GOVERNOR WILSON ON TAFT.

When the campaign of Governor Wilson opened, he decided to make but few speeches and not to tour the country, and many there were who remarked on the wisdom of his decision.

It is only necessary to go back to 1882 to see how a tariff framed under democratic principles operates.

ENCOURAGING DIVORCE. With all that is being said against the increasing number of divorce cases and the crying need for sufficient sentiment which will check it and turn it in the opposite direction, it is unfortunate that such marriages as were recently reported from Los Angeles with the revolutionary prenuptial contract, appear from time to time.

EDITORIAL NOTES. Roosevelt is booked as an attraction at some of the Maine fairs.

There is one fashion which Paris can but never will take from us. That is the Bull Moose suit.

Happy thought for today: Worrying disturbs the family and makes life profitable for the undertaker.

Madern set a bad example for the Mexicans and now he asks for ten millions to suppress the revolutionists.

GETTING AT HIDDEN CAUSES. Much valuable advice has been given by people of prominence at the hygienic congress at Washington this week.

As an aid to stamping out the white plague in the country, Dr. M. E. Lapan of Highlands, N. C., urges a campaign in which the United States shall take part and by getting at the concealed cases in the young, result in its eradication.

It is possible to keep Mona Lisa in a St. Petersburg art gallery and overcome the straying habit, why not keep her there?

The bull moosers are trying to convince the country that the republican party hasn't energy enough left to decline to be killed.

It doesn't seem as if the Colonel used always to speak of his friend Taft as "Dear Will." He beat Aunt Della by just one word.

Anything which can be done to check the disease in the young is evidently getting at the seat of a large part of the trouble. It is a step which ought to have general endorsement.

The bull moosers can't see any republican party; and the prohibitionists can't see any bull moosers, or republicans. Their latest address to the voters is: "The fight is now between Wilson and Chaftin."

We used to ask the democrats how many varieties there were of them; but now we have Wilson republicans and bull moose republicans, the democrats are coming back at us good and strong. There may be a Taft democratic league, although they have not yet announced the combination.

The railroad company didn't relish Groton's desire for a betterment of the railroad crossing in New London, but there's no doubt as to who would be injured most by the taking of the steamboat lines to Stonington. There's no danger of such action, any way.

Roosevelt didn't make very much headway in Missouri. He found the people wearing Taft badges and they were wearing them he left.

RHODE ISLAND'S SHORT CONTRACT.

After an investigation of some length into conditions at the Rhode Island state prison a change is to take place, and in addition to a new warden there will be a new method of selling the product of the labor of those confined within the walls.

This means that the shirts made hereafter at the Rhode Island state prison will be sold by a different method. They will be sold to the highest bidder, which will mean the best price the market affords.

THE SURRENDER OF MENA. Nicaragua has received important assistance from this country in the trouble which has been brought upon it through military intervention.

When I hear most of the phonographs playing I wonder how I ever came to get one, and I say emphatically to myself "If my instrument played like that I would send it to the shop."

Every body does not think that home should be a place of comfort. I sometimes think that the young men and women who are so busy with their work and their pleasures, and who are so full of life and energy, are not really enjoying life.

As the season is drawing to a close the garden appears to have more butterflies in it than ever. The cabbage and turnip butterflies, the fruit and the clover butterflies, fly about every day, because there is more in it for them.

Among the lost and found of my garden is a single dahlia named State-lord, which came from Georgia some many years ago. It is a long-stemmed, large, terra-cotta bloom.

The bull moose electors in Kansas and California will vote for Taft, and will vote for the enemies of their party, believe more in trickery than large liberties for the people.

The prophets of today do not command respect. One says there will be a future generation of men without stomachs; and another says in 500 years all men will be bald! What for?

In the state of Michigan, where Roosevelt called Taft's reciprocity law "a pig-handled arrangement," the farmers are being told he endorsed the proposed bill and would vote for it.

THE MAN WHO TALKS

It seems as if we all had to have points of view. This is the one thing which is common to all men, and it is the one thing which makes life so interesting.

This is a queer old world and the longer one lives in it the queerer it seems to get. The college graduates are all about with their diplomas and their hopes—they "know what they are doing" and they are sure to succeed.

Men have been a long time in trying to find out the part color plays in nature. There is no doubt its great influence is in the service of life.

When I hear most of the phonographs playing I wonder how I ever came to get one, and I say emphatically to myself "If my instrument played like that I would send it to the shop."

THE VAGARIES OF THE FROST

(Written Specially for The Bulletin.) A neighbor remarked to me the other day: "We've had a frost every month in this year, haven't we?"

"We have," I replied, "and that is not such an unusual phenomenon as most people think. In this latitude, since I have known it to happen two years in succession, and think it happens once or twice a year, it is not so extraordinary as you suppose."

When I hear most of the phonographs playing I wonder how I ever came to get one, and I say emphatically to myself "If my instrument played like that I would send it to the shop."

And if we hold to yesterday's truth to the rejection of today's we fall into the error of little, safe souls. The end of consistency is the Pharsise.

Through the agency of a goose club in South London 60,000 people are provided with substantial Christmas dinner every year.

IDEAS OF A PLAIN MAN

To be always consistent one must follow the crowd. There is nothing stable in opinions that are not moved by custom, institutions, and the established order.

Whoever will love the truth and go where it leads must needs be often inconsistent.

For truth is as large as the universe itself, while we are small and can see only a bit of it at a time.

Let us not be alarmed if life seems one thing today and another tomorrow; both are true, for life is manifold.

Dr. Hartman Says: Write to Peruna Testimonials if You Want to Know the Truth.

The following letter was received by Dr. Hartman through his regular correspondence.

I notice the testimonial of Mrs. Alice Bogie, which you give in your last article. If I should write her you suppose she would give me further particulars? I have heard it said many times that such testimonials are fakes; that they are either absolutely fictitious or else the people have been hired to write them. I have been inclined to write you a great many times about this matter, but about medicine advertisements have discouraged me from doing so.

To the above letter Dr. Hartman made the following reply: My dear Madam—I do not wonder that you are confused and have lost all faith in advertisements. There has been so much said against them, so much controversy concerning them, I am not surprised that some people have lost confidence in them.

I hope that you will remember that she is a housewife, like yourself, that she has some children, and that she is a woman of moderate means and cannot afford to write these letters and pay her own postage.

Should you conclude to try Peruna for your catarrh I would be very glad to hear of the result. I can assure you that no use will be made of your letter, except by the writer, and that Mrs. Bogie very kindly consented to have me use her letter, which is my reason for doing so.

People recover from chronic catarrh who take Peruna. There is no doubt about that. Write them and they will be reported almost daily. I have thousands of them in my files.

SPECIAL NOTICE—Many persons are making inquiries for the old-time Peruna. To such would say, this formula is now put out under the name of KA-TAR-NO, manufactured by KA-TAR-NO Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet.

LEGAL NOTICE

At a meeting of the Court of Common Council held on the 24 day of September, 1912, the following was proposed as an Ordinance of the City of Norwich:

Section 1. A vehicle, except when passing a vehicle stopped or going in the same direction, shall keep to the right and shall not pass to the left of the vehicle being passed.

Section 2. A vehicle overtaking others shall, in passing, keep to the left.

Section 3. A vehicle turning to the right in another street, shall turn the corner as near the right-hand curb as is practicable.

Section 4. A vehicle turning to the left into another street shall pass the intersection before turning.

Section 5. Unless in an emergency, no person shall stop a vehicle on a street or to allow another vehicle to pass.

Section 6. The department of police shall have authority to control traffic on the streets of this city.

Section 7. The driver of a vehicle, on the approach of a fire engine or any other fire apparatus, shall immediately draw up and stop as near as practicable to the right-hand curb, and shall remain there until the fire apparatus or ambulance has passed.

Section 8. No vehicle shall pass any standing street railway car which is receiving or discharging passengers.

Section 9. The word "vehicle" includes equestrians, led horses and every other animal, and every street car, street car and baby carriage.
