IF TORTURED AND CRIPPLED WITH RHEUMATISM NO MATTER WHAT FORM USE URIC-O

LARGE SAMPLE FREE

Why suffer another day with that torturous disease Rheumatism, why not go to your druggist and get a 15-cent bottle of URIC-O and see if it does not cure you. This medicine is recommended to cure this one disease only, Rheumatism, Sciatic, Arterial and Muscular Rheumatism quickly give way to this mighty cure.

URIC-O is a harmless liquid and its action is on the blood, bladder and kidneys. Here is a man in Vermont that praises URIC-O and says: "Over a year ago I was so crippled with Rheumatism that I could not even feed my self. Hearing of URIC-O I purchased and used two bottles, it conquered and I have not as yet felt the return of the disease. I thought I would wait to see if the cure was one of permanence, I find the cure has come to stay for which I am very thankful. This letter came from H. A. Clark, Road Commissioner, West Topham, Vt. We do not believe that there is a case of Rheumatism in the world that URIC-O will not cure. While other remedies apparently ease the pain for a time it is owing to the fact that they contain opiates or pain-killers, and as soon as this effect wears off you are more miserable than before."

URIC-O is sold and recommended by all the leading druggists at \$1.00 per bottle. If you prefer \$5.00 per cent direct shipment paid if dealer can't supply. If you desire we will send you a large trial bottle of URIC-O free, a regular 5-day treatment proving you are cured. 10 cents to cover cost of mailing same. When writing address The URIC-O Company, 166 State St., Binghamton, N. Y.

NORWICH'S NEW AUTO CHEMICAL.

AUTO CHEMICAL PUT IN SERVICE

Arrived Before Midnight After Slight Accident on Road—One of the Best Cars to be Had, Developing 72 h. p. and Testing out to 55 Miles an Hour—Placed in Central Station.

The new Pope-Hartford auto chemical for the local fire department arrived here shortly after eleven o'clock Monday night, having been driven from Hartford by way of Saybrook, New London, and delayed at the Golden Spur for several hours because of the breaking of two bolts. The car could have been brought along without them but it was deemed best to replace the broken ones and new ones from the factory were sent on.

Welcomed by Many. There was a number at the central station, including members of the court of common council, to welcome the machine which came in with the siren blowing and Norwich pennants flying. The car under the guidance of Driver Lindberg left Hartford at 12:30 Monday afternoon and the party had dinner at Middletown. There were Alderman T. H. Beckley, M. B. Ring, through whose agency the car was purchased, George H. Loring, J. C. Stone, David Fitzgerald, Henry Taft and Paul Martin in the party, while C. S. Eaton rode from Middletown with them. It was while on the worst piece of road on the trip that the break occurred, delaying the arrival here four hours.

The car was backed into central station and equipped with hose and other articles so that it is ready for use at the present time. The company's driver will remain here for two weeks to run the car which will be thoroughly tested on the hills. On his test the car developed 55 miles an hour and it develops 72 horse power.

Finest in Country. It is declared to be the finest auto chemical car in the country, it being the only one just like it, and as far as equipment is concerned it cannot be beat. There were many suggestions

offered the company by the chief and the fire commissioners, and all were adopted, some of which the company is now adding to all their cars. The chemical tank holds 40 gallons, but two extra charges are carried so that by refilling 120 gallons can be used. There is a bypass in the tank so that all the fluid need not go through the pipe if it is not needed. There are two underwriters hand extinguishers besides the big tank.

The car is painted vermilion, having the name Norwich fire department on the side of the seat, and on the left side a plate bearing the name of the mayor and the fire commissioners. The car will carry 1000 feet of hose. The price of the car was \$5,100, but since the city made its purchase the price has been advanced \$500.

Full Equipment. The car carries a full equipment of tools that may be needed and has much locker room for the articles to be carried. A 17 and 12 foot extension ladder and a baby extension ladder are included in the equipment. There is a search light in addition to the two gas and two oil head lights, while there is a hand siren and a large engine bell on the front. There is the usual complete set of tools, with axes, pole hocks and ropes carried.

A full description of the car was given at the time the contract was made. It is an attractive looking car and rides as easy as a touring car, so those stated who had that knowledge. It received many compliments as it came through New London, where there was a fire in progress. Alderman Beckley, chairman of the board of fire commissioners, stated that while the car can make 55 miles an hour it is not intended to run at any such speed. It will be run moderately, with a view to safety for the car and the people.

Excellent Results Expected. Excellent results are expected from the use of the machine, not only in reaching the fire quickly, but in cutting down the maintenance expense of the department, as it will replace a pair of horses, the keeping of which costs much during a year.

THE CLIMAX OF YOUTH.

In the teacher training course of lessons at the Y. M. C. A. Rev. A. Craig Bowditch of Hartford spoke on Monday evening upon the topic, The Climax of Youth. This brought in the senior department of the Sunday school, the time when conversion is to be expected. He treated the subject under three main heads—God's part, human conditions, and process. One thing he emphasized, and that was, that no rule could be laid down to apply in all cases, but that a prime essential was to know the individual, his surroundings and conditions of every scholar. A definition of conversion which he gave was that it was putting the whole life into harmony with God and his laws. This was reached on three levels, physical, intellectual, social and spiritual.

WHEN PRIDE IS JUSTIFIED

Far too many mortals are vain and self-satisfied because of some temporary necessary advantage, and in their eagerness to display that advantage at every opportunity often destroy their greatest blessing, the physical counter-part of sunshine, which is their own health. Neglected solids, irregular meals, overworked stomachs and hot revelry result in shattered nerves, depressed vigor and fatigue all of which invite decline and disease.

Each person stands sentinel at the portals of his own health and he who guards, protects, strengthens and builds up a rugged constitution is justified in pride and finds therein his own recompense—the capacity to enjoy the fullness of life.

The strain of modern commercial and social living taxes strength and energy and a good deal of the best and most efficient we should not only cultivate deep breathing, out of door exercise, regularity and temperance in all things, but also the greatest of all physical power-creators which is body enrichment. In this alcoholic preparation should be carefully consumed and which pro-digested nutriment as Scott's Emulsion which enriches the blood and creates strength by building, healing and strengthening, should be selected.

Scott's Emulsion is scientifically prepared and good for feeding babies, nursing mothers, growing children, the aged and infirm. It contains no wine or stimulant, but is wholesome and pure and has helped millions to regain health and sustain it. Worthless substitutes are sometimes offered, but Scott's Emulsion is the genuine pure food-medicine.
