PATHFINDING FOR AUTO TOURISTS

James A. Hemstreet and W. McK. White Pass Through Here—Came From North Adams, Mass.—Revising Maps For National Automobile Bureau.

In preparation for the great army of automobile tourists which will traverse New England roads this summer they arrived here Sunday evening the official pathfinding and mapping car of the American Automobile association.

For those thousands of motorists who are now looking forward to covering the highways of this section the representatives of the national automobile bureau are going over the main highways to bring their maps distinct. Their work is being done in a Stoddard-Dayton roadster by J. A. Hemstreet of the A. A. A. headquarters and W. McK. White of the Automobile Club of America. Mr. White, who is division advertising manager of the United States Motor company. This roadster attracted a great deal of attention because of its size and its baggage compartment, which can be reached only by opening the back of the front seat, insuring a dust and waterproof space.

Mr. Hemstreet is officially marking the routes and local motorists were much interested in the outfit which enables him to keep his route always in his correct geographic direction. On his chart is mounted a compass and beside it a dial. The latter points in the general direction in which the pathfinding car is turning and by keeping the dial and the needle of the compass parallel Mr. Hemstreet always has his map pointed properly.

The A. A. A. touring bureau is giving special attention to its popular 'strip' maps, and this pathfinding party is not only scouting over the whole territory but is also making new strip maps on several of the leading trunk lines. From New York along the sound to Boston and return via Hartford and Springfield are two of their routes.

Messrs. Hemstreet and White left New York last Monday morning and North Adams Saturday morning and plan to reach Wateryou tonight. They stopped at New London over night and

leave at 8 o'clock this morning for New Haven. The New England expedition will lay its special form maps to distributing cities for 'White mountain and Maine' routes.

Keeping the Map Straight. Mr. Hemstreet is officially marking the routes and local motorists were much interested in the outfit which enables him to keep his route always in his correct geographic direction.

Scouting in This Territory. The A. A. A. touring bureau is giving special attention to its popular 'strip' maps, and this pathfinding party is not only scouting over the whole territory but is also making new strip maps on several of the leading trunk lines.

Some damage was done to the furniture of the room by fire and smoke, but with the burning of the window and scorched woodwork little damage was done to the house itself, and the loss is light.

ANNA M. HERR Y. W. C. T. U. VISITS ALMSHOUSE. Pleasing Programme Carried Out There on Flower Mission Day.

About 25 members and friends of the Anna M. Herr Y. W. C. T. U. met at the almshouse on Sunday, June 9, to celebrate Jennie Casagrand's birthday, which is known as Flower Mission day all over the world.

The superintendent, Mrs. J. J. Fields, in response to many queries, explained the long absence of the anniversary, which is due to the illness of Mrs. Fields.

The opening hymn, 'Revive Us Again,' as being appropriate to the occasion, was sung, followed by the reading of the scriptures, accompanied on the piano by Miss Holloway. The scripture lesson, 'The Law of Love,' was read by Miss Curly. The prayer was by Mrs. Fields. Another hymn was sung, after which Miss Hogue read an article on Flower Missions and its many branches.

The Misses Ruth and Clementine Jordan then gave duets on the piano and violin. The Swallows and the Minnet from Beethoven, which were much enjoyed.

Mrs. Fields gave a talk on the scripture lesson and flower missions. More hymns were sung, another duet, 'Beautiful Night,' was given by Mrs. Fields. The service closing with the Misses benediction.

The inmates were all remembered by the union with good wishes and the visitors of their thanks and hope of another visit in the near future.

SENATOR BRANDEGEE'S COMMITTEE'S REPORT

Bill Relative to Panama Canal Expected Will Differ Greatly from House Measure.

(Special to The Bulletin.) Washington, D. C., June 8.—In all probability the bill regulating the operation of the Panama canal will be reported out of the senate committee on interoceanic canal, of which Senator Frank B. Brandegee of Connecticut is chairman, early next week.

The committee has accorded hearings to representatives of the railroad companies and commercial bodies and all others who have asked to be heard. The railroads were not given a hearing while the bill was under process of incubation in the house committee on interstate and foreign commerce, and accordingly raised a 'fog' that interested parties were kept in the dark through the fogging method of the extremists of both political parties.

Rather than have this charge go to the country unchallenged, Senator Brandegee threw the doors of his committee room open to whomever desired to enter and be heard in assisting to formulate a bill that is sincerely hoped will be wisdom and constructive statesmanship in every line.

It is expected the bill will differ very materially from the house measure, particularly with reference to the prohibition of railroad owned steamships operating through the canal. The free toll provision of the house bill relating to vessels engaged in the coastwise trade, it is believed, will remain in the senate measure when it comes from the committee next week.
