FIVE PLEAD GUILTY IN COURT

Progress Made in Superior Court Docket—James Denison on Manslaughter Charge Given 1 Year in Jail—Homer Bruneau on Probation—Sentence Deferred in Stone Embellishment Case.

Five prisoners whose cases were on the docket of the superior court pleaded guilty at the session of the court here on Tuesday, and four were given sentences, while sentence in the Stone case was deferred.

In the case of Daniel Tift, of Stonington, an old soldier, charged with indecent assault on boys, State Attorney Hadial A. Hull stated that Tift had been 35 years old, and lived with Norton and has promised to stay there. On the state's attorney's statement the case was nolle.

John Spelman, charged with statutory rape, pleaded guilty, and was sentenced to six months in jail. The sentence was suspended and Spelman, who is 15 years old, was committed to the care of his mother in Pawcatuck, was placed in charge of Probation Officer Richard W. Mansfield. It is said that the parents of the 15 year old girl did not wish to push the case.

Guilty of Manslaughter.

James Denison, colored, charged with manslaughter in stabbing George Brickle to death in New London on the night of July 1, was sentenced by Judge Case to serve a year in jail. Denison pleaded guilty. He said he was attacked by Brickle in a fight which arose from a crap game and he defended himself with a jackknife. Denison said that he wandered about the city after the affair and then went to Stonington, where he was arrested next morning.

Denison and Brickle, both negro strike breakers, were in the gang brought to New London in June by the Central Vermont road at the time the Polish freight handlers struck. The fight, which resulted fatally, occurred in the street in East New London, where the strike breakers were quartered.

Attorney Perry J. Hollanderky appeared for Denison.

Put on Probation.

Homer Bruneau, charged with breaking and entering Doan's store in Jewett City, pleaded guilty and was sentenced to serve six months in jail. Judge Case suspended sentence and put Bruneau on probation for one year. Bruneau was tried last week on this charge. The jury disagreed and on Tuesday he agreed to plead guilty and accept probation. He was well satisfied with the outcome of his case as handled by Attorney W. G. Murray, who was assigned by the court to defend Bruneau.

Three Months for Stabbing.

Alexander Howard, negro, of New London, was given three months in jail for stabbing Samuel Smith in New London on July 3 last. Howard pleaded guilty and Judge Case passed sentence at once.

Howard and Smith got into a fight in a boarding house in East New London, where Howard was a boarder. Howard said in court he didn't know he had stabbed Smith until he was told so at the station house after his arrest. The matter will have a law day. He has been in jail since the affair.

Deferred Disposition of Case.

Robert L. Stone, formerly of Mystic, charged with embellishment from E. E. Bucklin and others in stock transactions in the case of the late Mrs. Stone, was presented in court. Stone is the man who was out under \$1,000 bonds furnished by A. E. Bliven of Mystic and who did not appear at the trial. The case was called recently by Mr. Bliven and Attorney Benjamin H. Hewitt going to Boston and bringing him back to face the charge.

State Attorney Hadial A. Hull stated to the court that there are four charges against Stone, but that he had decided to plead to the state with the other three. Charles Thayer appeared for Stone. Mayor Thayer stated that Stone was assaulted in New York city and robbed of the money which

had been given him by Bucklin and others to invest.

Mayor Thayer said that Stone, instead of notifying the firm he was employed by, told his lawyer, and that the charges of embellishment followed. It was said that Stone has a wife and son.

Judge Case questioned Stone about the transactions. Stone said that he went to New York with the money, which he was to have invested, there became intoxicated, and either lost the money or was robbed of it.

After a conference, it was decided to postpone disposition of the case until later and Stone went back to jail.

North Stonington Case.

In the afternoon of the trial of William A. Gardner and Herbert B. Brown of North Stonington on the charge of statutory rape upon Rachel Spelman, a colored girl under 15 years old, was begun. The girl is Gardner's niece. The girl is the one who tried to commit suicide in Providence last week by taking ether. Brown pleaded guilty to the crime and testified for the state.

Because of the evidence against Gardner, Attorney Ledwidge of Westbury, counsel for Gardner, tried to persuade him to plead guilty and mitigate the sentence, but could not, so withdrew from the case. Attorney John H. Barnes being assigned to defend Gardner, his attorney was determined to stand trial.

The girl's mother, Mrs. Phebe Spelman, was the first witness. She testified that she saw Gardner and Herbert B. Brown, 23, who had pleaded guilty to the charge, was next on the stand and pointed out William Gardner as the man who was with him when the assault was made. Brown said he was three-quarters drunk that day when he heard the girl hollering "Let me go!" The witness corroborated the testimony of the girl as to Gardner holding her down while the assault was made. He said he was afraid of Gardner when the latter dragged him to the crime.

To the questions of Attorney Barnes on cross examination Brown testified that the two men had been drinking and that Gardner had thrown the girl down, but he had refused to hold the girl at Gardner's request after he himself had committed the crime.

The state rested and Attorney Barnes recalled Mrs. Phebe Spelman, who had previously testified. She deposed that she saw her brother-in-law, William Gardner.

Mrs. Anna A. Sebastian of Westbury, for whom Rachel Spelman worked, also testified.

Court was adjourned at 4.10 at request of Attorney Barnes, who had more witnesses to present, but they were not present.

Admitted to the jury in the case: Adolph Geer, Norwich; G. A. Holden, A. M. Fuller, Preston; John O'Brien, Colchester; William A. Edmund, Griswold; E. B. Bates, Colchester; H. Briggs, Charles L. Hinckley, Lebanon; John Sweeney, Bozrah; Henry Buteau, Sprague; Curtis Wilcox, Lisbon; William B. Kitchin, Salem.

He was carrying four canaries in his arms, and they were singing grand." This custom of breeding the canaries in the back bedrooms has saved hundreds of choice birds from destruction.

Given for Miss Rose Rafferty and Thomas Riley.

Parading through the streets from the Sodas, about with the materials for the tin shower they were about to give for Thomas Riley and Miss Rose Rafferty, the members of St. Joseph's Sodality attracted a big crowd on Tuesday evening. They were headed by a hurdy gurdy which had been secured for the evening.

On their way to the home of Miss Rose Noyes, 88 Chestnut street, they were joined by the young ladies who were to participate in the shower, and the whole party of 30 couples arrived at the house in a manner that left no mistake as to their presence on the scene.

Adventures of a Hotel Sign.

An immense and business placard erected by a hotel keeper on the rock on which is built the beautiful village of Baux, in Provence, France, has been the cause of a bitter controversy between two villages in that quiet village, but no bloodshed. The superintendent of Baux-Arts at Paris invited the prefect of Marseilles to take down the billboard. The prefect transmitted the invitation to the under prefect of Arles. The under prefect notified the mayor of the village of Baux. Now the mayor of the village is a friend of the hotel keeper, and so refrained from executing the order. Half the village stood by the hotel keeper in his refusal to take down the sign. The other half, opposed to this blot on the beautiful landscape, favored pulling it down. The question as to whether the sign should stay or go got into a village election and gave greater excitement to that event. The result of the election was the defeat of the mayor, the friend of the hotel keeper, and the hotel keeper was condemned to pay twenty-five francs for damages incurred by the election. The new mayor saw that it was his duty to remove the sign. But when the workmen came to erect a scaffolding against the rock, the hotel man declared that he would shoot with a carbine the man who mounted the ladder. Before the resolute attitude of the doughy boniface the mayor hesitated. He telephoned to the under prefect of Arles. The latter responded magnificently: "Order the workmen to take down the sign. The expense of the operation will be charged to the hotel keeper." With renewed courage the workmen mounted the rock and took down the sign, not, however, without leaving many scars on the rock which a painter is now trying to obliterate.

Experts have estimated the water power available in the streams of the United States all the way from 31,040,000 to 56,146,000 horsepower.
