Traffic Regulations Proposed Police Commissioners Have Been Working On Matter For Some Time—All Vehicles To Stop or Start Upon Signal Given By Policeman—Street Crossing, Turning Corners, Etc., Provided For in Modern Set of Rules.

The matter of improvement in traffic regulations in the city of Norwich has been under consideration by the board of police commissioners for some time, and Alderman William G. McLaughlin, chairman of the board, has just completed these proposed rules, subject to change and they will be presented, it is expected, at the September session of the court of common council, as follows:

Section I.—A vehicle, except when passing a vehicle standing or going in the same direction, shall keep to the right of the center of the street.

Section II.—Vehicles moving slowly, shall keep as close as practicable to the right-hand curb, so as to allow faster moving vehicles free passage to the left.

Section III.—Vehicles overtaking others shall, in passing, keep to the left.

Section IV.—A vehicle turning to the left into another street shall turn the corner as near the right-hand curb as is practicable.

Section V.—A vehicle turning to the right into another street shall turn the corner as near the right-hand curb as is practicable.

Section VI.—A vehicle crossing from one side of the street to the other side shall do so by turning to the left, so as to head in the same direction as the traffic on that side of the street.

Section VII.—No vehicle shall stop with its left side to the curb.

Section VIII.—Unless in an emergency or free for all, no vehicle shall stop on a public street or highway of this city except near the right-hand curb.

Section IX.—The department of police shall control all traffic in the streets and highways. All vehicles and cars shall stop or start immediately upon the signal given by any policeman.

Section X.—Police, fire department, fire patrol, traffic emergency repair, United States mail vehicles and ambulances shall have the right of way through any street and through any procession.

Section XI.—No vehicle or street car shall proceed at any time at a greater speed than is safe and proper under conditions then obtaining.

Section XII.—The word "vehicle" includes equestrian and everything on wheels or runners, except street cars and baby carriages.

Section XIII.—The word "vehicle" includes equestrian and everything on wheels or runners, except street cars and baby carriages.

Section XIV.—No vehicle or street car shall proceed at any time at a greater speed than is safe and proper under conditions then obtaining.

ITCHING HUMORS. There is Now a Way to Escape These Skin Torments.

Try This Remedy at Our Risk. People sometimes say, "Well that new remedy of yours, Sazo Salve, may cure recent cases of eczema but I doubt if it will help me for I have had eczema a long time."

The fact is Sazo Salve was developed as much for chronic skin troubles as for acute cases, and it is equally effective, though usually the chronic cases are more stubborn.

Numbers of letters have been found here could be cited, showing that Sazo Salve is exactly the remarkable soothing and curative remedy for skin diseases that we claim to be.

This itching is stopped in a few moments after the first application, and improvement is seen in a few days. All humors and disorders of the skin, whether scaly, crusty or in the very first stages, usually yield to Sazo Salve promptly. If it does not, in your case, at least money will be returned. Broadway Pharmacy, G. G. Engler, Norwich, Conn.

SUDDEN DEATH OF GUY DOLBEARE BUTTON

Dropped Unconscious on Main Street Saturday Afternoon and Died a Few Minutes Later—Civil War Veteran

Stricken down while in apparently good health, Guy Dolbeare Button's sudden death on Friday morning, August 24, at 1:15 o'clock came as a shock to his wide circle of friends in Norwich and eastern Connecticut.

Only last week he was at the reunion of the Eighteenth regiment held at his home at the Buckingham Memorial and he found great pleasure in renewing old friendships with his fellow veterans and in bringing up news of the old regiment.

Button was walking along from Main street to Ferry street when he dropped to the sidewalk unconscious. Officers John Irish and Ralph Divito assisted by Andrew Chapman, picked up Mr. Button and placed him on the steps at No. 266 Main street.

Dr. J. LaPierre arrived Mr. Button had been in the hospital for some time. His death was due to angina pectoris. His heart had not been in good condition for several years.

Button was over 70 years of age and almost a life long resident of Norwich. He was born here, the son of Sabina Dolbeare and Dr. Lucius L. Button, on September 28, 1841.

His father was a member of the office of the Norwich & Worcester railroad at New London seven years, but except for this period he had always made his home in Norwich.

RELATIONSHIPS OF LIFE. Scientific research has done much to show the amazing range of environment. The flowers now fading in the garden are forming seeds which must wait until the spring to be sown in their natural environment in the earth, air, dew and sunshine necessary to their growth.

People try to enlarge the human environment. They can for the most part do so by the material side of life. The material side of life is looked after because it is found to go far in determining the life. But it is not all. A child grows in other ways. He knows things.

Most of his sentences end with a question mark. He looks out with clear eyes upon the world and the wonder of things makes him ask. This is the beginning of a process which continues in the man. In recent years he has made wonderful progress in his search for knowledge. The most highly prized of this has been gained not alone in the last fifty years. Darwin's book was the key which unlocked the mystery of the world. Intellectual life has been quickened by this new environment.

Then the material side of life is looked after because it is found to go far in determining the life. But it is not all. A child grows in other ways. He knows things.
