McNAMARAS REMOVED TO PRISON

Incarcerated in Cell No. 18 at San Quentin, Adjoining Tier of Condemned Murderers' Cells

ARE CLOSE NEIGHBORS OF EX-MAYOR ABE RUEF

Both Will Start Work in Jute Mills Today, But James B. Will be Transferred if He Shows Symptoms of Tuberculosis—Prisoners Enjoy a Bountiful Sunday Dinner—Trip From Los Angeles to San Quentin Made in Night

San Quentin, Cal., Dec. 10.—The McNamara brothers, who were removed to San Quentin penitentiary, where James B. is confined to spend the remainder of his life for his confessed crime of murder, and John J. McNamara, secretary of the International Association of Bridge and Structural Iron Workers, is sentenced to fifteen years' imprisonment for dynamiting.

Believe Themselves Martyrs to Labor Cause. It was James B. who blew up the Los Angeles finance building, October 1, 1911, with the loss of 21 lives, and John J., who abetted in wrecking part of the Los Angeles city hall, which was blown up the following Christmas day.

Travelled on Night Train. Whittier from Los Angeles on a fast night train, the men were removed from it at sunrise today, put on a little river steamer and landed two hours and a half later at San Quentin prison wharf on the shores of San Pablo bay.

Shaved, Groomed and Photographed. As the prison clock struck ten, John J. McNamara, preceded by Warden John Hoyt, stepped over the threshold of the jail door with his brother directly behind him. In five minutes James B. McNamara had become convict 25,311 and John J. McNamara, convict No. 25,312. They were measured for jail clothing, photographed in two positions, given a carbolic bath, their hair put into strips, shaved and cropped and re-photographed within an hour.

Adjoints Cells of Murderers. Cell 18 adjoins the tier of cells in which condemned murderers are kept and the balcony outside is cut off by a little grate. Further down the row toward the other end is the cell of Abraham Ruef, who is serving a fourteen years' sentence for bribery in connection with the San Francisco graft scandal. Ruef is the only inmate in the tier to be Henry Dalton, for 17 years' sentence for the Alameda county robbery.

Band Played After Their Arrival. Soon after the men entered the jail the prison band began to play and continued until five o'clock. A Sunday dinner was served. The McNamaras were furnished with a prison-made dinner, served in their cell, and marked "San Quentin Grill." The prisoners who desired it had taken occasion to point out the attractions of the place.

Prison Has 1,940 Inmates. "Never since the opening in 1852 has the San Quentin prison had a better reputation or greater patronage than under the present management," says the warden. At present more than 1,940 regular boarders taking their meals at the grill. The cost of the board is \$1.00 per week. Some of the boarders return six, eight and even ten times after trying other establishments. The warden said, but James B. McNamara, on the advice of Sheriff Hamel, will be examined for tuberculosis and if he shows symptoms of it he will be given extra work.

Not Moved by Sight of Prisonery. The sight of the penitentiary failed to move the McNamara men, who were talked over by the federal grand jury there what he knows of the alleged dynamiting conspiracy. The warden said that the men were examined by the doctor of James B. and John J. McNamara in the San Quentin prison.

Believed in Dynamiting. From his youth a reader of sociological works, admitted to the bar as an attorney, the dynamiting theory as a psychological agent for the effect it might finally have been adopted by the aged brother, it is said. "Not until the latest explosion, with its loss of 21 lives, all wage earners, did he realize the frightful possibilities of his academic position."

MMANIGAL READY TO TALK. Says He Will Tell Grand Jury Anything They Want to Know. Los Angeles, Dec. 10.—Orrin E. McManigal will be taken to Indianapolis today by the federal grand jury there what he knows of the alleged dynamiting conspiracy. The warden said that the men were examined by the doctor of James B. and John J. McNamara in the San Quentin prison.

Just when McManigal will leave here has not been determined, but he is to be taken to Indianapolis by the federal grand jury there what he knows of the alleged dynamiting conspiracy. The warden said that the men were examined by the doctor of James B. and John J. McNamara in the San Quentin prison.

Delhi, Dec. 10.—King George and Queen Mary today reviewed a magnificent open air church parade, which was an impressive spectacle. Few American troops were present. The parade apparently being deterred by fears of extortionate rates for accommodations. A one week leading hotel the minimum rate for each person is \$30 daily for a minimum of 30 days.

Washington, Dec. 10.—With the arrival in Washington today of practically all the members of the republican national committee, reinforced by parliamentarians from nearly every state, it became possible to forecast just what the program of the committee at its meeting Tuesday. As a result of many conferences held today, the following programme seems to have been agreed upon.

Chicago to Get Convention. Chicago will get the national convention apparently beyond all question of doubt and it probably will hold the last week in June. There will be no fight for the chairmanship of the committee at this time. Former Gov. John C. Hill of Maine, the vice chairman, will be elected to serve until the presidential nomination is made. William Hayden of Nebraska, the secretary, will not act on the resolution for a reduction of southern representation. After the convention a chairman and secretary will be elected by the national committee.

States to Settle Delegate Question. The question of selecting delegates at presidential primaries or by customary delegate conventions will be left entirely to the various states. A one week leading hotel the minimum rate for each person is \$30 daily for a minimum of 30 days.

Hitchcock's Resignation. Col. Harry S. New of Indiana will be the only delegate to receive a letter of five to make arrangements for the convention. Postmaster General Hitchcock's resignation will be accepted formally. It was tendered immediately after he entered the cabinet and was accompanied by the "no strings attached" clause.

Office Holders May Be Delegates. President Taft will entertain the committeemen at dinner tomorrow night. The president will be the most important politically of any given at the White House during the present administration. The committee will not bar federal office holders as delegates to the national convention.

Presidential Primaries Would Bar Teddy. The question of presidential primaries had promised to be the most interesting and far-reaching in its political history. It is apparent amicable adjustment "out of court" was attempted by the republican party. The significance of which was the fear of friends of Col. Theodore Roosevelt that the party might be split by the nomination of the former president for a second term.

Well Defined Movement for Roosevelt. No attempt is being made here to disguise the fact that there is a well defined movement for the nomination of Colonel Roosevelt. His nomination has supporters, and it is a matter of time before the committee at the convention itself.

Each State Left Free. Behind the Roosevelt phase of the situation, however, there is a very general sentiment among the members of the national committee that they have no right or should not be a central body, to dictate to the states what they should do or should not do. Each state, it was argued, should be free to determine the manner of choosing delegates.

Last Week in June Favored. While the last week in June seems to be favored as the best time for holding the republican convention, the question of the date is still unsettled. It is believed in some quarters that the convention should be held in June or July.

Fine Showing By Hitchcock

THE POSTOFFICE DEPARTMENT SHOWS A SURPLUS. FIRST ONE SINCE 1883

Deficit at Beginning of Present Administration Was Largest on Record—One-Cent Postage is Coming.

Washington, Dec. 10.—"For the first time since 1883, the annual financial statement of the postoffice department shows a surplus instead of a deficit."

This is the burden of the annual report of Postmaster General Hitchcock, made public today. He indicated that the placing of the postal service upon a self-sustaining basis meant an improvement and extension of facilities, and no distant day, one cent letter postage.

Big Deficit Two Years Ago. At the beginning of the present administration in 1909, Mr. Hitchcock pointed out, the department showed a deficit of \$1,478,716, the largest on record. In two years this deficit has been changed into a surplus of \$219,118, despite important extensions throughout the service. These extensions include 3,744 new postoffices, delivery of mail by carriers in 186 additional cities, 60,979 miles of new routes, aggregating 60,979 miles, and 6,000 additional postal employees, with the salary roll greater by \$34,900,000 than it was two years ago.

7,500 Postal Savings Banks. The postal savings bank system, less than a year old, is operating in practically all of the 7,500 presidential postoffices. Preparations are being made to establish in about 40,000 fourth-class offices that do a money order business.

Deposits Aggregate \$11,000,000. In eleven months' operation postal banks have received \$11,000,000, and they are expected to reach \$40,000,000 or more by July 1. In view of the fact that the average deposit is \$10, Mr. Hitchcock strongly recommended the establishment by congress of a postal savings bank, which he said could be put into operation in a few months.

Will Be Put into Operation. Mr. Hitchcock said: "The progress in aviation encourages the hope that ultimately the regular conveyance of mail by this means will be possible in many districts where the natural conditions preclude other means of rapid transportation."
