# WILL BUILD PROVIDENCE EXTENSION

## Grand Trunk Expects That Conditions Will Enable Resumption of Work in the Spring

### IS UNABLE TO RAISE THE FUNDS AT PRESENT

#### Extensions From White River Junction to Boston and From Boston to Blackstone to Be Abandoned—Chairman of Massachusetts Harbor and Land Commission Submits Report of Investigation—The Contemplated Agreement.

Boston, Nov. 14.—The actual situation as regards the Grand Trunk Southern New England extension to Boston and Providence is the subject of a report submitted tonight by William S. McNary, chairman of the harbor and land commission, to Governor Ross and the directors of the port of Boston. Mr. McNary, who says his information is based upon facts secured from Grand Trunk and New Haven sources, outlines a proposed traffic agreement between the two systems. The report reads in part:

**Extension Will Be Built.**  
"That the work of the Southern New England extension from Palmer to Providence has been stopped because the Grand Trunk, which is substantially an English owned and financed road, cannot get the funds at present in England or Canada, the Balkan war gears contributing quite largely to this result."  
"That the Palmer-Providence road would in all probability be built in the spring because of the money already expended and contracts which had been let for steel railway materials, bridge, etc."

**Extension to Be Abandoned.**  
"The projected Southern New England or Grand Trunk extensions from White River Junction to Boston, on the north, and from Providence and Blackstone to Boston, on the south, will not be built because of the practical impossibility for the Grand Trunk railroad to secure the many millions of dollars needed to finance the plans for construction."  
"That the Grand Trunk railway will get cautiously on its plans for the Canadian construction for the time being, and will probably slowly retrace the present Borden conservative government in Canada, which favors the Canadian Pacific rather than the Grand Trunk."

**Double Track to White River Junction.**  
"That the New Haven road and the Boston and Maine will double track its lines from Concord, N. H., to White River Junction, and its Connecticut river lines from White River Junction to Greenfield, Mass., and will thus give double track facilities from White River Junction to Boston, and substantially to New York."

"That the New Haven and Boston and Maine system will give to the Grand Trunk either track facilities over its lines to Boston or tracks or facilities by which the Grand Trunk can send business to Boston or to other New England points, either over the New Haven and Boston and Maine roads, in the cars of the New Haven-Maine system, or in the cars of the Grand Trunk, with its own motive power, its own cars and its own crews to Boston, and its own freight trains to the Boston terminals at Charlestown and South Boston. The Grand Trunk will so deal as desired, and for such terms of years as the Grand Trunk desires also."

**New Haven Will Handle Grand Trunk Business.**  
"The New Haven road will agree if the Grand Trunk freight or passenger agents will be allowed to get business in any city or section of New England and send it over the New Haven lines to the Grand Trunk connections on the Grand Trunk road, the New Haven to get its proportion of the rate."  
"The New Haven will give substantially the same privileges to the Canadian Pacific, which connects with the New Haven-Boston and Maine system at Newport, Va., or to the Canadian Northern, which connects with the New Haven-Boston and Maine system at Montreal."

**AGREEMENT TO SUCCEED**  
**THE TREATY OF 1832**  
But Russia Will Not Issue Passports to American Jews.

Washington, Nov. 14.—An agreement between the United States and Russia to take the place of the commercial treaty of 1832, which has become virtually obsolete, has been reached, according to information from high official authority. Nothing as to the exact nature of the agreement is announced. It was declared probable, however, that it could be worked out satisfactorily to both countries before the date when the old treaty would expire.

From such standpoint as is obtainable, it appears that Russia has not consented to modify its practice of refusing passports to American or other non-Russian Jews. The czar's government has always held that such Jews, even though they are American citizens, are not entitled to travel or reside in Russia because the existing treaty provides that any American seeking to enter Russia shall submit to the laws and ordinances there prevailing.

The state department has never admitted the soundness of this contention and when congress by resolution ordered the denunciation of the treaty—the actual though not the formal ground being this alleged discrimination against American citizens—the department's position necessarily became unalterable. With such a wide difference between the two countries, both so firmly entrenched, the one in a direct act of congress and the other upon long standing international laws, it seemed an almost hopeless undertaking to prevent that complete severance of trade relations between two friendly nations which had been effected by a large business element.

**Governor-elect Very Low.**

Norwalk, O., Nov. 14.—The result of the first of the cases brought by County Prosecutor Young against six West Clarkfield men charging them with "riotous conspiracy" in stripping the tarring of a girl yesterday, was completed this afternoon. The jury then was excused until tomorrow morning, when arguments will be begun. It is expected that the case will go to the jury by noon.

The defense called the young man's mother, Mrs. Alice Welch, to the stand today and sought by her testimony to prove that he was at home all of the evening on which the "tar party" took place. More testimony to the effect that Minnie La Valley's character was "bad" was also adduced.

**O'SHAUGHNESSY'S PROTEST.**  
Attorney General Wickham to Give It Personal Attention.

Washington, Nov. 14.—A protest from Representative O'Shaughnessy of Rhode Island against the proposed traffic agreement between the Grand Trunk railway of Canada and the New York, New Haven and Hartford railroad was received by Attorney General Wickham today.

Mr. O'Shaughnessy desires the department of justice to attempt to check the proposed traffic agreement, which contemplates the abandonment of the Grand Trunk of proposed extensions in New England and the use by that line of the tracks of the New York, New Haven and Hartford to Providence, Boston and other points.

The attorney general replied that the question would be given his careful personal attention. The department is studying the subject with a view to determining whether the project would offend the Sherman anti-trust law.

**TO MEET CHAMBERLIN.**  
Rhode Island Representatives Have Appointment Today.

Woonsocket, R. I., Nov. 14.—Governor Arden J. Pothier said tonight that he had received a telegram from Attorney General Rice at New York saying that he and W. C. Governor Pothier said: "These officials were instructed by me to urge upon President Chamberlin the absolute necessity under the present circumstances of a definite answer to the question of whether the Grand Trunk intends to build its extension from Palmer, Mass., to Providence within the time limit set by its charter granted by the Rhode Island legislature. This limit is in 1915."

**HOMER S. CUMMINGS**  
**DINES WITH WILSON.**  
Connecticut Committee Man Guest of the President-elect.

Princeton, N. J., Nov. 14.—President-elect Wilson and President Taft are to be in New York at the same time on Saturday, and the probabilities are against their meeting. Governor Wilson plans to go to New York tomorrow afternoon to attend a dinner to be given him by the class of 1879 of Princeton university, of which he is a member. He will remain in the metropolis until the afternoon of Saturday, when he starts on his vacation trip.

President Taft is expected to reach New York early Saturday. The president-elect, however, will be occupied with numerous engagements preparatory to starting on his journey and probably will have no opportunity to call upon the president during the brief time he will be in the city.

Homer S. Cummings, democratic national committeeman from Connecticut, had luncheon today with the governor, S. S. Thompson, Princeton '97 and a football star, president of the Wilson Rocky Mountain Republican club, reached here from Denver today to see the Yale-Princeton game on Saturday, and dropped in for a little while to felicitate the president-elect. ## The Explosion at Los Angeles

**HOW McNAMARA BLEW UP THE TIMES BUILDING**  
**IS TOLD BY McMANIGAL**

**Testifies That James B. McNamara Gave Him the Details On a Hunting Trip—Sorry He Did Not Get Otis.**

Indianapolis, Nov. 14.—For the first time since the 21 persons were killed in the blowing up of the Los Angeles Times building on Oct. 1, 1910, James B. McNamara's detailed confession of having caused the explosion, with his motives for doing it, and his comments on the fact that so many people were killed, was related on the witness stand in the "dynamite conspiracy" trial today.

Ortie E. McManigal testified the confession was given to him while he was hiding in the woods five miles from Conover, Wis., with McNamara, both of them having gone to the woods on the pretext of being hunters.

**Frisco Labor Leaders Invited.**  
Olaf A. Tveitmo and Eugene L. Clancy, San Francisco labor leaders, McManigal testified, were named by McNamara as having made arrangements for the Los Angeles explosion and as having furnished the two men with a sack of dynamite to use to assist in buying the high power nitro-gelatin, because Schmitt and Caplan had been regularly employed on the coast by the building trades council of California.

Tveitmo and Clancy are among the 45 defendants now on trial. Caplan and Schmitt, named by McManigal, were indicted in Los Angeles along with James B. McNamara on charges of murder, but they never have been captured. Government agents have been informed that Caplan was killed.

**Hoped to Kill General Otis.**  
When he asked McNamara why he twisted off a gas jet in the basement of the Times building before the explosion, McManigal testified that this conversation ensued:

McManigal—"Why did you break off the gas jet?"  
McNamara—"Because when the explosion occurred I wanted the whole building to go to hell."

McManigal—"And you knew there was so many people in there, too?"  
McNamara—"What's the difference? I was to make a good cleaning out, and I did it. But I am sorry so many were killed. I hoped to get General Otis."

**Took McNamara on Hunting Trip.**  
McManigal said that on Nov. 5, 1910, he went to Conover, Wis., with McNamara and expected to leave the next day for Kenosha, Wis., where he was to start with a hunting party. That very day, he said, John J. McNamara, brother of James B. McNamara, called on him and asked him to take James B. on the hunting trip. McManigal said he had learned that James B. had been in J. E. Munsey in Salt Lake City.

He said he went to Kenosha and J. B. hid him there. They procured hunting licenses and went with the pack and then to a camp five miles in the country.

**Got Suspicious of McNamara.**  
"On Nov. 9," said McManigal, "I missed James B., and started out alone to look for some deer. Standing on a tree stump, I suddenly heard the crack of a pistol, but, looking around, I saw no one. Everyone was supposed to wear red cap to distinguish people from deer. I saw no red cap, but presently I saw James B. Suspicion flashed into my mind. I accused him right off. 'I think you were taking a shot at me,' I said. 'If you do, you had better be quick about it. This is a fine place up here to get rid of a man—just shoot him and the coyotes will eat up his body.'"

**Told Him of Los Angeles Job.**  
"He replied he just did it to scare me. Then, he being alone for the first time, he sat down and told me about the Los Angeles job. He said he went to the coast in July to get in touch with Tveitmo and Clancy, according to instructions from his brother at the headquarters of the Iron Workers' union in Indianapolis."

"Then he told me how he had set the bomb in what is known as Ink court, which was a room in the building, and old papers. Going in, he said, he was stopped by the night watchman, who asked him what he wanted in there. He replied he was going to the company's room. The watchman let him pass. He went again stopped by a boy, but he also told the boy he was going to the composing room. The boy directed him to a door on a stairway. I think he was in the first time, he sat down and told me about the Los Angeles job."

**Put Infernal Machine at Otis' Door.**  
"He reached the basement and while passing through it took off a gas jet. I asked 'Why did you break off the gas jet?' He replied 'Because I wanted the whole building to go to hell.' I said 'I was surprised he would do it, knowing there were so many people in the building. He answered: 'What's the difference? I was to make a good cleaning out, and I did it.' Then he thought for a while and added: 'But I am sorry there were so many people. I wanted to get General Otis.'"

"He told me he put the infernal machines at the residences of Gen. Harrison Gray Otis, proprietor of the Times, and of Felix J. Zeehandelaar, secretary of the Merchants' and Manufacturers' association, all to go off at 1 o'clock in the morning."

**Florida Lynchers**  
**EMPLOY A NEW METHOD**  
Tall Negro to "Beat It" Then Riddle Him With Bullets.

Ocala, Fla., Nov. 14.—Unusual means were employed here today in the lynching of Preech Neils. The negro was arrested for the murder of Mary Stevenson, aged 18, and her grandfather, J. B. Berges, aged 30, at McIntosh, Fla., yesterday. After taking the negro from the jail, the mob of more than 200 marched him to the outskirts of the town. There he was set free and ordered to "Beat it." After he had run a few steps, the contents of scores of guns were fired into his body, literally shooting it to pieces.

## Armistice Not Yet Concluded

**DIFFICULTIES HAVE ARISEN OVER ITS TERMS**

**DEMANDS OF BULGARIA**

**Insists Upon the Evacuation of Adrianople, Scutari and Monastir as Conditions of Its Agreement to Armistice**

London, Nov. 14.—Turkey has now formally agreed to Bulgaria for peace, thus forestalling the tardy action of the European concert towards mediation. No armistice has yet been concluded; difficulties have arisen about the terms. It is said that Bulgaria demands the evacuation of Adrianople, Scutari and Monastir as a condition of agreeing to an armistice. Negotiations, however, continue.

**Fall of Adrianople Reported.**  
The censorship is again exceedingly severe and it is difficult to arrive at any correct ideas of the military positions. The fall of Adrianople is rumored from both Serbian and Turkish sources, but this is still unconfirmed.

Another report says that the Bulgarians have evacuated Hadjenek, 21 miles from Constantinople. If this is true, it is a very important capture, as that town is Nazim Pasha's staff headquarters while the Vienna Reichpost correspondent with the Bulgarian army reports what he describes as "murderous fighting" along the Tchatalja lines. Turkish official reports deny that there has been any serious fighting for several days.

**Montenegrins Get Busy.**  
With regard to the other points, an improvement in the weather has permitted the resumption of the Montenegrin attacks against the Turkish positions around Scutari, with some success. A battle is imminent at Monastir, where the garrison has endeavored to make terms for its surrender, but imposed conditions which the Serbian crown prince was unable to grant.

Should an attack on Monastir be made the Turks are not expected to offer serious resistance to the combined Serbian and Greek armies, and the fate of Monastir is likely to follow that of Saloniki.

**Bulgarian Losses 60,000 to 80,000.**  
The Greeks continue their advance towards Janina. They have now captured Metsovo, a few miles to the northeast. A report through Bucharest places the Epirotian losses in the war at a far greater figure than has yet been estimated. According to this report, the killed and wounded number between 60,000 and 80,000 out of a total of 220,000 men, and it is pointed out, after allowances are made for holding the line of communication, only 160,000 effective men are left for fighting.

**Reported Epidemic of Cholera.**  
One reason which is considered likely to induce Bulgaria to consent to an armistice and to a peace settlement is fear of cholera. Official reports issued at Constantinople represent that comparatively few cases are occurring daily, but other reports say that the epidemic is serious, with a high mortality.

There is no new development in the diplomatic situation, but an official denial has been issued at St. Petersburg in the report that the Russian government has pronounced itself definitely in favor of Serbia's claim for an Adriatic port, or has sent instructions to the ambassador at Vienna to that effect.

**British Steamer Captured.**  
London, Nov. 14.—A Lloyd's despatch from Athens says that the British steamer Annetta from Philadelphia, October 22, and New York, October 25, has been captured. The steamer is said to have a cargo of war stores for Albania.

**WOMEN IN FIGHT**  
**AT A CARD PARTY.**  
Court Brands Event as Violation of Gambling Law.

Kansas City, Mo., Nov. 14.—Women's card parties conducted under the name of clubs, not requiring a membership card nor a special invitation, were branded a violation of the gambling law by Judge Burney in the municipal court today.

The case in court was that of Mrs. Laura Setzer, charged with disturbing the peace following a quarrel with Mrs. Frances Thompson at a meeting of the Progressive High Five club at the home of Mrs. Connie Stewart, a teacher of China painting.

The courtroom was filled with women. Witnesses testified variously that Mrs. Setzer gave Mrs. Thompson the first slap and vice versa. After Mrs. Thompson had administered a friendly but roundabout slap on the cheek of her attorney, George Birmingham, to attest to the severity of the blow, she received the court discharged the women with a reprimand. Testimony showed that the club often had met in a public hall, that 25 cents had been charged players and that as many as fifty women had taken part in games for prizes. The club was placed under the ban of the court.
