Adopt a Plan

A definite plan is the foundation of success in saving. It doesn't make much difference what the plan of saving is, so long as it's systematic. Some people never spend the dimes they get—they put them in a convenient home savings bank.

Some men shave themselves and drop into the bank the money they would have to pay the barber. Others walk to the office and save the carfare.

You can select any plan which suits you. Regularity in your saving is the essential thing. One dollar opens an account and starts your savings earning interest. BEGIN NOW.

PERSONAL TAX ENUMERATION. Total 3,047—Exemptions Number 451—Total Number Liable, 2,597.

Personal Tax Enumerator Michael F. Sullivan, through his able assistant, Arthur T. Kelley, has filed with the board of selection and the town clerk the complete result of the work of the personal tax enrollment, together with the military enrollment. The enrollment for 1912 is somewhat larger than that for 1910 because of the fact that more are liable for an assessment of the personal tax under the amended law and also due in part to the natural growth in population. On the list for 1911 firemen and militiamen must either be active members or have served five years, while on the list for 1912 there are three years' service in the militia, national guard was ground for exemption. Under the amended law, a post surgeon's certificate is no ground for an exemption. Postal employees were considered exempt on the 1910 list, but according to an opinion of the United States attorney general at Washington, D. C., they are not exempt and are therefore listed as liable on the list for 1912. Students in college or incorporated academies are exempt under the amended law also, and there is but one so listed in Windham for 1912.

The figures for the year 1911 appearing on the abstract or recapitulation of the complete enrollment just filed are as follows: Exemptions—Students in college: 1; active firemen 124; ex-firemen (5 years service) 128; active militiamen 35; U. S. soldiers 24; ex-U. S. soldiers 1. Total exemptions 451. Total number liable 2,597. Total enumeration 3,047. On the list for 1910 there were 536 exemptions, 2,417 liable for the personal tax, with a total enumeration of 3,012. Therefore there are approximately 50 more liable on the list for 1911 than for 1910, an upward of 140 on the list for 1912. It does not appear on the 1911 list by reason of death, but never having resided here, or in some other manner were wrongly enrolled.

Military Enrollment. The military enrollment as filed, shows that there are 118 males between the ages of 18 and 21 residing in the town liable to military duty in case of an invasion, and that there are 1,114 males between the ages of 21 and 45 who are subject to military duty in case of war. The enrollment, as submitted, is a credit to the men who have so painstakingly done their work under difficult conditions in an ever increasing cosmopolitan town.

Foxy Student. Robert Underwood Johnson, the poet and editor, declared at the University of New York's commencement that New York as a literary center was ridiculous—that nowhere in this country was poetry more appreciated than in Boston, and nowhere less than in New York. "In fact," said Mr. Johnson afterward, "New York's love of poetry is about equal to the Earlham college boy's love of language. In my sophomore year at Earlham this lad was visited by his mother. 'Well, my dear,' she said to him, 'what languages have you decided to take up here?' 'I have decided to take up Pictish,' he replied. 'Pictish?' said his puzzled mother. 'Why Pictish?' 'Only five words of it remain,' he said.

Anty Drudge, Mrs. Easymark and the Empty Clothes Line. Mrs. Easymark—"I read in the paper if salt were rubbed on stains on linen, and the things left out on the line all night, the stains would be gone in the morning. I tried it." Anty Drudge—"Did the stains disappear?" Mrs. Easymark—"They did—and so did the table cloth and napkins!" Anty Drudge—"Well, you are a greeny. Why didn't you use Fels-Naptha soap? The stains would have been dissolved before you hung the things on the line. And no thief would have gotten away with your wash."

Fels-Naptha has many other uses besides making wash-day easy. Here are a few: It takes out coffee stains, blood stains, fruit stains and grease-spots,—almost like magic. And in cool or lukewarm water, too. Never use hot water with Fels-Naptha. Fels-Naptha whitens floors, make the painted wood-work bright, and makes the oil cloths and linoleums look like new. For glass-ware and cut-glass, there is nothing better than Fels-Naptha. Puts the sparkle on them that you like. Fels-Naptha and soft cloth will keep that porcelain bath tub always clean and shining. All done without boiling water, and scrubbing brush. Don't stick to old fashioned methods just because your mother or her mother did. Be modern, and save time and strength. Try it when you clean. Try the Fels-Naptha way of washing and divide the work and time in two. Full instructions on the back of the red and green wrapper.
