Burial was in St. James' cemetery.

WANTED NEW SHOES.

And S. P. Humphrey's Gray Horse Knew Where to Go and Get Them.

A gray horse owned by S. P. Humphrey of the Central hotel walked into Adams' blacksmith shop one day recently and took his accustomed place while waiting to be shod. Mr. Adams noticed that no one came with the animal, which was brought to his place for a long time for its shoes, and was somewhat puzzled until a man from the hotel came along and explained that the gray had sneaked from an open space in the rear of the stable after having had its shoes pulled off and turned loose to enjoy all the comforts of freedom. Mr. Adams has known and studied horses all his life, but he finds the above incident one of the most interesting that has come to his attention. Whether the gray felt the loss of his shoes so badly that he wanted others, or whether he just took a walk for himself and preferred to call on friends, is difficult to determine, but he went to the shop, following the streets as well as if being led.

PAYROLL \$2,500 WEEKLY. Starting up of Danielson Cotton Company Means Much to Local Tradesmen.

That real activity toward getting the plant of the Danielson Cotton company into operation again is near at hand is indicated by the preparations to get the plant itself and the dwellings in the mill village that have been closed and boarded up for months ready for occupancy.

The pleasant prospect means much to Danielson. When the plant was last being operated at its full capacity the payroll was close to \$2,500 a week. It will probably be fully as much under the new management, and \$100,000 a year added to the local trade prospects means much to the business men.

A Danielson man who has an opportunity to come in contact with a great many mill operators says the new concern is the strongest of any that has had the mill and that once it is started it may be expected to remain in operation.

A LEGAL BATTLE IN DARROW CASE. Effort to Get in Record of Stenographic Reports of Conversations.

Los Angeles, Cal., June 24.—Clarence S. Darrow's attorneys started a legal battle today to get into the record the stenographic reports of conversations between Darrow and John R. Harrington, his former chief investigator, which were transmitted by a secreted telephone device.

The prosecution objected strenuously. The conversations, Harrington testified today, were arranged by him to trap Darrow into admitting that he had been guilty of trying to bribe jurors in the murder trial of John J. and James B. McNamara. The transcript, Harrington said, did not turn out well.

"I could not make out the sense of it," he testified. "It was unintelligible." Decision on the point was not given.

Whitewash Too Expensive. It may cost six dollars, as Sharp Williams declares, to bathe a United States senator; but in the bathing on. Out of a clean Senate we have a right to expect clean legislation.—Philadelphia Record.

They occupied the store now operated by Tucker in the Union block.

COUNSELS MODERATION. Senator Hammond Deplores Political Wrangling and Bitterness.

Senator George A. Hammond, just returned from the notable gathering at Chicago, says he sees no sense in rabid discussion of the peculiar political situation that has developed nor any value in acrid arguments between friends over the merits or demerits of candidates.

"I have no quarrel," says the senator, "with the man who prefers Mr. Taft or Mr. Roosevelt, nor with anyone who wants Mr. Bryan or any of the other democratic candidates, but I object to the man who characterizes the results of the republican national convention at Chicago as a triumph of thieves and robbers, for I was on the ground and heard the whole story. Let us be at least sensible in our consideration of a momentous political problem."

"Why is it not possible and advisable for the members of each of the two great parties and the factions thereof to have individual preferences and express them conservatively, without resort to abuse or vilification of any man? All of us are primarily Americans, fully competent to decide the issues presented without resorting to rettable methods."

THURSDAY HALF HOLIDAY. Important Business Houses Agree to Give it to Employees.

The following Putnam business people, believing that a weekly half holiday during July and August would be a good thing for them as well as for their clerks, have agreed to close every Thursday at 1 p. m. during the months mentioned: Church Clothing company, A. C. Luke & Co., N. T. Hurbut, S. Diamond, The Emporium, Samuel, My Clothier, Charles Soder, George E. Shaw, Edward G. Wright, T. S. Luder, Miss J. S. Schell, Mr. J. A. McIntyre, Mrs. Rousa, Miss Chabot, Miss Dentis, Mrs. Magnan, Miss

Coman, Miss Egan, J. N. Doury, C. M. Elliott, Alexander's Shoe Store, New Idea Shoe Store, F. W. Woolworth & Co., Putnam Light and Power company, The People's Store, Isaac Champoux, manager. Those merchants who have agreed to close are of the opinion that the summer half holiday, now the rule in the larger business centers throughout the country, has proved a wise move, not only being a benefit to the hard working store employees, but to the buying public, as the clerks, after their outings, return to work with renewed vigor, and the public gets the benefit of better service.

The business houses that are to close Thursday afternoons are making extra efforts to induce morning trading on those days.

Albanian Duels. Albanians used to practice a peculiar form of dueling. Sir Richard Burton, who once commanded a corps of bash-bazouks, writes that "the Albanian contingent, who generally fight when they are drunk had a peculiar style of monomachy. The principals, attended by their seconds, and by all their friends, stood close opposite, each holding a cocked pistol in his right hand and a glass of raki, or spirits of wine, in the left. The first to drain his draft had the right to fire, and generally blazed away with fatal effect. It would have been useless to discourage this practice, but I insisted on fair play."

Why Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: First—The indisputable evidence that it is harmless: Second—That it not only allays stomach pains and quiets the nerves, but assimilates the food: Third—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—Hall's Journal of Health.

The Kind You Have Always Bought and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. Letters from Prominent Physicians Addressed to Chas. H. Fletcher.

Dr. W. L. Leister, of Rogers, Ark., says: "As a practicing physician I use Castoria and like it very much." Dr. W. T. Seeley, of Ansony, N. Y., says: "I have used your Castoria for several years in my practice and have found it a safe and reliable remedy." Dr. Raymond M. Everts, of Santa Ynez, Cal., says: "After using your Castoria for children for years it annoys me greatly to have an ignorant druggist substitute something else, especially to the patient's disadvantage, as in this case. I enclose herewith the wrapper of the imitation." Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria." Dr. W. F. Wallace, of Bradford, N. H., says: "I use your Castoria in my practice, and in my family." Dr. Wm. L. McCann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine and aside from my own family experience, I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home." Dr. Howard James, of New York, City, says: "It is with great pleasure that I desire to testify to the medicinal virtue of your Castoria. I have used it with marked benefit in the case of my own daughter, and have obtained excellent results from its administration to other children in my practice." Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy." Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice and find it very satisfactory." Dr. William Belmont, of Cleveland, Ohio, says: "You Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place." Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's." Dr. Channing H. Cook, of Saint Louis, Mo., says: "I have used your Castoria for several years past in my own family and have always found it thoroughly efficient and never objected to by children, which is a great consideration in view of the fact that most medicines of this character are obnoxious and therefore difficult of administration. As a laxative I consider it the peer of anything that I ever prescribed." Dr. L. O. Morgan, of So. Amboy, N. J., says: "I prescribe your Castoria every day for children who are suffering from constipation, with better effect than I receive from any other combination of drugs." Dr. H. J. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent." Dr. Wm. L. Bosserman, of Buffalo, N. Y., says: "I am pleased to speak a good word for your Castoria. I think so highly of it that I not only recommend it to others, but have used it in my own family." Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact of the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."
