NORWICH SPECTATORS' HANDS 33,000 People to See Yale vs. Princeton—Blue Confident of Beating the Tigers—Not so Sure About Winning From Harvard.

New Haven, Nov. 16.—With the wind howling through the stands and the frosty air nipping the noses and ears of hundreds of students, the Yale football men had their last stiff practice before the Princeton game this afternoon. The most of the first eleven and substitutes will run through the signals and then they will be taken outside the city to spend the night, coming into town Saturday morning.

Everybody Saw the Practice. The practice this afternoon was a free for all exhibition and many scores of townspeople were at the field. The most of the spectators behind a hand marched from the college, and upon arriving cheered the players individually and the coaches and players some of the best Yale songs. The players had had practice on the freshman field and a hall's signal practice for the first eleven.

What the Line-up Will Be. As soon as the students arrived the eleven went to the gridiron and the iron and two eleven had formations for kick-off. Paul was back at left tackle in the first eleven. Behind the backfield was made up of Camp, Dunn and Spalding. This will be the lineup for Princeton going but Spalding will later give way to Freeman, Captain Howe and Camp with Coach Ted Coy pointed to the backs and the latter kicked frequently made 70 yards with the wind. Camp covered sixty and sixty-five yards repeatedly. After the practice, Captain Howe expressed his satisfaction with the men and with their knowledge of the game. The Yale strength will be conserved just as far as possible, Yale having in view the Harvard game next week.

The ticket demand is greater than ever before. With an issue of about 25,000, only twenty have been turned in by the holders. In order to get some extra seats in order to let some one else go. For the first time in years there is no evidence of speculators buying tickets. None is offered for sale on the street.

SIGNAL DRILL TODAY Will Be Academy's Final Practice Before the Bulkeley Game. Another stiff acrobatic practice and signal drill was the order of the day for the Academy squad on Thursday afternoon, but for today there will be only light signal practice, as no risk will be taken of injuring any one before the Bulkeley game.

The practice on Thursday was held on the field, the first time that it has been used this season, and it was found to be in very fair condition for use. The Academy squad, Haviland and Assistant Manager Burke had had it marked off for gridiron use with Harvard and Princeton. Its entire length, and it presents a fine

MARKET REVIVES. Renewed Strength Shown, But Trading Was Not Heavy. New York, Nov. 16.—Renewed strength was exhibited by the stock market today, after several days of declining prices. Trading was not heavy, but changes were made in the weakness of the last disappeared. Operations centered largely about Union Pacific, which was brought to prominence by the issuance of its annual report, which was regarded in the street as distinctly favorable. Union Pacific was bought heavily and during part of the day showed a gain of more than 10 points. Its strength was tonic for the market, and after a very quiet period of weakness, the whole list rose in response to more active buying. Trading was still largely professional, however, and the demand was not well sustained. During the afternoon prices slackened.

Lehigh Valley, which received a check in its advance yesterday, was weak at the opening, but rose in response to a renewal of speculative operations. It was reported, however, that at the close that stock and Union Pacific were the strongest of the active speculative list, and among the leading five stocks the strength of the southern group was most pronounced. Louisville and Nashville rose 10 points and Atlantic Coast Line three.

The largest amount of gold reserved for export in the United States for many months was the total of \$2,550,000 engaged for shipment to Canada, in payment for the purchase of the general tonnage with financing undertaken by American interests. It was reported that a shipment of gold was made to Argentina next week for a Paris institution. Bankers were not surprised at indications of a general movement to South America for the account of Europe at this time, on account of the present ease of money and the relatively high rates of exchange.

Another decrease in the European supply of copper was shown in the fortnightly statement, a showing which was regarded as commendatory of reports of the enlarged foreign demand. Recent shipments from this side, moreover, have been on a fairly large basis. The shrinkage within the last two weeks brings down the total to the lowest point recorded since June of 1909.

Refusal of the United States circuit court to permit independent tobacco interests to intervene in the American tobacco reorganization proceedings, and the threat of the tobacco general toward the plan as approved by that court were referred to as influences which sustained the strength of the stock market. The expressed determination of the opponents of the plan to take the matter before the highest tribunal, however, delayed the final approval which Wall Street hopes will point out the method of disintegrating combinations which are offensive to the law.

Bonds were steady, with Seaboard Air Line issues strong and active. Total sales, par value, \$2,161,000. United States registered bonds declined 1-8 on call.
