Mrs. William J. Carey, wife of the third assistant engineer of the yacht Narada at New London, left Rockus hospital, Norwich, Wednesday, having been a patient there some time, and is greatly improved in health.

FORTY YEARS AS CITY HALL JANITOR.

Manuel J. Fields Has Done Faithful Service Two Score Years.

At 1 o'clock on Friday Manuel J. Fields completed forty years of faithful service as janitor of the city hall, which position he has held since the erection of the building. He worked

for Contractor Gilbert Condon while the building was in process of construction and on its completion assumed the position of janitor, in which position he has ever been a conscientious and untiring official. He received his appointment under Mayor James Lloyd Greene in 1872.

He placed the large bell in the bell-fry and has been connected with all the work done on the building.

RECOMMENDED 10 MILL CITY TAX

Common Council Puts Out Its Estimates For Next Year—\$130,218.40 to be Raised For City Expenses—Extras Enough to Make Another 3 Mills.

After an executive meeting on Friday evening, the court of common council held a five-minute meeting in the council chamber, at which they presented their estimates for the next fiscal year for the city and recommended a 10-mill tax. The total amount to be raised by taxation is \$130,218.40 on a list of \$13,021,840.

Mayor Thayer called the meeting to order at 8:25, this being an adjourned meeting from a previous date. Roll call by Clerk Moore showed that all were present. The reading of the minutes was omitted.

On a question of lighting the business section of the city, Alderman Gehrbart reported for the executive committee that the superintendent of the gas and electrical department recommended that the flaming arcs be substituted for the present lights and that the city should purchase the equipment. It was believed this would all be taken care of by the appropriation. The committee's recommendation was adopted, and the matter was left with the department to carry out.

A notice from the public utilities commission was placed on the table. It concerned a hearing regarding the proposed extension of the trolley track extension in Street, which the mayor said was a matter of a formal matter that required the approval of the board of the city. The finance committee's estimate for the coming year, approved by the executive committee, were presented, and the reading of them waived, and the recommended tax rate of ten mills was voted.

Several department reports were also presented, but not read. They were ordered accepted and printed in the appendix to the Journal. They included an inventory of the fire department property, report of condition of cemetery trust funds, annual report of finance department of city Treasurer Avery, and of his statement of receipts and disbursements from the gas and electrical department.

The meeting adjourned at 8:30 p. m. until the evening of May 31 at 8 o'clock.

The estimates for the year are advertised on page 8 of The Bulletin. Differences between last year's estimates and the present ones submitted show that in the department of public works the amount was \$55,113.91 last year, \$44,506.84 this year; in water works, \$15,000.00 last year, \$15,000.00 this year; gas and electrical department, operating expenses \$115,000 last year, \$115,000 this year; improvements \$15,000 last year, \$17,000 this year; park commission \$5,000 last year, \$4,000 this year; and total appropriations \$322,434.84 last year, \$317,536.74 this year. Recommended to be included in the warning for the city meeting are three mill tax, \$41,337, which are enough to make an additional three mill tax. Of this amount over \$27,000 is for street improvements.

City Treasurer Avery's summary of receipts from May 16, 1911, to May 15, 1912, is as follows:

Table with columns: Receipts, Disbursements, Balances. Rows include: Water works, Outside account, Street lighting, City court, City clerk, Police dept., Dept. of cemeteries, Dept. of trust funds, Interest, Sewerage, Loans, Taxes, Court house, Taxes returned, Licenses, Miscellaneous, Total.

CAMPAIGN RALLY.

Y. M. C. A. Committee Met—Harford General Secretary the Speaker.

The first of the campaign supper rallies in the Y. M. C. A. plan to raise \$5,000 for current expenses for the coming year was held on Friday evening in the Association hall at 8:30 o'clock when thirty members of the committee sat down to an excellent supper prepared and served by the ladies of the Trinity Methodist Episcopal church. When the supper hour was over, Chairman Allyn L. Brown introduced President James I. Case as the first speaker. He spoke vigorously

to the men of the success that was bound to be theirs in the effort to raise the needed pledges, advancing the assuring argument that the Association had a record of work in the past year upon which it could proudly stand and invite the aid of anyone to assist it in what it was doing for the young manhood of Norwich.

General Secretary George C. Hubert of the Harford Association was the special guest of the evening, and he was called upon next. He responded with most enthusiastic words along the same lines, telling the men of the Norwich association that this plan was the best following was setting an example which other associations were watching with interest, as it had fair to become the standardized form for raising Association funds.

The team captains also spoke encouragingly of the work that was to be done, these including L. O. Smith, A. A. Browning, Shepard H. Palmer, and Frank L. Arnold.

Chairman Brown explained the plan of the campaign and emphasis was placed upon the anniversary meeting of the Association to be held in Central Baptist church, at which General Secretary Alfred H. Whitford of the Buffalo Y. M. C. A. is to be the speaker. General Secretary Whitford was described as one of the five leading Association secretaries of the country.

He was born in Woburn, Mass., and first became interested in the Association as a member of the boys' department. At the age of 18 he became secretary of one of the Massachusetts Y. M. C. A.'s. Shortly after he became an assistant secretary at the Y. M. C. A. in Woburn, Mass., under L. W. Messner, now general secretary at Chicago.

After a successful administration at Rochester, N. Y., he was called to take the general secretaryship of the Y. M. C. A. of Buffalo. He has served in that capacity the last thirteen years, and developed one of the best organized and most efficient associations in the country.

Mr. Whitford is in great demand as a speaker for Association gatherings and evangelistic meetings for men. He is magnetic, vigorous and businesslike in his method of speaking.

Tenth Company at Range. On Friday the members of the Tenth company, C. A. & G., of New London, were at the rifle range in this city for the May day practice. Col. E. J. Fitch was present and will be there today when the fifth company have their field day. They will go out by the Western trolley and put in the usual practice at the range and drill.

Waterbury Man Surprised When He Finds His Own Name on It. To have a check made out to yourself all fluttering to you from somewhere in mid-air is unusual, yet this is the experience that Fred A. Stone met the other day, says the Waterbury Republican.

Mr. Stone was walking along West Main street in front of the ruins of the city hall, from the third story of which city employees were throwing out old paper. Something attracted his attention. He looked up, thought his vision was good and realized that it was when he stooped to the sidewalk and picked up the check. Observing that it was cancelled he was about to turn it over to John H. O'Loughlin, janitor of city hall who was standing close by, and who observed his action, when the name written on the face of it halted his movement.

Written in a clear, legible hand was the name of City Clerk William H. Standish ordering the city to pay Fred A. Stone \$7. The check had been drawn Aug. 3, 1907, and was in payment for photographic work that Mr. Stone had done for the city. The check, obtained through the fire that destroyed City hall, Mr. Stone says he will have it framed.

Parke-Lilly Wedding Invitations. Cards have been received announcing the coming wedding of Miss Helen Parke, daughter of Mr. and Mrs. William Parke, of the Park, of Scranton, Pa., and John Leavens Lilly, son of the late Gov. George L. Lilly, of Waterbury, Conn. The wedding will be celebrated in the First Presbyterian church in Saratoga June 8, at 8:30 o'clock in the evening, and following the wedding reception will be held at the home of the bride's parents, 1601 Adams avenue. After the wedding the couple will leave for a tour, and will be home here November 1 at 327 Riverside avenue, New York.

Enormous Building Stones. Probably the largest stones ever used in any building are seen in the western wall of the great temple of Baalbek in Syria, and the problem is still unsolved as to the methods used in conveying them from the quarries and of placing them in position. The quarries from which these blocks were undoubtedly cut can be seen about half a mile to the southwest of the temple, and the San Francisco Argonaut. The three stones lie horizontally and form part of the outer wall of the building. They are not on the lowest part of the masonry, but are 25 feet above the first row of stones. Each stone is over 60 feet long, 13 feet high and 10 feet wide. The most wonderful block of all still lies in the quarries, for something must have occurred to stop the work of separating it completely from the rock, and the great stone has lain there for centuries awaiting completion. This stone is 70 feet long, 14 feet high and 10 feet wide.

Dr. and Mrs. O. E. Gidderale and family, recently of Woodstock, are to occupy their residence in Lincoln avenue, which they purchased from Frank W. Browning.

The Wednesday and Friday afternoon with Mrs. Willis Austin. Part of the programme consisted of a discussion in regard to Equal Franchise.

Dr. and Mrs. O. E. Gidderale and family, recently of Woodstock, are to occupy their residence in Lincoln avenue, which they purchased from Frank W. Browning.
