GRAY HAIRS VANISH.

If You Use a Harmless Remedy Made from Garden Sage.
 A feeling of sadness accompanies the discovery of the first gray hairs, which unfortunately are looked upon as heralds of advancing age. Gray hairs, however, are not a sign of old age, but a person look old. We all know the advantages of being young. Aside from the good impression a youthful appearance makes on others, simply knowing that you are "looking fit" gives one courage to undertake and accomplish things. So why not for the handicap of looking old on account of gray hairs, when a simple remedy will give your hair its color and beauty in a few days' time? Most people know that common garden sage acts as a color restorer and scalp tonic as well. Our grandmother used a "Sage Tea" for keeping their hair dark, soft and luxuriant. In Weymouth's Sage and Sulphur Hair Remedy we have an ideal preparation of Sage, combined with Sulphur and other valuable remedies for dandruff itching scalp and thin, weak hair that is split at the ends or constantly coming out. A few applications of this valuable remedy will bring back the color, and in a short time it will remove every trace of dandruff and greatly improve the growth and appearance of the hair. Get a fifty cent bottle from your druggist today, and notice the difference in your hair after a few days' treatment. All druggists sell it under guarantee that the money will be refunded if the remedy is not exactly as represented. Agents The Lee & Osgood Co.
