BURGARS CAUGHT AT KINGSTON

Refuse to Come Here Without Requisition Papers Which Will be Secured—Were Riding on a Freight When Secured—Clever Piece of Work by Police.

One of the boldest breaks that was ever made occurred here about 2:45 o'clock Thursday morning when a corner of the front show window of the Toyery Shop, conducted by James C. Macpherson in the McGroery building on Main street, was broken in and through the opening was taken an eastern milk can valued at \$215, being the most valuable set in the store, while in the window was an iron display of fur.

The police likewise did some fast work in connection with the break for they were hot on the trail of the burglars and at 3:30 o'clock in the afternoon Chief Murphy learned that the two men concerned here were arrested in Kingston, R. I., and were being held in jail there for the local authorities. This was heard in much praise and Chief Murphy and his men who were on the trail of the thieves.

Sergeant Twomey and Policeman Maloney were sent to Kingston to get the men there and to get them here. They were there at one o'clock, but had some where the police started to search for the men.

Believing that these were the two men the places along the Shore line were searched and the men were found on a freight car in the freight yard during the night, one of them corresponding to the description. They were there at one o'clock, but had some where the police started to search for the men.

Believing that these were the two men the places along the Shore line were searched and the men were found on a freight car in the freight yard during the night, one of them corresponding to the description. They were there at one o'clock, but had some where the police started to search for the men.

They gave their names as Frank Elmore and James Sheehy, and the other 54. Both are strangers in this section.

It has been a number of years since a plate glass window has been smashed in a party of 45 at her home. There were appropriate Hallowe'en decorations, a seven table of whist were played, black cats and pumpkin moonshines being the favors. Jones' orchestra furnished music for dancing after the whist and refreshment services. The first prizes were won by Miss Nellie Haller, a rose jar, and Judson Conning, a Japanese vase, and Miss Helen, a Japanese vase, and Miss Thomas, a nut set, while the first prize for whist was won by Miss Helen, a Japanese vase, and Miss Thomas, a nut set.

It was one of the cleverest cleanups of a bold break that has taken place here since the McGroery building was destroyed. The burglars operated almost under an electric light and had evidently picked out their place in the daytime. Chief Murphy being informed it is believed that they jumped a freight car from here and went to Midway during the night. Some one in the neighborhood reported to have heard a launch in the river soon after the time of the break.

When the men were arrested the stolen property was found upon them. The men were wearing a pair of skis in the back, quilted brown silk lining and was open half way up here and there. The burglars were wearing six paws and three tails. In front it was graduated to a point, there being a principal address with initials on each side. The value of the muffs was \$115, and of the stole \$100.
