STOLE WATCHMEN'S CLOCK FROM GLEN WOOLLEN MILLS. Policeman John Irish Arrests John With the Goods on Him.

Chief Murphy did a quick piece of work in rounding up a thief with the goods on him Wednesday, when Policeman Irish arrested John Rudick on Franklin square about 4 o'clock in the afternoon. Rudick was wanted for stealing a watchman's clock from the Glen Woolven Mills, at Norwich town.

When searched at police headquarters by Chief Murphy, Rudick was found to have the clock with him. He explained this by saying that he carried it around to keep his time when he was working.

Rudick was seen at police headquarters by Night Watchman Donahue of the mill and identified as the man he pulled out from under some folds of cloth at the mill about 2 o'clock Wednesday morning.

While on his way to his room in the mill the watchman heard someone walking on the floor above him. After a search he found a pair of feet sticking out from some rolls of cloth, and grabbing one, hauled Rudick into view. Rudick claimed to the watchman that he worked at the mill and the watchman found two windows had been tampered with and his watchman's clock was also missing.

Report was made to police headquarters of the arrest of Rudick followed. The watchman did not know him, but was able to give enough of a description to guide the police.

Rudick, who is a transient mill hand, had been sentenced from the Norwich city court twice before. He had been out of jail about 14 days, after serving a sentence for drunkenness, for which he was arrested on Jan. 14th.
