AGAIN A BEATING FOR BATTLE
Young Saylor Met the Old Champion at His Own Game—Twelve Rounds of Heavy Infighting.

Boston, Oct. 3.—Young Saylor of Indianapolis gave Battle Nelson, the former lightweight champion of the world, one of the worst defeats of his career in a twelve round boxing match at the Armory Athletic Association tonight. Nelson met a man who was his superior at his own game of infighting.

In the first three rounds the men were in a constant clinch with both working body punches to good effect. After the third round the men were broken apart from the clinches and Saylor met every rush of the Battler with swift left and right swings. Nelson landed few clean punches. Saylor evened round and was given the decision.

ROMANOFF, 320 POUNDER, TO WRESTLE HERE.
TO WRESTLE HERE.
100 for Any Heavyweight Who Stays 30 Minutes With Him.

Norwich gets a chance this week to see one of the big foreign wrestlers who has just come over to this country with the idea of touring the United States in a series of wrestling meets, which shall demonstrate that he is to be considered when he issues a challenge to meet Champion Frank Gotch. The great Romanoff, the biggest and most powerful wrestler in the world, is coming here Saturday night, and will wrestle Harry Polinsky, Zbyzskov's wrestling partner, and Chris Kadeck, the Greek heavyweight.

Romanoff is a monster git of human muscle, standing 5 feet 8 inches and weighing 320 pounds. On his tour he invites all the heavyweights, wherever he is, to take a chance with him, and guarantees \$100 to the man who stays 30 minutes with him without a fall, and \$500 to the man who gets a fall on him. Heres \$100 for any Norwich heavyweight who wants to go up against the human mountain.

ACADEMY SECOND AND CLIPPERS PLAY A TIE
Score 5 to 5—Burke and Cobyln Score the Touchdowns.

The Academy second eleven played the Clippers a game on the Academy field Tuesday afternoon. The Clippers were first to score, Cobyln gaining the ball for them by throwing a pass to Burke, who caught it and held that he dropped it, Cobyln getting the ball. Cobyln then took it over in two short rushes, but the kick for goal went awry. Burke scored the touchdown for the Academy, scooping up the ball after the Academy had punned the ball back to the Clippers. The Academy scored 5 to 5.

IN THE AUTOMOBILE WORLD
Holding the Steering Wheel Right—25,000 Miles of Government Highways Proposed—Speed Limit Abolished in France.

Although wire-spoked wheels are uncommon in this country, the chances are that they will sooner or later come into general use.

If you are a car owner and you drive your car in such a manner as to cause loss of life or property, or endanger or injure others, you are flouting with criminality. Think it over.

French engineers and manufacturers state that the American motor car is too heavy, that the idea of putting racing power in a family touring car is ridiculous, wasteful and in consequence is not good engineering.

A New Jersey man built a garage 10 by 12 feet 8 inches high under ten feet, for \$157. The items were as follows: Carpenter work \$134, concrete floor \$12.80, painting \$3; foundation \$7.

Just how many makes of automobiles there are in the world, only a glance at a trade magazine will show the surprised observer. He will see there the names of cars of which perhaps he never has heard, and if he has heard, never has seen one in his neighborhood.

Due to the construction work in progress on the new Cape Cod canal, all roads with the exception of that between Sagamore and Buzzards Bay, Mass., will be closed to traffic. The new concrete bridge over the Cape will be the new concrete bridge about three miles east of Buzzards Bay station and 4.5 miles west of Sagamore.

It has been suggested that the government buy a car for its own use, at its own expense, the construction and maintenance of some 25,000 miles of public ways, connecting the larger cities, extending from ocean to ocean and from the Great Lakes to the Gulf. This system would comprise four routes east and west, and nine north and south.

FOREST PRINCE LOWERED
SUFFIELD TRACK RECORD
Fast Pacer Clipped the Figure Half a Second.

Some exceptionally good harness racing furnished entertainment for horse lovers at the Suffield fair Tuesday afternoon. In the 2:14 pacers, Forest Prince, owned by Abner Hendee of New Haven, lowered the track record half a second, going the distance in 2:14. The previous record of 2:15 was made last year. In this event also, in the third heat, Forest Prince and Major Strong, owned by D. Greenburg, Hartford, ran a dead heat. Major Strong was the winner of the 2:14 class, while Forest Prince won the 2:14 class. Hyde of Hartford, took the 2:21 class event, and Joe Major, another Hyde entry, won the 2:18 pace.

Red Sox Take Two from Highlanders.
New York, Oct. 3.—The Highlanders dropped a doubleheader to the Red Sox today, losing easily in each game. Hall was effective in the first, and Alexander then settled down and pitched the second. The Sox won 4 to 0 in the first game. In the second game, Alexander pitched well, but the Sox won 2 to 0. The Red Sox are now leading the league with a record of 49 wins and 49 losses.

FUTURITY WENT OVER.
Mainleaf Got Two Heats, Atlantic Express One.

Lexington, Ky., Oct. 3.—Despite a slight lameness, Mainleaf, the game son of Mainstreet, won the first two heats of the Kentucky Futurity, and will perhaps assume another position and hold of the wheel, which will, nevertheless, be equally correct.

In Philadelphia, a man noticed getting looking from the hood of his car to the street. He started to find out the cause and began to work on the carburetor. As usual, a crowd collected to watch proceedings, offer advice and pass appropriate side remarks. Among them was an Italian who naturally, there was an explosion. The ascribed audience managed to escape without getting burned, but the loss on the car was \$1,000.

FINANCIAL AND COMMERCIAL.
DULL AND WAVERING.
Trading on Small Scale and Largely by Professional Element.

New York, Oct. 3.—The limited demand for stocks at present range of prices was shown clearly by the course of the day's trading. The market developed a downward tendency sufficiently definite to indicate that for the present, at least, the recovery of late has been not to be relied upon. Although recovery from the recent low level has reached from five to ten points, prices are still far below the range which prevailed before the market began to give way two months ago. Expectations of a "big" upward movement at this time were based on the theory that, with the market no longer in turmoil, investors would be attracted by the comparatively low prices to buy on a large scale. The demand from this source, however, has been small. The recovery appears to have been due almost entirely to short covering, and with the cessation of this movement the market has become dull and wavering. Brokers said today that investment buying was on a much smaller scale than after the summer break in 1907 or the slump of midsummer of last year. This condition is attributed to the supply of securities, the disturbing questions, chief among which is the intention of the government in regard to reorganization of the anti-trust laws, remain unanswered.

Trading was on the same small scale as yesterday and was largely restricted to the professional element, which renewed operations in a moderate measure on the bear side.

There were some attempts to advance prices at the outset, but the rise encountered free offerings which indicated that the supply was in excess of the demand. The market grew weaker as the day advanced, and although there was a partial recovery late in the day, small losses were general.

Selling of St. Paul in the first hour, when the stock approached its recent low record, was a factor which seemed to determine the market's course during the remainder of the day. Pressure against this issue was steady throughout the session, and seemed to be due in part to small measure to London selling. St. Paul, Amalgamated Copper and United States Steel were the three prominent stocks to end the day with losses of a point or more. The weakness of United States Steel was perhaps due in part to further poor trade reports.

The speculative community was taken back by the opposition to the American Tobacco reorganization plan revealed in a petition submitted to the courts by one of the constituent companies. It was suggested today that opposition from other quarters was not improbable. This development was reflected in the heaviness of securities of the corporation.

The bond market was steady. Total sales, par value, \$2,150,000. United States bonds were unchanged on call.
