FAVORS MUNICIPAL ART SOCIETY

Idea Presented to Business Men's Association For Their Consideration—Norwich Should do as Much as Other Cities.

The Norwich Business Men's association held a meeting in Buckingham Memorial on Thursday evening with a good attendance. There were several matters of interest presented and reports of progress heard on matters which the association has been considering.

A new matter which aroused much interest concerned the organizing of a municipal art society in Norwich. This was proposed by H. R. Branche and will come up for discussion at a later meeting. In presenting the matter to the members Mr. Branche spoke as follows:

Mr. Chairman and Brother Members: Right here I want to start something, and that something I wish to call a municipal art society. In smaller towns than Norwich the movement is known as the Village Improvement society. There is scarcely a town or city today that has not formed and is working upon one or the other of these societies, carrying out the work of beautifying the town or city in which they live. My sense of the duty of such a society is not only to have plans drawn for beautifying and improving Norwich along landscape lines but to have a voice in the future in regard to the selection and location of sites for public buildings with respect to the encouragement and growth of our fair city along lines worked out far in advance of the day that such buildings may become a necessity and a fact. Our neighboring city of New London has, having secured the services of John Nolan, a landscape artist, of prominence from Boston, to draw plans at a contract price that will aggregate \$2,000. One of our former public spir-

ited citizens now living in New London was made president of the society and has most generously taken it upon himself to pay the expenses incurred by this movement. Norwich by nature has much of the artist's work already performed, and it does seem to me that we ought not to delay longer so important a matter.

In a small way we have societies that are moving along similar lines and perhaps by starting a Municipal Art society they would not only become members but would advise with and be of much assistance to an artist selected to do this work.

I do not know of any body of citizens better fitted to start this movement or better qualified to carry it to a successful finish than those whose names appear upon the membership list of the Norwich Business Men's association.

There was a report concerning the hearing given by the executive committee concerning the street lighting, in which progress was claimed, the executive committee of the common council having a plan under consideration. There was also a report from the committee which contained with it a section concerning weights and measures. Both were approved. E. C. Jewett was elected to membership in the association.

It was voted to take up the matter of cleaning Main street of the snow and ice with the chairman of the street committee. There was a report to the effect that several subscriptions to the stock of the Lester & Wascie, Co. had been received, but there was nothing new to report in regard to the Deep River concern which was given an opportunity to locate here.

DEBATE HELD AT MT. CALVARY CHURCH.

Negative Side Declared the Winners on Interesting Subject.

There was a large audience on Thursday evening in the Sunday school room at Mt. Calvary Baptist church for an entertainment given by the Union Noble and Literary societies. The programme consisted of a selection in which the features were the selections by a double quartette of young men and the debate upon the question Resolved, That the sons of darkness have more influence than the sons of light.

The president, Mrs. Esther Bartlett, was in the chair, and the minutes were read by the secretary, Mrs. F. Evans. The programme consisted of a selection by the quartette, whose members were C. Coblyn, A. Greenleaf, Frat tenors; R. Randall, B. Dale, F. De Barros, second tenors; D. Hall, B. Raley, baritone; A. Hill, J. Wilson, second basses. They were enthusiastically applauded. After prayer by the pastor of the church, Rev. J. H. Dennis, there was a reading by Mrs. Ida Thomas.

This was followed by the debate, in which the affirmative was supported by H. D. McKnight and Mrs. W. Compton and the negative by A. Jackson and Mrs. Lydia King. The vigorous arguments of the two men, delivered with oratorical fervor, won their hearers' attention. The affirmative side had the advantage of a unanimous applause that gave the presiding officer some difficulty to control. The judges, who were R. H. Johnson, Mrs. Lucy Brown and Robert Severy, declared their decision in favor of the negative. The debate was followed by other selections by the quartette, which were favorite numbers.

The programme committee was Mrs. R. M. Wilson and George Johnson. The chairman of the committee was the direction of Mrs. Frances Evans.

The second game in the triple tie of the handily pool tournament at the Arcanum club was played Thursday evening before a good sized crowd. He would win, but a hard shot on the last ball by Pierson missed and Robinson, who was within striking distance of the finish, ran the game out and won 1-0. This makes Pierson finish the tournament in third place, first and second to be determined between Foss and Robinson Saturday night. Each will receive cues as prizes.
