DROBECK-HEHR TEAM WINS One Mile Sprint Decided Six Day Bike Race at Kansas City—Capablanca Suffers First Defeat in Chess Masters' Tournament.

Kansas City, Feb. 2.—Drobach and Hehr were the winners in the six day bicycle race that finished here tonight. Drobach and Hehr finished second. Five teams rode 1,055 miles and ten laps and the winners were decided by a one mile sprint around the twelve lap track.

CAPABLANCA LOSES. Defeated by Jaffe After Ten Straight Victories.

New York, Feb. 2.—Jose R. Capablanca, the Cuban chess champion, after winning ten straight games in the National Chess Masters' tournament, sustained his first loss today, Tuesday, at the hands of Charles Jaffe of this city. He still has a point and a half lead, however. The Cuban, who had the white side of a couple Ruy Lopez, sacrificed a pawn at the 20th move to complicate matters and held the upper hand until the 20th move, when he fell into a trap and admitted defeat at the 31st move.

A motorcycle figured largely in the delivery of what is claimed to be the first parcel post package delivered in the United States. The package was carried by motorcycle from the San Jose, Cal., postoffice to a local newspaper office arriving there a few seconds after twelve o'clock on the morning of January 1.

FINANCIAL AND COMMERCIAL

WEAKNESS IN LEADERS. Early Decline in Prices Followed by General Recovery.

New York, Feb. 1.—The market closed irregular. Weakness in several influential stocks and admissions by trade authorities that there was more perceptible slowing in general business caused an early decline in the stock market. Resumption of pool operations in minor specialties and covering of the coalers and western railroad stocks ultimately turned the course of prices upward. The market list, however, did little more than make up its lost ground, and at the close showed some irregularity. Bonds were irregular.

MADE MONEY SINCE BRUSH AND MCGRAW FORMED UP, BUT MAINLY THROUGH FORCE OF CIRCUMSTANCES.

Money at Chicago. Both Chicago clubs have been money makers, though not so great as many believe. This has been due to the same thing that made the Giants a success. The Cubs have been four-time pennant winners and three times winners of world's championships. The White Sox have been pennant winners and always in the fight, though the receipts have shown a falling off in the past few years. Then, too, both Chicago clubs have had the advantage of Sunday baseball, which has given them their greatest crowds. No other city in the country has had such a combination tending to make money for it.

Pittsburgh, though not so large as New York, Chicago or Philadelphia, has been a uniform money maker, though even at that the great Forbes said in Pittsburgh has not been as good as it once was. Pittsburgh has made its money because it has won a number of pennants and has been in the first three nine out of ten years. Then it has always enjoyed one of the most sane and half-million-dollar ball parks erected, all this on the presumption that baseball had only reached the halfway stage, and that big fortunes were right at hand ready to be grasped.

Magnates Getting On. Now two American league magnates have sounded the warning, and others in both leagues though not publicly admitting that they have similar sentiments, have expressed themselves as feeling the same, in private. Connie Mack, the astute manager and half-owner of the Athletics, says that instead of his club, which was twice in succession a world's champion competitor, being a money-maker, it has not paid a dividend in five years.

Frank Navin, the president of the Detroit club, says that the great popularity in baseball has been passed and that it will get no greater as a money-making proposition. He says that the only salvation of the major league club owners is to curtail his expenses, wherever possible, instead of spending money like water. He says that he has done this and is cutting down as much as possible on the number of players carried, and in all ways conduct the club as an ordinary business proposition.

Ball Parks Expensive. Nearly every ball club in the two major leagues has expended great sums of money on ornate ball parks. Only a couple of clubs can be considered full each season, and make a round sum of money. A little money is of little use to the club owner. Half-million dollar ball parks mean such a great investment that at least \$50,000 profit must be made before the owner is interested in the great sum tied up in the ball park.

Cost of an average estimate \$1,000,000 to run a ball club. The season lasts 154 days, which means that the bare running expenses of a club in the sport in the last ten years or so. Some run greater owing to larger salaries. Then the ball park investment must be taken into consideration. Taken all in all a club must have an average of more than \$300,000 profit daily to hope to come out on the right side of the ledger under present conditions.

Loss Profit Than Loss. Where are the tremendous fortunes made by magnates out of baseball? Line up the amount of money lost in the sport in the last ten years and balance it with the amount actually cleared, and it is likely that the scale would tip in favor of the losses. The magnates have permitted the impression that they are all rolling in wealth, whereas only about six clubs have been good investments out of the 16 major league franchises in the past ten years.

The New York Giants have always made money since Brush and McGraw formed up, but mainly through force of circumstances. The best city in the country, and have been uniformly successful. McGraw has won four pennants in all time, and has been in the thick of the fight every other year. Consequently the Giants have played to great crowds.

YESTERDAY WHEN HE TALKED WITH GIBSON, AND AGREED TO TAKE 30 PER CENT OF THE GATE RECEIPTS FOR HIS GOLF.

McFarland and Britton. To box in Madison Square Garden in First Week in March.

After months of challenging on the part of Jock Britton and weeks of bagging over guarantee and percentage in the sport in the last ten years and millions not of thousands but hundreds of thousands of dollars during a season.

Neither Morgan nor the Garden A. C. will guarantee McFarland and Britton. The Garden A. C. of New York for the first week in March. Manager Billy Gibson said the exact date would not be decided upon until McFarland arrives there in about two weeks, but probably March 7 would be chosen for the contest.

Since the arrival of Dan Morgan from New Orleans all the leading clubs of the city have been dicker for this match, and big offers were made by both the McMahon brothers and the Empire A. C. and Harry Bolton of the Forty-fourth Street Sporting Club. Gibson, who has acted as McFarland's eastern adviser for the past two years, has also been busy, and had a long conversation with McFarland over the long-distance telephone.

At the conclusion of the talk McFarland told Gibson to go ahead and get Morgan's consent and the match would be on. This was easy, as Morgan has been trailing McFarland ever since he took Britton under his management and he has been making all sorts of offers to get the pair in the ring.

C. will have to guarantee McFarland \$5,000, the figure which the stock yards champion has been insisting on since the match was first proposed. Packey backed down on this feature.

"SAIL FROM BOSTON But First SEE NEW ENGLAND"

The New England Railroad Lines have now put in circulation half a million illustrated pamphlets, in the form of a railroad folder, entitled as above, and still invite the public to freely accept of them and enclose them in the envelopes in which they send letters or accounts to their correspondents, especially in the West.

This folder is in two sizes and can be enclosed in either a large or small envelope without increasing the postage. They may be had of any of the 2100 station agents of the New England Lines or in large lots from Room 492, South Station, Boston.

It shows the relative size of the earliest and latest in ocean liners, maps the ocean routes of the six passenger lines from Boston; gives sailing dates of the steamers from Boston for 1913, the location and rates of the thirty first-class hotels in Boston and details the attractions in and around Boston for a stop-over by the ocean tourist.

The slogan, "Sail from Boston, But First See New England," has been taken up in Chicago and the West most resolutely.

Let us continue to forward the slogan from New England and assist in arousing the whole country to the advantages of New England, not only as a sailing port, but as the summer resort and vacation ground for the whole United States. The New England Railroad Lines can be relied upon for their part in the co-operative upbuilding of New England.
