

IN AND ABOUT WESTERLY

Silas Randall Sent to Jail—Wool Thief Penalized—Lussia Trial Near a Close—D. A. R. Essay Prize Won by Leo Seeley—New Industry in Segar Mill Assured.

Silas Randall, arrested recently in New London by Police James C. Sullivan, by a clever ruse, for the Rhode Island authorities, and who was indicted last week by the grand jury for Washington county for breaking and entering and larceny, was brought before Judge Brown in the superior court in session at Kingston and pleaded not guilty. Randall was accused of breaking and entering in the daytime the cottage of Sibley Smith of Providence, located in South Kingston, and with carrying away wearing apparel, bed clothing and liquors to the value of \$70. Sheriff Wilcox was asked as to the record of Randall and stated that Randall had served a sentence for stealing guns and also for drunkenness. Counsel for accused stated that Randall denied taking all the articles as claimed, but had agreed to plead not guilty and thus save the expense of trial. Randall was sentenced to serve six months in the Providence county jail. Thomas G. Frye and John Franklin were tried jointly, charged with stealing eight bags of wool, the property of Daniel Spink, from an unoccupied building in North Kingston. Frye was found guilty by the jury and Judge Brown sentenced him to 18 months at the state farm. There was no evidence to connect Franklin with the crime and he was discharged.

The case of Bernardo Lussia, charged with assault with intent to kill Antonio Bertelli, was being tried before a jury in the superior court Tuesday afternoon and it is expected will be concluded by Wednesday evening, as a session of the court is to be held in Westerly Thursday.

Leo Seeley has been awarded the Daughters of the American Revolution prize offered by Pleasant Greene Ward chapter for the best essay written by pupils of the Seventh and Eighth grades of Elm street school. The prize winning subject was "Career of Oliver Hazard Perry. There were 24 contestants and all were of exceptional merit. The judges were Mrs. Samuel H. Davis, Mrs. Arthur M. Cottrell and Rev. J. W. Ford, D. D.

The revenue cutter Itasca, well known along this coast in connection with the revenue cutter service school at Fort Trumbull, which has been assigned to patrol duty during the winter, is being fitted for summer service at Arundel cove. When the work is completed, the vessel will return to New London. The schedule of the Itasca for the practice cruises of the cadets of the service is as follows:

Leave New London June 4, arrive at Bermuda June 7; leave June 10, arrive at San Juan June 14; leave June 18, arrive at St. Thomas June 19; leave June 22, arrive at New York June 25; leave July 1, arrive New London July 4; leave July 10, arrive Vineyard Haven July 11; leave July 12, arrive Boston July 15; leave July 20, arrive Halifax July 22; leave July 25, arrive Portland July 27; leave July 31, arrive Salem July 31; leave Aug. 5, arrive Nantucket Aug. 5; leave Aug. 7, arrive Newport Aug. 7; leave Aug. 12, arrive New London Aug. 12; leave Aug. 15, arrive Gardiners Bay Aug. 15. It is the intention after the Itasca arrives at Gardiners Bay to give the cadets all possible practical work in manoeuvring ship, in drills ashore and at fortilla drills, which will be possible both in Gardiners Bay and in Long Island sound as far west as New Haven.

The senior class of the Westerly High school has selected the following juniors to take charge of the junior issue of the Senior, the class paper issued monthly: Carl V. Brucker, editor in chief; Arnold Ames, business manager; John Wessler, assistant business manager; Vivian Arnold on Tablets; Dorothy Barber on Alumni and Lois Wells on exchanges, associate editors.

Local Laconics. Now the dog poisoner is at work in the Dixon street section, three dogs being fatally poisoned.

Dr. Albert H. Spicer returned to Westerly Tuesday afternoon from a trip to Panama, with stops at Jamaica and Havana.

William H. Doane of Cincinnati and Watch Hill, the noted writer of hymns, is among the earliest arrivals of summer residents.

Owing to lack of appropriation, all

printing and advertising bills against the town are held up until after the financial town meeting.

Congressman George H. Utter of Westerly will be permanent chairman of the republican state convention to be held in Providence today (Wednesday).

The G. W. Parks Jewelry company will soon prepare its new purchase, the Westerly Narrow Fabric mill property, for the manufacture of jewelry.

The new town hall is to be supplied with an absolutely fireproof record room, where the valuable records of the town and of the water department will be stored and arranged for convenient reference.

Lieut. Col. George W. Getchell and Capt. J. H. Rose, U. S. A., made inspection of ordnance at Fort Mansfield Tuesday. On Monday they inspected the range finding apparatus in the state armory at Westerly.

A social club of local newspaper workers and dealers is to be formed at the Clark cottage, Pleasant View, next week. It is planned to have the session open at 4 in the evening and terminate in the afternoon of the next day.

It is believed that the construction of a concrete pocket in connection with the brook or drain has solved the problem as to how damage by water to the Chapman property at the corner of Broad and Main streets could be averted.

The grade of Union street will not be changed until provision is made at the financial town meeting. The grade has been formally established from the corner of the hill to road street, which includes the widening of the street about seven feet.

It is probable that at the next meeting of the Westerly fire district a proposition to change position of the firehouse to better conform to the building line of the new town hall and courthouse will be considered. The firehouse at present extends about 15 feet beyond the line of the new building.

No March winds were more objectionable than the April winds of Tuesday. Even the heavy rainstorms of the night before did not prevent the wind from raising clouds of dust which were increased in volume in Dixon square by the vigorous man with the broom who swept the rails of the trolley road.

Mrs. Rafferty, who left Fort Wright last week, is now at the New Willard in Washington. Early next month she will join Colonel Rafferty at his new station, Governor's Island, New York. Fort Mansfield was within the jurisdiction of Colonel Rafferty's command and both he and Mrs. Rafferty are known to Westerly people.

The cornerstone of the town building and courthouse was laid on the ground level Monday afternoon and by Tuesday noon that section of the structure was built to the first floor above the basement, including the water table. This is indicative of the progress of construction. The round columns for the courthouse entrance were delivered Tuesday afternoon.

Chief Boatswain Martin Fritman has been detached from the naval station on the Thames and ordered to duty at the works of the New York Shipbuilding company, Camden, N. J., in connection with the fitting out of the Arkansas and to duty on board that vessel when placed in commission. He will be relieved by Chief Boatswain T. J. Cooper, detached from the Newport training station.

E. E. Fowler, the promoter and manager of the company that is planning to take over the Segar mill property in Main street for the manufacture of hammocks, mosquito netting and dress linings, has received even more ideal support than was requested. It is therefore probable that the new industry will be established within a short while. Mr. Fowler has changed his residence from Middletown, Conn. to Westerly.

First Class in Grammar, Please Parse. On account of not being able to get power and the copy for grand jury proceedings was also late in reaching us, is the cause of us getting the paper out late this week—Carmela (Da.) Enterprise.

TODAY IS FREE STAMP DAY

Beginning this Morning.

Mid-Season Clearance Sale of Women's and Misses' Tailored Suits

Suits designed for this season must be sold as we carry no goods from one season to another, therefore, we prefer to close out garments now, when the garments are really needed goods rather than wait until the season is at an end.

We Solicit Furs for Cold Storage. The Manhattan 121-125 MAIN STREET, We Solicit Furs for Cold Storage.

Brief State News

New Britain.—The 50th anniversary of the New Britain Turner society will be celebrated in Turner hall Thursday evening.

Essex.—The county conference of the King's Daughters, Circle of Middlesex county, will be held at the Congregational church in Essex June 27.

Terryville.—Mrs. Thomas F. Higgins was taken to Charter Oak hospital in Hartford Sunday, where she will undergo an operation for appendicitis.

Manchester.—The Circle theater opened Monday evening under a new management, the new owner being Lee McParland, who comes from Arizona.

Mansfield.—E. G. Walker is running his new auto in getting to Southbridge today, where he is directing the setting of one hundred thousand white pine transplants.

Norwalk.—Herbert G. Andrews of New York was awarded a verdict of

\$250 against the city of South Norwalk for damages to his machine, caused by the bad roads of the city.

Meriden.—Several thousand packets of garden seeds have been distributed among the children of the public schools recently, which it is expected will be utilized for the planting of home gardens.

Bridgeport.—Five hundred children of St. Charles' parochial school received holy communion at the solemn mass of requiem for those lost in the Titanic disaster at St. Charles church Monday morning.

Saybrook.—Gordon Z. Smith and two other civil engineers from New Haven, started in surveying at Fenwick, and will continue until they reach Hartford, on the Valley branch. With this force it will take over one week to complete the job.

New Haven.—A settlement of \$12,500 and \$15,000 has been made by the New Haven road with Engineer Frederick Dullert, of New Haven, formerly employed by that company and who was injured in a railroad accident at the Napatuck river bridge on October 4, 1910. The settlement it is understood, was made

without trial, and the papers of attachment were against the company.

Cause of Earthquakes. From 700 earthquakes of known source, two Scottish inquirers have obtained evidence that earthquake frequency is connected with the shifting of the earth's axis. When the North Pole is moving toward Greenwich, for example, earthquake frequency will be about the average near longitude 0 degrees and 180 degrees, but above it normal near 90 degrees east longitude and below it near 90 degrees west longitude.

No Fly Past. There are so few flies in Bavaria that they can in no way be regarded as a pest. This is perhaps due to the extreme cleanliness of Bavarian cities. Courtyards, alleys, vacant lots, etc., are kept clean and the hallways and entrances to the houses are as fresh as soap and water can make them.

A Darned Good Idea. Twelve young women of Phillipsburg are organized into a Nonwearing club. Besides opposing the use of profanity, they are advocating civic improvements.—Philadelphia Record.
