soap.'"
