BOY OF MISS LINNELL EXHUMED

Uncertainty as to Exact Manner of Her Death Said to be the Reason

FIVE MEDICAL EXPERTS EMPLOYED

Will Assist Prosecution in Preparation of Its Case—District Attorney Certain That Cyanide of Potassium Was Used—Richeson Asks His Congregation to Extend Its Consideration on Until Grand Jury Meets.

Boston, Oct. 24.—Removed from the grave in the cemetery at Hyattsville, the body of Miss Anna Linnell, the 19 year old music student whose death by poisoning Rev. C. V. T. Richeson of Cambridge is under arrest at the Charles street jail, was taken to Boston tonight by order of District Attorney Joseph C. Pelletier. Uncertainty as to the exact manner in which the young girl met her death is reported unofficially to be the reason for the sudden move, and the announcement by the district attorney's office that the government had engaged the services for professional assistance and five medical experts gave some strength to this report.

To Search Girl's Bathrobe. Incidental to the examination of the body the officials of the coroner's office made a careful search of Miss Linnell's bathrobe, which was buried in the casket with the body, for anything which might have been used as a receptacle for the fatal powder. Such a container has not yet been found and the fact has been reported by the coroner as it leaves a noticeable gap in their chain of evidence.

Certain That Cyanide Was Used. No definite statement as to just what is expected to be accomplished by the re-examination of the body came from the district attorney's office, beyond the declaration that the bathrobe must be looked over again on the possibility that it might contain something overlooked in the first examination. The district attorney scouted rumors to the effect that a question exists as to the nature of the poison.

Examination This Morning. Notwithstanding this declaration by the district attorney, the coroner believed that the body will be brought back to the city for some other purpose than the re-examination of the body. It is understood that the examination of the body will be made at six o'clock this morning at the city hospital morgue. It is probable the defense will not be represented by these parties.

Defense Wants to be Represented. Attorney Philip R. Dunbar of court set for Mr. Richeson, petitioned the court this afternoon for permission to employ experts to examine the body at the time. This move was opposed by the government and the court decided to delay a decision on the matter until after the morning. The hearing will open too late to allow any representation by the defense at the examination planned for the early morning.

Medical Experts Engaged. The expert opinion of the government to advise in the preparation of its case, which will be presented at a special session of the Suffolk county grand jury called to meet on Thursday, are: Dr. Timothy Leary, medical examiner for Suffolk county and professor of medicine at Tufts medical school; Dr. William F. Whitney, medico-legal expert.

Richeson's Father Did Not Visit Prison. The expectation that the accused chairman would be visited by his father, Colonel Thomas Varland Richeson, of Amherst, Va., was not realized today. The father of the young man, who is in prison, is reported to be in the hospital, and his father, Colonel Richeson, probably will visit his son tomorrow.

CLARENCE V. RICHESON. "Boston, Oct. 24, 1911." Church Meeting Friday Night.

The next regular meeting of the church will come on Friday night, the day after the grand jury is expected to begin its deliberations. The letter probably will be read at that time, and it is probable that the grand jury may have then reached a finding that the body will be brought back to the city for some other purpose than the re-examination of the body.

Three Straight For Athletics

Mathewson Again Clouted ALL OVER FIELD.

Two Doubles by Murphy

Norwich Player's Hit Started Run Getting for Philadelphia—Snodgrass Greeted With Hisses and Hoops.

Philadelphia, Oct. 24.—Hitting the great Mathewson to all corners of the field, the Philadelphia Athletics defeated the New York Giants at Shibe park this afternoon for the third successive time, by the score of 4 to 2, the American League champions now need but a single game to equal them, the world's baseball honors of the second year in succession. The Athletics, who are the defending champions of the National league, but also outfielded them and showed more alertness in the field.

A Finely Played Game. It was a finely played game, sensational in spots, and gave the home crowd plenty of opportunity to cheer.

Mathewson Forced to Retire. Mathewson, the mainstay of the Giants, was pitched out of the game at the end of the seventh inning he retired in favor of Snodgrass.

First Inning Batters' Only Bad One. "Chief" Bender, the Athletics' sterling pitcher, while he did not equal the wonderful game he tried against New York on the opening day of the series, was never in trouble except in the first inning.

REBELS CAPTURE TWO MORE TOWNS

Sian, a Government Stronghold, Now in Hands of the Revolutionists

SAILORS DESERT TO JOIN THE REBELS

Area of Uprising Materially Extended and Government Disheartened—Residents of Kiu-Kiang Declare in Favor of Rebels—Loyalty of Garrison at Kiang-Yin Doubted—Rebels Make Overtures to Mohammedans.

Peking, Wednesday, Oct. 25.—Two important towns, Kiu-Kiang in the province of Kiang-Si, and Sian, captured by the rebels, October 17, for the revolutionists, very materially extending the area of the uprising. The revolutionists are giving more confidence to the leaders in the movement to establish a republic. Sian was regarded as a government stronghold.

Consular reports from Kiu-Kiang say the people of that town rose the evening of October 24, burned the town's yamen and declared in favor of the rebels. The imperial troops made no serious resistance. General Yin-Chang, who commands the government forces, still remains at Sian-Yangchow. He demands reinforcements before taking the offensive, as he has learned, according to his own report to the administration here, that the rebels are abundantly supplied with artillery and have many adherents.
