Hundreds Injured by a Violent Wind Storm Which Swept Nearly a Dozen States

VELOCITY OF 88 MILES AN HOUR AT BUFFALO

Alabama the Worst Sufferer, 28 Fatalities Being Reported There—Property Loss Will Reach Millions—Buildings and Wires Blown Down—Wind Accompanied by Snow, Sleet and Hail—Cold Wave Follows.

More than 60 persons are reported killed and hundreds were injured, some mortally, by a storm of unusual intensity which raged over central, western, southern and parts of eastern states yesterday. Property damage will run well into the millions.

Definite advice has been received accounting for at least 40 persons dead, with reports from points temporarily cut off from wire communication by the storm adding hourly to the list.

Reports from Alabama show the loss of life was heaviest in that state, the number of dead there being already definitely placed at 28, with additional fatalities reported but not confirmed. The town of Lower Peachtree was practically wiped out.

Two are dead in Indiana, two in Tennessee, three in Ohio, two in New York, one in Michigan and two in Louisiana.

Accompanying the death lists are estimates of injured totalling more than 500 and additions coming in at brief intervals.

Coming up out of the southwest early Friday afternoon the storm was ushered in, the storm swept with startling suddenness diagonally across the country, reaching the coast of western Pennsylvania and New York, bisecting the Mississippi valley and moving northward across the Ohio into the great lake region.

Shifting winds of great violence, accompanied by sleet and hail, characterized the storm, easily the most destructive of the year and rarely equaled in extent of its sweep and the damage it did. Buildings toppled before the blow in nearly every state, and death lay all along in its wake.

The property loss was heavy all along the storm's path, with the smashing or unroofing buildings and felling trees the high winds, rain, hail and sleet did the most damage.

AUSTRIAN FLEET TO PROTECT CATHOLICS.

Relations With Montenegro Becoming Exceedingly Strained.

London, March 21.—The relations of Austria and Montenegro have become acute, even to the point of breaking down, since the previous treaty of King Nicholas of Montenegro to Austria's note concerning Scutari, in which he expressed his belief that the civil population of Scutari, but refused to concede Vienna's demand that the Austrian fleet should be permitted to participate in the inquiry into the alleged murder of the priest, Palle, the forcible conversion of Catholics and the interference with the Austrian fleet now off the coast of Albania.

Russia, with which country Austria is reported to have reached a complete agreement, will, it is understood, urge Montenegro to show a more conciliatory spirit, but the previous treaty of the Russian government in this direction was fruitless, and it is feared that King Nicholas will not give up his crown depends upon the capture of Scutari, will remain stubborn.

Austria has notified the powers that her fleet has gone to the Albanian coast because of the position of the Catholics, whom Austria, as protector, and has sent back to Cetinje her minister, Baron De Giesel, who will impress upon the king the determination of Austria that Scutari shall remain Albanian and that Austria's other demands must be complied with.
